highlights the cultural touchstones that have shaped the lives of that year's incoming college class. Now this fascinating book extends the Mindset List approach to dramatize what it was like to grow up for every American generation since 1880, showcasing the remarkable changes in what Americans have considered normal about the world around them. Expands Tom McBride and Ron Nief's popular annual Mindset Lists to explore the mindset of nine generations of Americans from 1880 to the future high school graduates of 2030. Offers a novel and absorbing way to understand the frame of reference of Americans through history, whether it's the high school grads of 1918 who viewed riding an elevator as a thrill second only to roller coasters or those of 2009 who have always thought of friendship as an active verb. Puts a human face on the evolution of historical changes related to technology, the struggle for rights and equality, the calamities of war and depression, and other areas. The annual Mindset List garners extensive media attention, including on Today, The Early Show, the NBC Nightly News, CNN, and Fox, as well as in the Wall Street Journal, the New York Times, USA Today, the Los Angeles Times, Time magazine, and hundreds of international publications. Whatever your own generational mindset, this book will give you an entertaining and important new tool for understanding the unique perspective and experience of Americans over more than a hundred and fifty years.
