The Fairmount Park Motor Races, 1908-1911 Michael J. Seneca, 2003-01-01 For four years early in the last century the Fairmount Park Motor Races were run on an eight mile course in Philadelphia's West Fairmount Park They drew half a million spectators the first year but surprisingly they have been overlooked as part of automobile racing history and as part of the history of Philadelphia In contrast to other racing events such as the Vanderbilt Cup there were never any serious injuries and not a single death but after four years of spectacular racing the event was banned with safety concerns cited Opening with a brief look at automobile racing prior to 1908 the book covers the events leading up to the first race It discusses the proposal to have a race in Fairmount Park and the reasons why Philadelphia and the park in particular was such an unlikely place Both the on track action of the races and the off track events that affected them are described Dr J William White's successful crusade following the 1911 outing to stop the races is examined as are attempts to revive the race in the following six years including Philadelphia's attempt to compete with Indianapolis by constructing a two mile oval speedway and the city's eventual exit from automobile racing

,2002 **Brand New Justice** Simon Anholt,2006-08-11 Recently vilified as the prime dynamic driving home the breach
between poor and rich nations here the branding process is rehabilitated as a potential saviour of the economically
underprivileged Brand New Justice now in a revised paperback edition systematically analyses the success stories of the Top
Thirteen nations demonstrating that their wealth is based on the last mile of the commercial process buying raw materials
and manufacturing cheaply in third world countries these countries realise their lucrative profits by adding value through
finishing packaging and marketing and then selling the branded product on to the end user at a hugely inflated price The use
of sophisticated global media techniques alongside a range of creative marketing activities are the lynchpins of this process
Applying his observations on economic history and the development and impact of global marketing Anholt presents a cogent
plan for developing nations to benefit from globalization So long the helpless victim of capitalist trading systems he shows
that they can cross the divide and graduate from supplier nation to producer nation Branding native produce on a global
scale making a commercial virtue out of perceived authenticity and otherness and fully capitalising on the last mile benefits
are key to this graduation and fundamental to forging a new global economic balance Anholt argues with a forceful logic but
also backs his hypothesis with enticing glimpses of this process actually beginning to take place Examining activities in India
Thailand Russia and Africa among others he shows the risks challenges and pressures inherent in turning the tide but above
all he demonstrates the very real possibility of enlightened capitalism working as a force for good in global terms
