The Battle of Vouillé, 507 CE Ralph W. Mathisen, Danuta Shanzer, 2012-07-04 This volume highlights the heretofore largely neglected Battle of Vouill in 507 CE when the Frankish King Clovis defeated Alaric II the King of the Visigoths Clovis victory proved a crucial step in the expulsion of the Visigoths from Francia into Spain thereby leaving Gaul largely to the Franks It was arguably in the wake of Vouill that Gaul became Francia and that France began The editors have united an international team of experts on Late Antiquity and the Merovingian Kingdoms to reexamine the battle from multiple as well as interdisciplinary perspectives The contributions address questions of military strategy geographical location archaeological footprint political background religious propaganda consequences both in Francia and in Italy and significance There is a strong focus on the close reading of primary source material both textual and material secular and theological

The Skeptic's Walk Denis Diderot, 2018-04-05 This is a Divine Comedy or Pilgrim s Progress for the post religious age Finding himself on a quest through the forest of life towards the general rendez vous at the end our hero journeys first on the path of religion and faith then the path of the philosophers where debate and ideas reign and finally the path of worldly pursuits and pleasure Along the way he dodges inquisitors raging fanatics insane philosophers faithless lovers and scheming social climbers Truly a neglected classic As Diderot said even if you are not amused you may still benefit from it This third edition was revised in 2018

The Gas Heart Tristan Tzara, 2008-01-18 Written in 1920 or 1921 first performed on June 10 1921 next and most famously performed July 6 1923 Modus ponens If the purpose of Dada in general and The Gas Heart in particular was to piss people off then both especially the latter succeeded marvelously The purpose of Dada in general and The Gas Heart in particular was to piss people off Therefore

The Strassburger family and allied families of Pennsylvania; being the ancestry of Jacob Andrew Strassburger, esquire, of Montgomery county, Pennsylvania Ralph Beaver Strassburger, 1922-01-01 Society and Culture in Late Antique Gaul Ralph Mathisen, Danuta Shanzer, 2017-07-05 Late Roman Gaul is often seen either from a classical Roman perspective as an imperial province in decay and under constant threat from barbarian invasion or settlement or from the medieval one as the cradle of modern France and Germany Standard texts and moments have emerged and been canonized in the scholarship on the period be it Gaul aflame in 407 or the much disputed baptism of Clovis in 496 508 This volume avoids such stereotypes It brings together state of the art work in archaeology literary social and religious history philology philosophy epigraphy and numismatics not only to examine under used and new sources for the period but also critically to reexamine a few of the old standards This will provide a fresh view of various more unusual aspects of late Roman Gaul and also it is hoped serve as a model for ways of interpreting the late Roman sources for other areas times and contexts

The Jedburghs Will Irwin, 2005-10-10 The Jedburghs were a pioneering Special Forces unit

uniquely made up of American British and French volunteers They parachuted deep behind the German lines to assist with the recapture of France in 1944 Dropped in teams of three the Jeds would rally local opposition to the Germans and conduct guerrilla warfare sabotage ambush and intelligence gathering ahead of the advancing Allied armies In doing so they contributed to the Allied breakout from the Normandy bridgehead and to the rapid advance to the German border Above all the Jedburgh teams were trained to survive The three man teams could not be certain that their communications with London would survive the drop or that any meaningful resupply would be possible They had to operate alone against extraordinary odds in a country almost entirely occupied by a hostile force prepared to survive pitched battles with the Wehrmacht and relentless manhunts by the Gestapo Nor did they know how long they would have to wait before the Allied front line reached them It was an enormous test of endurance cunning and strength of will The Jedburghs tells the story of these heroic young men and offers a new perspective on the D Day landings Will Irwin who served in the modern U S Army Special Forces himself has selected seven of the Jedburgh teams and told their stories as gripping personal narratives He has gathered archival documents diaries and correspondence and interviewed veterans and family members in order to present a full portrait of their crucial role recognized by Churchill and Eisenhower in the struggle to liberate Europe It is narrative history at its most compelling a vivid drama of the battle for France from deep behind enemy lines BOOK JACKET *The K/T Boundary of Gams (Eastern Alps, Austria) and the Nature of Terminal Cretaceous Mass Extinction* Andrei F.

Bachrach,2011-03-08 Without the complex military machine that his

forebears had built up over the course of the eighth century it would have been impossible for Charlemagne to revive the Roman empire in the West Early Carolingian Warfare is the first book length study of how the Frankish dynasty beginning with Pippin II established its power and cultivated its military expertise in order to reestablish the regnum Francorum a geographical area of the late Roman period that includes much of present day France and western Germany Bernard Bachrach has thoroughly examined contemporary sources including court chronicles military handbooks and late Roman histories and manuals to establish how the early Carolingians used their legacy of political and military techniques and strategies forged in imperial Rome to regain control in the West Pippin II and his successors were not diverted by opportunities for financial enrichment in the short term through raids and campaigns outside of the regnum Francorum they focused on conquest with sagacious sensibilities preferring bloodless diplomatic solutions to unnecessarily destructive warfare and disdained military glory for its own sake But when they had to deploy their military forces their operations were brutal and efficient Their training was exceptionally well developed and their techniques included hand to hand combat regimented troop movements fighting on horseback with specialized mounted soldiers and the execution of lengthy sieges employing artillery In order to sustain their long term strategy the early Carolingians relied on a late Roman model whereby soldiers were recruited from among the militarized population who were required by law to serve outside their immediate communities The ability to mass and train large armies from among farmers and urban dwellers gave the Carolingians the necessary power to lay siege to the old Roman fortress cities that dominated the military topography of the West Bachrach includes fresh accounts of Charles Martel s defeat of the Muslims at Poitiers in 732 and Pippin s successful siege of Bourges in 762 demonstrating that in the matter of warfare there never was a western European Dark Age that ultimately was enlightened by some later Renaissance The early Carolingians built upon surviving military institutions adopted late antique technology and effectively utilized their classical intellectual inheritance to prepare the way militarily for Charlemagne s empire
