The Michelin Men Herbert R. Lottman, 2003-10-23 This is the remarkable story of how two brothers, Edouard and Andre Michelin, turned a sleepy family tyre firm in the heart of rural France into one of the most innovative and successful industrial empires in the world. Edouard, a landscape painter at the Ecole des Beaux Arts, displayed an engineering genius for tyre making and product innovation, whilst Andre, trained as an engineer, displayed a creative genius for advertising and marketing. Together, they kick-started the world motor industry and created a tourist industry around the motor car and their now legendary Michelin Guides. The Michelin history as described here by Herbert Lottman reveals insights into the development of this remarkable business *The Taste of Place* Amy B. Trubek, 2008-05-05 While much has been written about the concept of terroir as it relates to wine, this book expands the concept into cuisine and culture more broadly. Bringing together stories of people farming, cooking, and eating, the author focuses on a series of examples ranging from shagbark hickory nuts in

Wisconsin to wines from northern California
