Strengthening Forensic Science in the United States National Research Council, Division on Engineering and Physical Sciences, Committee on Applied and Theoretical Statistics, Policy and Global Affairs, Committee on Science, Technology, and Law, Committee on Identifying the Needs of the Forensic Sciences Community, 2009-08-29 Scores of talented and dedicated people serve the forensic science community performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call to action for Congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

**Divining the Etruscan World** Jean MacIntosh Turfa, 2012-07-16 The Etruscan Brontoscopic Calendar is a rare document of omens foretold by thunder. It long lay hidden, embedded in a Greek translation within a Byzantine treatise from the age of Justinian. The first complete English translation of the Brontoscopic Calendar, this book provides an understanding of Etruscan Iron Age society as revealed through the ancient text, especially the Etruscans' concerns regarding the environment, food, health, and disease. Jean MacIntosh Turfa also analyzes the ancient Near Eastern sources of the Calendar and the subjects of its predictions, thereby creating a picture of the complexity of Etruscan society reaching back before the advent of writing and the recording of the calendar.

**Sacred Natural Sites** Bas Verschuuren, Robert Wild, Jeffrey McNeely, Gonzalo Oviedo, 2012-06-25 Sacred Natural Sites are the world's oldest protected places. This book focuses on a wide spread of both iconic and lesser known examples, such as sacred groves of the Western Ghats, India; Sagarmatha (Chomolungma), Mt. Everest, Nepal; Tibet, and China; the Golden Mountains of Altai, Russia; Holy Island of Lindisfarne, UK; and the sacred lakes of the Niger Delta, Nigeria. The book illustrates that sacred natural sites, although often under threat, exist within and outside formally recognised protected areas, heritage sites. Sacred natural sites may well be some of the last strongholds for building resilient networks of connected landscapes. They also form important nodes for maintaining a dynamic socio-cultural fabric in the face of global change. The diverse authors bridge the gap between approaches to the conservation of

cultural and biological diversity by taking into account cultural and spiritual values together with the socio economic interests of the custodian communities and other relevant stakeholders      **Math in Society** David Lippman,2022-07-14 Math in Society is a survey of contemporary mathematical topics appropriate for a college level topics course for liberal arts major or as a general quantitative reasoning course This book is an open textbook it can be read free online at <http://www.opentextbookstore.com/mathinsociety> Editable versions of the chapters are available as well      Uncovering Texas Politics in the 21st Century Eric Lopez,Marcus Stadelmann,Robert E.
