presented in a different style of magic realism science fiction than the first book but involves primarily the third generation characters of that story Although it helps to illuminate some of the solutions the second book is not meant to be dependent upon the first book with respect to understanding the story A field search with Tessa for bigfoot uncovers shapeshifting humans who transform Mickey involuntarily into a sasquatch He faces being alone unprepared for the most basic circumstances or joining a terrorist group What should he eat What does he look like Should he contact his family to let them know he is alive Is he really alive in a human sense Where would he go if he tries to escape And what are the psychological tests being administered to him Who are these shapeshifting characters really What long term impact does biological mutation have Who can rally the true sasquatches and how can they help Why has Mickey been chosen in the first place
