The Other 1980s Brannon Costello, Brian Cremins, 2021-06-02 Fans and scholars have long regarded the 1980s as a significant turning point in the history of comics in the United States but most critical discussions of the period still focus on books from prominent creators such as Frank Miller Alan Moore and Art Spiegelman eclipsing the work of others who also played a key role in shaping comics as we know them today The Other 1980s offers a more complicated and multivalent picture of this robust era of ambitious comics publishing The twenty essays in The Other 1980s illuminate many works hailed as innovative in their day that have nonetheless fallen from critical view partly because they challenge the contours of conventional comics studies scholarship open ended serials that eschew the graphic novel format beloved by literature departments sprawling superhero narratives with no connection to corporate universes offbeat and abandoned experiments by major publishers including Marvel and DC idiosyncratic and experimental independent comics unusual genre exercises filtered through deeply personal sensibilities and oft neglected offshoots of the classic underground comics movement of the 1960s and 1970s The collection also offers original examinations of the ways in which

the fans and critics of the day engaged with creators and publishers establishing the groundwork for much of the contemporary critical and academic discourse on comics By uncovering creators and works long ignored by scholars The Other 1980s revises standard histories of this major period and offers a more nuanced understanding of the context from which the iconic comics of the 1980s emerged *Understanding Men And Health: Masculinities, Identity And Well-Being* Robertson, Steve,2007-09-01 Based on empirical research and data this book provides an interdisciplinary exploration of the links between men health policy gender and masculinity *Microdystopias* Janne Stigen Drangsholt,2022-11-18 In contrast to classic dystopia s manifestations of world shattering and changing events Microdystopias Aesthetics and Ideologies in a Broken Moment introduces and develops the idea of microdystopia as the emerging genre for our times of imperceptibly shrinking horizons of possibilities in relation to film series and literature *Goncharov in the Twenty-First Century* Ingrid Kleespies,Lyudmila Parts,2021-11-23 Goncharov in the Twenty First Century brings together a range of international scholars for a reexamination of Ivan Goncharov s life and work through a twenty first century critical lens Contributions to the volume highlight Goncharov s service career the complex and understudied manifestation of Realism in his work the diverse philosophical threads that shape his novels and the often colliding contexts of writer and imperial bureaucrat in the 1858 travel text Frigate Pallada Chapters engage with approaches from post colonial and queer studies theories of genre and the novel desire laughter technology and mobility and travel *Genderwashing in Leadership* Rita A. Gardiner,Wendy Fox-Kirk,Carole J. Elliott,Valerie Stead,2024-08-28 International scholars from diverse areas such as leadership organizational studies sociology and education explore how genderwashing occurs from various perspectives including leadership power and privilege identity and career recruitment and selection **Internet Lesbian and Gay Television Series, 1996-2014** Vincent Terrace,2015-06-11 Created around the world and available only on the Web internet television series are independently produced mostly low budget shows that often feature talented but unknown performers Typically financed through crowd funding they are filmed with borrowed equipment and volunteer casts and crews and viewers find them through word of mouth or by chance The third of five volumes on Internet TV series this book covers 335 alphabetically arranged gay and lesbian programs 1996 2014 giving casts credits story lines episode descriptions websites dates and commentary A complete index lists program titles and headings for gay lesbian bi sexual transgender and drag queen shows *POWER ENCOUNTER* GODSWORD GODSWILL ONU, **Theoretical Principles of Sociology, Volume 2** Jonathan H. Turner,2010-08-05 Micro level dynamics revolve around face to face interactions among individuals What occurs within encounters is constrained by their embedding with corporate and categoric units and by extension institutional domains stratification systems community networks societies and inter societal systems In this Handbook the author explores the effect of microdynamics on these larger social systems **The Ekphrastic Encounter in Contemporary British Poetry and Elsewhere** David Kennedy,2016-03-23 Examining a wide range of ekphrastic poems David Kennedy argues that

contemporary British poets writing out of both mainstream and avant garde traditions challenge established critical models of ekphrasis with work that is more complex than representational or counter representational responses to paintings in museums and galleries Even when the poem appears to be straightforwardly representational it is often selectively so producing a virtual work that doesn't exist in actuality Poets such as Kelvin Corcoran Peter Hughes and Gillian Clarke Kennedy suggests relish the ekphrastic encounter as one in which word and image become mutually destabilizing Similarly other poets engage with the source artwork as a performance that participates in the ethical realm Showing that the ethical turn in ekphrastic poetry is often powerfully gendered Kennedy also surveys a range of ekphrastic poets from the Renaissance and nineteenth century to trace a tradition of female ekphrastic poetry that includes Pauline Stainer and Frances Presley Kennedy concludes with a critique of ekphrastic exercises in creative writing teaching proposing that ekphrastic writing that takes greater account of performance spectatorship may offer more fruitful models for the classroom than the narrativizing of images

Measures and Meanings of Spatial Capital Lars Marcus, 2025-02-25 How the built environment understood as spatial capital governs both everyday life in cities and urban systems more generally In an age of social and environmental crises we need to critically rethink the role of the built environment and how best to put it to work *Measures and Meanings of Spatial Capital* presents a new theory of spatial capital arguing that spatial form is essential for building resilience into highly complex urban systems Lars Marcus argues that the built environment constitutes a form of capital that enhances other forms of capital in cities such as social economic and ecological capital if designed with those goals in mind This represents an important and necessary shift in how we approach urban space in the numerous studies of cities that are conducted in a range of disciplines today such as urban sociology urban economics and urban ecology In contemporary urban studies land has oddly lost its position alongside labor and capital as one of the three fundamental production factors in economic theory but as Marcus shows misconceptions of land are at the root of social and environmental crises worldwide By defining the challenges and modeling our use of spatial form to enhance improve land and then synthesizing data into a unified theory of spatial capital Marcus provides a crucial reframing of how we can best plan and design our cities for the global challenges we are facing

Enemy Encounters in Modern Warfare Holly Furneaux, Matilda Greig, 2024-10-09 While the 1914 Christmas truces have a mythological status in British culture intimate interactions with the enemy are this interdisciplinary edited collection shows a staple of modern warfare Spanning multiple conflicts around the world from the nineteenth century to the present Russia Ukraine war the chapters consider how fellow feeling with the enemy during war has been both fueled and limited by constellations of class gender nationality race religion sexuality and shared experience Scrutinizing asymmetries of power in enemy encounters the instability of divisions between allies and enemies and the heterogeneity of experiences within one army or side contributors to this book confront a central question how far is thinking of the enemy as an equal in some way a precondition for non violent interactions with them in

war In some cases the ease of fraternization and reciprocity between the lines raises questions about the necessity of a clear feeling of enmity for fighting to continue while in others exclusionary attitudes based on racial or colonial hierarchies or the criminality of irregular warfare result in extreme violence and differential valuations of enemy lives **The Analysis of Film** Raymond Bellour, 2000 The Analysis of Film brings together the authors studies of classic Hollywood film It is a book about the methods of close film analysis the narrative structure of Hollywood film Hitchcock s work and the role of women
