coverage is marked throughout the course and you can download an objective map for the series from <http://www.30bird.com>. Students will benefit most from this course if they want to accomplish basic workplace tasks in Excel 2016 or if they want to have a solid foundation for continuing on to become an Excel expert. If they intend to take a Microsoft Office Specialist or Expert exam for Excel, this course is a good place to start their preparation but they will need to continue on to other courses in the series to be fully prepared for either exam. The course assumes students know how to use a computer and that they are familiar with Microsoft Windows. It does not assume that they've used a different version of Excel or another spreadsheet program before.
