VBA for Modelers S. Christian Albright, 2007 [The Probability Handbook](#) Mary McShane-Vaughn, 2016-02-05 Probability is tough even those fairly well versed in statistical analysis balk at the prospect of tackling it Many probability concepts seem counterintuitive at first and the successful student must in effect train him or herself to think in a totally new way Mastery of probability takes a lot of time and only comes from solving many many problems The aim of this text and its companion The Probability Workbook coming soon is to present the subject of probability as a tutor would Probability concepts are explained in everyday language and worked examples are presented in abundance In addition to paper and pencil solutions solution strategies using Microsoft Excel functions are given All mathematical symbols are explained and the mathematical rigor is kept on an algebra level calculus is avoided This book is written for quality practitioners who are currently performing statistical and probability analyses in their workplaces and for those seeking to learn probability concepts for the American Society for Quality ASQ Certified Quality Engineer Reliability Engineer Six Sigma Green Belt Black Belt or Master Black Belt exams

Revitalizing Urban Waterway Communities Richard Smardon, Sharon Moran, April Karen Baptiste, 2018-06-14 The revitalizing and restoration of rivers creeks and streams is a major focus of urban conservation activity throughout North America and Europe This book presents models and

examples for organizing multiple stakeholders for purposes of waterway revitalization if not restoration within a context of fairness and environmental justice After decades of neglect and misuse the challenge of cleaning up urban rivers and streams is shown to be complex and truly daunting Urban river cleanup typically involves multiple agendas and stakeholders as well as complicated technical issues It is also often the situation that the most affected have the least voice in what happens The authors present social process models for maximum inclusion of various stakeholders in decision making for urban waterway regeneration A range of examples is presented drawn principally from North America and Europe
