**The Agony and the Ecstasy** Irving Stone, 1987-03      Michelangelo and the Sistine Chapel Andrew Graham-Dixon, 2009-01-01 The story behind the timeless Renaissance revealed      **Michelangelo** Carmen C. Bambach, Claire Barry, Francesco Caglioti, Caroline Elam, Marcella Marongiu, Mauro Mussolin, 2017-11-05 Consummate painter draftsman sculptor and architect Michelangelo Buonarroti 1475 1564 was celebrated for his disegno a term that embraces both drawing and conceptual design which was considered in the Renaissance to be the foundation of all artistic disciplines To his contemporary Giorgio Vasari Michelangelo was the divine draftsman and designer whose work embodied the unity of the arts Beautifully illustrated with more than 350 drawings paintings sculptures and architectural views this book establishes the centrality of disegno to Michelangelo s work Carmen C Bambach presents a comprehensive and engaging narrative of the artist s long career in Florence and Rome beginning with his training under the painter Domenico Ghirlandaio and the sculptor Bertoldo and ending with his seventeen year appointment as chief architect of Saint Peter s Basilica at the Vatican The chapters relate Michelangelo s compositional drawings sketches life studies and full scale cartoons to his major commissions such as the ceiling frescoes and the Last Judgment in the Sistine Chapel the church of San Lorenzo and its New Sacristy Medici Chapel in Florence and Saint Peter s offering fresh insights into his creative process Also explored are Michelangelo s influential role as a master and teacher of disegno his literary and spiritual interests and the virtuoso drawings he made as gifts for intimate friends such as the nobleman Tommaso de Cavalieri and Vittoria Colonna the marchesa of Pescara Complementing Bambach s text are thematic essays by leading authorities on the art of Michelangelo Meticulously researched compellingly argued and richly illustrated this book is a major contribution to our understanding of this timeless artist      *Michelangelo and the English Martyrs* Anne Dillon, 2016-12-05 In May 1555 a broadsheet was produced in Rome depicting the torture and execution in London and York of the Carthusians of the Charterhouses of London Axeholme Beauvale and Sheen during the reign of Henry VIII This single page martyrology provides the basis for an in depth exploration of several interconnected artistic scientific and scholarly communities active in Rome in 1555 which are identified as having being involved in its production Their work and concerns which reflect their time and intellectual environment are deeply embedded in the broadsheet especially those occupying the groups and individuals who came to be known as Spirituali and in particular those associated with Cardinal Reginald Pole who is shown to have played a key role in its production Following an examination of the text and a discussion of the narrative intentions of its producers a systematic analysis is made of the images This reveals that the structure content and intention of what at first sight seems to be nothing more than a confessionally charged Catholic image of the English Carthusian martyrs typical of the genre of propaganda produced during the Reformation is astonishingly dominated by the most celebrated name of the Italian Renaissance the artist Michelangelo Buonarroti Not only are there direct borrowings from two works by Michelangelo which

had just been completed in Rome The Conversion of St Paul and The Crucifixion of St Peter in the Pauline Chapel but many other of his works are deliberately cited by the broadsheet s producers Through the use of a variety of artistic scientific and historical approaches the author makes a compelling case for the reasons for Michelangelo s presence in the broadsheet and his influence on its design and production The book not only demonstrates Michelangelo s close relationship with notable Catholic reformers but shows him to have been at the heart of the English Counter Reformation at its inception This detailed analysis of the broadsheet also throws fresh light on the Marian religious policy in England in 1555 the influence of Spain and the broader preoccupations of the Counter Reformation papacy while at the same time enriching our understanding of martyrology across the confessional divide of the Reformation The Life Of Michelagnolo Bvonarroti Ascanio

**Michelangelo and the Pope's Ceiling** Ross King, 2014-10-14 From the acclaimed author of Brunelleschi's Dome and Leonardo and the Last Supper the riveting story of how Michelangelo against all odds created the masterpiece that has ever since adorned the ceiling of the Sistine Chapel In 1508 despite strong advice to the contrary the powerful Pope Julius II commissioned Michelangelo Buonarroti to paint the ceiling of the newly restored Sistine Chapel in Rome Despite having completed his masterful statue David four years earlier he had little experience as a painter even less working in the delicate medium of fresco and none with challenging curved surfaces such as the Sistine ceiling's vaults The temperamental Michelangelo was himself reluctant He stormed away from Rome incurring Julius's wrath before he was eventually persuaded to begin Michelangelo and the Pope's Ceiling recounts the fascinating story of the four extraordinary years he spent laboring over the twelve thousand square feet of the vast ceiling while war and the power politics and personal rivalries that abounded in Rome swirled around him A panorama of illustrious figures intersected during this time the brilliant young painter Raphael with whom Michelangelo formed a rivalry the fiery preacher Girolamo Savonarola and the great Dutch scholar Desiderius Erasmus a youthful Martin Luther who made his only trip to Rome at this time and was disgusted by the corruption all around him Ross King blends these figures into a magnificent tapestry of day to day life on the ingenious Sistine scaffolding and outside in the upheaval of early sixteenth century Italy while also offering uncommon insight into the connection between art and history      [The Complete Poems of Michelangelo](#) Michelangelo Buonarroti, 1969

*Michelangelo's Christian Mysticism* Sarah Rolfe Prodan, 2014-04-14 In this book Sarah Rolfe Prodan examines the spiritual poetry of Michelangelo in light of three contexts the Catholic Reformation movement Renaissance Augustinianism and the tradition of Italian religious devotion Prodan combines a literary historical and biographical approach to analyze the mystical constructs and conceits in Michelangelo's poems thereby deepening our understanding of the artist's spiritual life in the context of Catholic Reform in the mid sixteenth century Prodan also demonstrates how Michelangelo's poetry is part of an Augustinian tradition that emphasizes mystical and moral evolution of the self Examining such elements of early modern devotion as prayer lauda singing and the contemplation of religious images Prodan provides a unique perspective on the subtleties of Michelangelo's approach to life and to art Throughout Prodan argues that Michelangelo's art can be more deeply understood when considered together with his poetry which points to a spirituality that deeply informed all of his production      **Michelangelo, God's Architect** William E. Wallace, 2021-04-06 As he entered his seventies the great Italian Renaissance artist Michelangelo despaired that his productive years were past Anguished by the death of friends and discouraged by the loss of commissions to younger artists this supreme painter and sculptor began carving his own tomb It was at this unlikely moment that fate intervened to task Michelangelo with the most ambitious and daunting project of his

long creative life Michelangelo God's Architect is the first book to tell the full story of Michelangelo's final two decades when the peerless artist refashioned himself into the master architect of St Peter's Basilica and other major buildings. When the Pope handed Michelangelo control of the St Peter's project in 1546 it was a study in architectural mismanagement plagued by flawed design and faulty engineering. Assessing the situation with his uncompromising eye and razor sharp intellect Michelangelo overcame the furious resistance of Church officials to persuade the Pope that it was time to start over. In this richly illustrated book leading Michelangelo expert William Wallace sheds new light on this least familiar part of Michelangelo's biography revealing a creative genius who was also a skilled engineer and enterprising businessman. The challenge of building St Peter's deepened Michelangelo's faith. Wallace shows fighting the intrigues of Church politics and his own declining health Michelangelo became convinced that he was destined to build the largest and most magnificent church ever conceived. And he was determined to live long enough that no other architect could alter his design. Provided by publisher

**Italian Architecture** Andrew Hopkins, 2002. The years from 1520 to 1630 were crucial in the development of Western architecture but to label as Mannerist the transition from Michelangelo's licentious New Sacristy in Florence to Borromini's innovative S. Carlo alle Quattro Fontane is coming to seem unduly simplistic. In this carefully researched and original study Andrew Hopkins examines the century's changing functional demands, the political forces, the patronage system and local traditions. Exploring a wide range of Italian buildings including those outside the major urban centers he introduces us to dozens of neglected architects whose works will come as a revelation. By 1630 architecture had taken on a new dynamism that would soon conquer Italy, Europe and the New World. 209 b/w illustrations

**The Lost Battles** Jonathan Jones, 2012-10-23. From one of Britain's most respected and acclaimed art historians, art critic of The Guardian, the galvanizing story of a sixteenth-century clash of titans, the two greatest minds of the Renaissance working side by side in the same room in a fierce competition: the master Leonardo da Vinci, commissioned by the Florentine Republic to paint a narrative fresco depicting a famous military victory on a wall of the newly built Great Council Hall in the Palazzo Vecchio, and his implacable young rival, the thirty-year-old Michelangelo. We see Leonardo having just completed The Last Supper and being celebrated by all of Florence for his miraculous portrait of the wife of a textile manufacturer. That painting the Mona Lisa, being called the most lifelike anyone had ever seen yet more divine than human, was captivating the entire Florentine Republic. And Michelangelo completing a commissioned statue of David, the first colossus of the Renaissance, the archetype hero for the Republic epitomizing the triumph of the weak over the strong, helping to reshape the public identity of the city of Florence and conquer its heart. In *The Lost Battles*, published in England to great acclaim, Superb The Observer. Beguilingly written, The Guardian Jonathan Jones brilliantly sets the scene of the time, the politics, the world of art and artisans, and the shifting, agitated cultural landscape. We see Florence, a city freed from the oppressive reach of the Medici, lurching from one crisis to another, trying to protect its liberty in an Italy descending into chaos with the new head of the

Republic in search of a metaphor that will make clear the glory that is Florence and seeing in the commissioned paintings the expression of his vision Jones reconstructs the paintings that Leonardo and Michelangelo undertook Leonardo's Battle of Anghiari a nightmare seen in the eyes of the warrior it became the first modern depiction of the disenchantment of war and Michelangelo's Battle of Cascina a call to arms and the first great transfiguration of the erotic into art Jones writes about the competition how it unfolded and became the defining moment in the transformation of craftsman to artist why the Florentine government began to fall out of love with one artist in favor of the other and how and why in a competition that had no formal prize to clearly resolve the outcome the battle became one for the hearts and minds of the Florentine Republic with Michelangelo setting out to prove that his work not Leonardo's embodied the future of art Finally we see how the result of the competition went on to shape a generation of narrative paintings beginning with those of Raphael A riveting exploration into one of history's most resonant exchanges of ideas a rich fascinating book that gives us a whole new understanding of an age and those at its center
