Ritchie,2009 Capital city status attracts and drives tourism by enhancing a city s appeal to the tourist and its international standing With a focus on city tourism themes this book examines subjects including the identity of a city in a tourism context and practical matters such as promoting the city as a product By examining tourist activities in national capitals the book addresses issues in capital city development as tourist destinations with a broad international approach and case studies on major tourist cities **Books In Print 2004-2005** Ed Bowker Staff,Staff Bowker, Ed,2004 *The Euro, Inflation and Consumers' Perceptions* Paolo Giovane,Roberto Sabbatini,2008-04-16 On 1 January 2002 euro banknotes and coins were introduced in twelve EU Member States Three more countries joined in the following years and over 300 million people now use the euro in their daily transactions The currency changeover was a technical success From the very start however the vast majority of euro area citizens held the single currency responsible for a sharp rise in prices and a subsequent decline in their personal economic fortunes This book puts forward convincing empirical evidence primarily drawn from Italy s experience to establish whether the introduction of the euro has had a major impact on prices and if not why so many people believe it has Its significance lies not only in the documentation of a historic event but also and more importantly in the lessons it provides which concern the public s understanding of inflation the correct assessment of the effects of the single currency and the need for appropriate measures when other countries adopt the euro **The Michelin Men** Herbert R. Lottman,2003-10-23 This is the remarkable story of how two brothers Edouard and Andre Michelin turned a sleepy family tyre firm in the heart of rural France into one of the most innovative and successful industrial empires in the world Edouard a landscape painter at the Ecole des Beaux Arts displayed an engineering genius for tyre making and product innovation whilst Andre trained as an engineer displayed a creative genius for advertising and marketing Together they kick started the world motor industry and created a tourist industry around the motor car and their now legendary Michelin Guides The Michelin history as described here by Herbert Lottman reveals insights into the development of this remarkable business **Food Culture in Belgium** Peter Scholliers,2009 A guide to Belgium cookery that provides a historical overview and information about major foods and ingredients cooking practices typical meals eating out special occasions and diet and health **The Limits of Legal Reasoning and the European Court of Justice** Gerard Conway,2012-01-12 The European Court of Justice is widely acknowledged to have played a fundamental role in developing the constitutional law of the EU having been the first to establish such key doctrines as direct effect supremacy and parallelism in external relations Traditionally EU

scholarship has praised the role of the ECJ with more critical perspectives being given little voice in mainstream EU studies From the standpoint of legal reasoning Gerard Conway offers the first sustained critical assessment of how the ECJ engages in its function and offers a new argument as to how it should engage in legal reasoning He also explains how different approaches to legal reasoning can fundamentally change the outcome of case law and how the constitutional values of the EU justify a different approach to the dominant method of the ECJ
