Canada and the Liberation of the Netherlands, May 1945 Lance Goddard, 2005-05-01
Nazi Germany s invasion of the Netherlands in May 1940 marked the beginning of five years of terror for the Dutch people They faced oppression and death with remarkable stoicism but nothing could save them from the Hunger Winter of 1944 5 when more than 30 000 people died of starvation In this time of unimaginable despair Canada came to the rescue playing the largest role in liberating the Netherlands and ending the Nazi reign of terror The Canadians gave the Dutch freedom and food and out of such dark times an eternal friendship was forged Told through interviews with Dutch survivors and Canadian veterans Canada and the Liberation of the Netherlands May 1945 delves into this little known chapter of history

Multinationals and Global Capitalism Geoffrey Jones, 2005 This book provides a unique contribution to contemporary globalization debates by providing an accessible survey of the growth and role of multinational enterprises in the world economy over the last two hundred years The author shows how entrepreneurs built a global economy in the nineteenth century by creating firms that pursued resources and markets across borders It demonstrates how multinationals shifted strategies as the first global economy disintegrated in the political and economic chaos between the two world wars and how they have driven the creation of the contemporary global economy Many of the issues of the global economy have been encountered in the past This book shows how entrepreneurs and managers met the political ethical cultural and organizational challenges of operating across national borders at different times and in different environments The role of multinationals is placed within their wider political and economic context There are chapters on the impact of multinationals

and on relations with governments The focus on the shifting roles of firms and industries over time rather than abstract trade and capital flows provides compelling evidence on the diversity and discontinuities of the globalization process The book explains the history of multinationals across a wide spectrum of manufacturing service and natural resource industries from an international perspective which ranges widely across different countries It provides an essential historical framework for understanding global business An accessible survey of the history of international business worldwide this book will be key reading for students taking courses in International Business Business History Multinationals and Entrepreneurship and of interest to academics and researchers working in these areas *EU Competition Law* Eleanor M.
