The Battle of Vouillé, 507 CE Ralph W. Mathisen, Danuta Shanzer, 2012-07-04 This volume highlights the heretofore largely neglected Battle of Vouill in 507 CE when the Frankish King Clovis defeated Alaric II the King of the Visigoths Clovis victory proved a crucial step in the expulsion of the Visigoths from Francia into Spain thereby leaving Gaul largely to the Franks It was arguably in the wake of Vouill that Gaul became Francia and that France began The editors have united an international team of experts on Late Antiquity and the Merovingian Kingdoms to reexamine the battle from multiple as well as interdisciplinary perspectives The contributions address questions of military strategy geographical location archaeological footprint political background religious propaganda consequences both in Francia and in Italy and significance There is a strong focus on the close reading of primary source material both textual and material secular and theological

Family History Research Patrick Delaforce, 1983 This is a how to book on genealogy but it includes a lot of the research the author has done on the Delaforce family

Society and Culture in Late Antique Gaul Ralph Mathisen, Danuta Shanzer, 2017-07-05 Late Roman Gaul is often seen either from a classical Roman perspective as an imperial province in decay and under constant threat from barbarian invasion or settlement or from the medieval one as the cradle of modern France and Germany Standard texts and moments have emerged and been canonized in the scholarship on the period be it Gaul aflame in 407 or the much disputed baptism of Clovis in 496 508 This volume avoids such stereotypes It brings together state of the art work in archaeology literary social and religious history philology philosophy epigraphy and numismatics not only to examine under used and new sources for the period but also critically to reexamine a few of the old standards This will provide a fresh view of various more unusual aspects of late Roman Gaul and also it is hoped serve as a model for ways of interpreting the late Roman sources for other areas times and contexts

The Strassburger family and allied families of Pennsylvania; being the ancestry of Jacob Andrew Strassburger, esquire, of Montgomery county, Pennsylvania Ralph Beaver Strassburger, 1922-01-01

The Jedburghs Will Irwin, 2005-10-10 The Jedburghs were a pioneering Special Forces unit uniquely made up of American British and French volunteers They parachuted deep behind the German lines to assist with the recapture of France in 1944 Dropped in teams of three the Jeds would rally local opposition to the Germans and conduct guerrilla warfare sabotage ambush and intelligence gathering ahead of the advancing Allied armies In doing so they contributed to the Allied breakout from the Normandy bridgehead and to the rapid advance to the German border Above all the Jedburgh teams were trained to survive The three man teams could not be certain that their communications with London would survive the drop or that any meaningful resupply would be possible They had to operate alone against extraordinary odds in a country almost entirely occupied by a hostile force prepared to survive pitched battles with the Wehrmacht and relentless manhunts by the Gestapo Nor did they know how long they would have to wait before the Allied front line reached them It was an enormous test of endurance cunning and strength of will The Jedburghs tells the

story of these heroic young men and offers a new perspective on the D Day landings Will Irwin who served in the modern U S Army Special Forces himself has selected seven of the Jedburgh teams and told their stories as gripping personal narratives He has gathered archival documents diaries and correspondence and interviewed veterans and family members in order to present a full portrait of their crucial role recognized by Churchill and Eisenhower in the struggle to liberate Europe It is narrative history at its most compelling a vivid drama of the battle for France from deep behind enemy lines BOOK JACKET

Early Carolingian Warfare Bernard S. Bachrach, 2011-03-08 Without the complex military machine that his forebears had built up over the course of the eighth century it would have been impossible for Charlemagne to revive the Roman empire in the West Early Carolingian Warfare is the first book length study of how the Frankish dynasty beginning with Pippin II established its power and cultivated its military expertise in order to reestablish the regnum Francorum a geographical area of the late Roman period that includes much of present day France and western Germany Bernard Bachrach has thoroughly examined contemporary sources including court chronicles military handbooks and late Roman histories and manuals to establish how the early Carolingians used their legacy of political and military techniques and strategies forged in imperial Rome to regain control in the West Pippin II and his successors were not diverted by opportunities for financial enrichment in the short term through raids and campaigns outside of the regnum Francorum they focused on conquest with sagacious sensibilities preferring bloodless diplomatic solutions to unnecessarily destructive warfare and disdained military glory for its own sake But when they had to deploy their military forces their operations were brutal and efficient Their training was exceptionally well developed and their techniques included hand to hand combat regimented troop movements fighting on horseback with specialized mounted soldiers and the execution of lengthy sieges employing artillery In order to sustain their long term strategy the early Carolingians relied on a late Roman model whereby soldiers were recruited from among the militarized population who were required by law to serve outside their immediate communities The ability to mass and train large armies from among farmers and urban dwellers gave the Carolingians the necessary power to lay siege to the old Roman fortress cities that dominated the military topography of the West Bachrach includes fresh accounts of Charles Martel s defeat of the Muslims at Poitiers in 732 and Pippin s successful siege of Bourges in 762 demonstrating that in the matter of warfare there never was a western European Dark Age that ultimately was enlightened by some later Renaissance The early Carolingians built upon surviving military institutions adopted late antique technology and effectively utilized their classical intellectual inheritance to prepare the way militarily for Charlemagne s empire **Late Roman Warlords** Penny

MacGeorge, 2002-12-05 Late Roman Warlords reconstructs the careers of some of the men who shaped and were shaped by the last quarter century of the Western Empire There is a need for a new investigation of these warlords based on primary sources and including recent historical debates and theories The difficult sources for this period have been analysed and translated as necessary to produce a chronological account and relevant archaeological and numismatic evidence has been

utilised An overview of earlier warlords including Aetius is followed by three studies of individual warlords and the regions they dominated The first covers Dalmatia and Marcellinus its ruler during the 450s and 460s A major theme is the question of Marcellinus western or eastern affiliations using an often ignored Greek source Penny MacGeorge suggests a new interpretation The second part is concerned with the Gallic general Aegidius and his son Syagrius who ruled in northern Gaul probably from Soissons This extends to AD 486 well after the fall of the Western Empire The problem of the existence or non existence of a kingdom of Soissons is discussed introducing evidence from the Merovingian period and a solution put forward This section also looks at how the political situation in northern Gaul might throw light on contemporary post Roman Britain The third study is of the barbarian patrician Ricimer defender of Italy and his successors the Burgundian prince Gundobad and Orestes a former employee of Attila down to the coup of 476 by which Odovacer became the first barbarian king of Italy This includes discussion of the character and motivation of Ricimer particularly in relation to the emperors he promoted and destroyed and of how historians assessments of him have changed over time

Ruricius of Limoges and

Friends Ralph W. Mathisen, 2011 In an intimate and domestic way these letters describe what happened in Gaul after the final Roman withdrawal just before AD 480 They illustrate how literary life continued under barbarian rule and demonstrate how well the Gauls responded to the changing times They provide priceless insights not only into the private and public lives of individual letter writers but also into life and activities in Visigothic Gaul at the local level in general In this regard they suggest how little impact the Visigoths actually had More than any other source these letters tell the tale of the end of Roman Gaul Publisher's description
