Le Guide vert Michelin Marc Francon, 2001 **The Tourist Region** Jérôme Piriou, 2019-04-29 In geography a region is one of the most obscure and controversial scientific research objects However the tourism sector frequently uses the term both in the communication of tourism destinations and in daily life vocabulary to characterize spatial practices that overtake the scale of a place That said a geographic concentration of place equipment and accommodation does not equate to a tourist region In order to define the tourist region this book presents the common thoughts and interpretations of it which have been advanced by geographers since the beginning of the 20th Century The Tourist Region also examines stakeholders logics that are identified in the practices of a tourist destination in a regional dimension and explores the tourist region as a territorial co construction Finally this book analyzes multi level regional networks of tourist places built according to tourist mobilities By presenting several measurement methods of the tourist region this book explains the spatial practices of tourists and anticipates the actions for tourism professionals **Grand Guide Michelin France**, , 2006 *Livres hebdo* , 2010-03
