Michael Panar who holds a masters degree in family sociology and a doctorate in holistic healing and counseling has been counseling families couples individuals children and adolescents for over thirty years He has some thoughts and reflections about his book Authors Reflections I have worked with families through different stages of the life cycle Each stage of development or period in time has its own challenges During the beginning of the family there needs to be a more mature love that takes the place of romantic love and passion This is a formidable goal for many couples since they relished the passion and emotions of romance The couple also needs to get to know each other through empathic listening If this does not happen it would be difficult for the couple to achieve a parental alliance once children come into the home The years of childhood and adolescents have their own changes and challenges for the children as well as the parents The goal towards secure attachment for the child is vital during this time and the need for the parents to separate their own marital relationship from the role of parent During adolescence it is imperative to adjust to the need for identity and autonomy in the adolescent Secure attachment involving unconditional love needs to be nurtured through childhood and adolescence It will help prepare the child to eventually leave home in a healthy way Any unresolved problems in the family of origin may inhibit the growth of autonomy in the young adult child It will inhibit the healthy functioning of the adult child The young adult may also stay in the parental home for a longer period of time and revert back to the previous unhealthy pattern of childhood Parents can easily fall back into this unhealthy pattern with the adult child Once the children leave the empty nest the parents are faced with their own changes They may discover that they really dont know each other as they thought they did There will be new challenges to improve their relationship or work through the problems of estrangement in the empty nest But the empty nest can be a positive change where the couple can enjoy a new genuine love for each other The couple needs to work on developing a new partnership in the empty nest This stage of life doesnt have to be empty but rather a more fulfilling and satisfying time in life I have worked with couples during all of these times in a persons life I usually had most or all family members in a counseling session each experiencing different changes in his or her life Its helpful for each family

member to understand what the other is going through This will help each person to cope with ones own changes and to understand where the other person is at the same time This will complement and synchronize the changes that everyone is going through so that it would be easier for each person Frequently I worked with one persona child adolescent or adult This was challenging because it was more difficult to understand what was going on in the family With one person in a counseling session the individual would disclose thoughts feelings and experiences The individuals perception of self and family would be expressed Usually the individual had a particular problem that needed to be resolved but it always dealt with some type of change that was happening in the persons life or family It is very important to help the individual or family to cope with the changes that are happening at the time nbs

Baby Blue Michelle D. Kwasney,2004-04 We sat at the kitchen table across from each other In the same spots we sat for dinner up till a month ago The shadows on the table looked like prison bars again This time it was Star being caged Star who thought leaving made her free That life would be all hunky dory shampooing heads and sweeping floors while Mama got slapped around far enough away so she wouldn t have to hear the screams That s when I knew for sure I couldn t leave Mama And Star couldn t make me any more than I could make her stay A painfully beautiful novel that exposes the haunting world of spousal abuse Blue s family is coming apart at the seams After Pa drowned in the river Mama up and married Jinx whom Blue and Star know is big trouble And now Star has run away leaving Blue behind It was hard enough to watch Mama get knocked around when Jinx was in one of his moods but now with Star gone Jinx has spun out of control It s up to Blue to find Star and get help for Mama to piece the family back together again But Blue is running out of time With biting realism and poignancy this compelling young adult novel explores Blue s struggle to protect her family and stand up against what she knows is wrong

Knowing Demons, Knowing Spirits in the Early Modern Period Michelle D. Brock, Richard Raiswell, David R. Winter, 2018-07-31 This book explores the manifold ways of knowing and knowing about preternatural beings such as demons angels fairies and other spirits that inhabited and were believed to act in early modern European worlds Its contributors examine how people across the social spectrum assayed the various types of spiritual entities that they believed dwelled invisibly but meaningfully in the spaces just beyond and occasionally within the limits of human perception Collectively the volume demonstrates that an awareness and understanding of the nature and capabilities of spirits whether benevolent or malevolent was fundamental to the knowledge making practices that characterize the years between ca 1500 and 1750 This is therefore a book about how epistemological and experiential knowledge of spirits persisted and evolved in concert with the wider intellectual changes of the early modern period such as the Protestant Reformation the Scientific Revolution and the Enlightenment
