Ramos, 11-11-15 La presente novela nos narra la apasionante aventura existencial de Michimalonco A través de sus páginas asistiremos a la vida de los pueblos en el incanato en las esperas de la conquista española a cómo los mapuche prevalecieron bajo el yugo inca y cómo nacieron y desaparecieron sus caudillos a la naturaleza de sus conflictos a sus batallas en fin a los que ocurrían en los cruciales años en que Chile estaba naciendo *¡Florecieron los neones!* J. climático son los que hoy tienen fallas en su lenguaje genético fallas que en el futuro serán la norma de una exitosa adaptación. J. P. Zooley va a buscar en los contenedores de las instituciones de arte los ejemplares derrotados de los concursos literarios para leer la literatura del futuro. Así encuentra la novela de un autor llamado Narciso Falopio, un claro seudónimo tal como exige al concurso. La novela de este autor de nombre gracioso se llama *Florecieron los neones* pero es tan oscura y luminosa a la vez como un arco iris negro. J. P. Zooley hizo una introducción a este libro hallado en un contenedor. O posiblemente Narciso Falopio sea un autor inventado por él y la derrotada su propia novela.

En una escuela el interés del maestro por enseñar y de los estudiantes por aprender es personal, nadie lo da o lo impone, es el acto más libre y más autónomo. En este libro los autores de *Convivencia Educativa* A. C. CEAC demuestran que es posible en telesecundarias incompletas de Chihuahua y Zacatecas, en escuelas indígenas de Hidalgo y Puebla y en telesecundarias urbanas del Distrito Federal, alentar el interés de maestros y estudiantes en libertad y con autonomía. Sin cambiar programas o textos sin necesariamente apoyarse en nuevas tecnologías con maestros ordinarios y en circunstancias normales se logró enseñar y aprender con interés la meta deseada en un país marcado por la desigualdad social y el desaliento con los resultados de la educación pública. En el libro se reportan esas tres experiencias que tuvieron lugar el ciclo pasado 2004-2005. No se escogieron las escuelas ni los maestros sino se aceptó a quienes voluntariamente desearon participar en un experimento necesariamente reducido a unos cuantos centros. Lo extraordinario fue el tiempo que los asesores de CEAC dedicaron a atender eficazmente dos de las carencias más agudas entre maestros de

educación básica la inseguridad con la que manejan algunos contenidos del programa regular y la dificultad para atender personalmente a grupos numerosos de alumnos El apoyo se adapta a lo que cada maestro necesita y se demuestra en el aula la viabilidad y las ventajas de formar con sus alumnos comunidades de aprendizaje Las relaciones tutoras permiten apreciar las ventajas de enseñar y aprender con interés Queda así claro que el cambio educativo no puede tener lugar sino a la base conforme cada maestro adquiere seguridad profesional alienta el interés de sus alumnos por aprender y demuestra públicamente el valor de una educación de calidad
