Romano, Todd A. Curry, 2019-08-30 Written opinions are the primary means by which judges communicate with external actors These sentiments include the parties to the case itself but also more broadly journalists public officials lawyers other judges and increasingly the mass public In *Creating the Law* Michael K Romano and Todd A Curry examine the extent to which judges tailor their language in order to avoid retribution during their retention and how institutional variations involving intra chamber dynamics may influence the written word of a legal opinion Using an extensive dataset that includes the text of all death penalty and education decisions issued by state supreme courts from 1995 2010 Romano and Curry are the first to examine the connection between retention incentives and language choices They utilize text analysis techniques developed in the field of communications and apply them to the text of judicial decisions In doing so they find that judges write with their audience in mind and emphasize duelling strategies of justification and persuasion in order to please diverse audiences that may be paying attention Furthermore the process of drafting a majority opinion is a team exercise and when more individuals are involved in its crafting the product will reflect this complexity This book gives students the tools for understanding how institutional variation affects judicial outcomes and shows how language relates to decision making in the judiciary more specifically **A Matter of Right** Charles E. Sutton, 2018-05-07 When we think of constitutional law we invariably think of the United States Supreme Court and the federal court system Yet much of our constitutional law is not made at the federal level In *51 Imperfect Solutions* U S Court of Appeals Judge Jeffrey S Sutton argues that American Constitutional Law should account for the role of the state courts and state constitutions together with the federal courts and the federal constitution in protecting individual liberties The book tells four stories that arise in four different areas of constitutional law equal protection criminal procedure privacy and free speech and free exercise of religion Traditional accounts of these bedrock debates about the relationship of the individual to the state focus on decisions of the United States Supreme Court But these explanations tell just part of the story The book corrects this omission by looking at each issue and some others as well through the lens of many constitutions not one constitution of many courts not one court and of all American judges not federal or state judges Taken together the stories reveal a remarkably complex nuanced ever changing federalist system one that ought to make lawyers and litigants pause before reflexively assuming that the United States Supreme Court alone has all of the answers to the most vexing constitutional questions If there is a central conviction of the book it is that an underappreciation of state constitutional law has hurt state and federal law and has undermined the appropriate balance between state and federal courts in protecting individual liberty In trying to correct this imbalance the book also offers several ideas for reform JOHN CHAPPEL CAIN V MICHIGAN DEPARTMENT OF CORRECTIONS, 451 MICH 470 (1996), 1996 101628 Suttles v.
