**In Search of Politics** Zygmunt Bauman,2013-07-03 We live in a world which no longer questions itself which lives from one day to another managing successive crises and struggling to brace itself for new ones without knowing where it is going and without trying to plan the itinerary And everything important in our lives livelihood human bonds partnerships neighbourhood goals worth pursuing and dangers to avoid feels transient precarious vulnerable insecure uncertain risky Is there a connection between the shape of the world we inhabit and the way we live our lives Exploring that connection and finding out just how close it is is the main concern of this book What is at stake in this inquiry is the possibility of re building the private public space where private troubles and public issues meet and where citizens engage in dialogue in order to govern themselves Individual liberty can only be a product of collective work it can only be collectively secured and guaranteed And yet today we are moving towards a privatization of the means to secure individual liberty If seen as a therapy for the present ills this is bound to produce effects of a most sinister kind The act of translating private troubles into public issues is in danger of falling into disuse and being forgotten The argument of this book is that making the translation possible again is an urgent and vital imperative for the renewal of politics today This new book by Zygmunt Bauman one of the most original and creative thinkers of our time will be of particular interest to students of sociology politics and social and political theory
