Microregionalism And World Order:

Microregionalism and World Order S. Breslin, G. Hook, 2016-01-19 Microregionalism and World Order is a pioneering work on the least understood aspect of regionalism. Leading specialists analyze the form microregionalism takes in different parts of the world including the Americas, Asia Pacific and Africa. By illustrating the complex relationship amongst the political, economic and social dimensions of microregionalism, the book seeks to contribute to the theoretical debate on regionalism as well as to provide new empirical insights. *Microregionalism and Governance in East Asia* Katsuhiko Sasuga, 2004 This book provides an analysis of the processes of micro regionalization in East Asia within the broader context of globalization and regionalization. The author examines the specifics of corporation production and investment networks that link parts of Japan, Taiwan and China with a detailed case study focusing on the electronics industry. Making a significant contribution to the research on regionalism and multi level governance in East Asia, this book will appeal to those interested in international political economy and Asian studies.

China and the Global Political Economy S. Breslin, 2016-04-30 This IPE Classic considers one of the most pressing issues of the Twenty First century: the relationship between domestic configurations of power and globalized production processes in shaping the process and implications of China's re engagement with the global economy.

The Rise of Post-Hegemonic Regionalism Pía Riggirozzi, Diana Tussie, 2012-01-07 This book offers a timely analysis and a novel and nuanced argument about post neoliberal models of regional governance in non European contexts. It provides the first in depth empirically driven analysis of current models of regional governance in Latin America that emerged out of the crisis of liberalism in the region. It contributes to comparative studies of the contemporary global political economy as it advances current literature on the topic by analysing distinctive overlapping and conflicting trajectories of regionalism in Latin America. The book critically explores models of transformative regionalism and specific dimensions articulating those models beyond neoliberal consensus building. As such it contests the overstated case of integration as converging towards global capitalism. It provides an analytical framework that not only examines the what, how, who and why in the emergence of a specific form of regionalism but sets the ground for addressing two relevant questions that will push the study of regionalism further: What factors enable or constrain how transformative a given regionalism is or can be with respect to the powers and policies of states encompassed by it and What factors govern how resilient a given regionalism is likely to be under changing political and economic conditions.

The Political Economy of Regionalism F. Söderbaum, 2004-10-29 The Political Economy of Regionalism: The Case of Southern Africa challenges prevailing wisdom showing how ruling political elites and big business join forces with certain external actors in order to promote market integration and economic globalization, boost regimes and to satisfy group specific and even personal interests. Only rarely do these forms of regionalism contribute to the poor and disadvantaged who instead opt out and survive through informal economic regionalisms or seek to create regionalisms rooted in civil society.

Regionalism and Uneven Development in

The New Regionalism in Africa Fredrik Söderbaum, 2017-03-02 This edited volume transcends conventional state centric and formalistic notions of regionalism and theorizes conceptualizes and analyzes the complexities and contradictions of regionalization processes in contemporary Africa The collection not only unpacks and theorizes the African state society complex with regard to new regionalism but also explicitly integrates the often neglected discourse of human security and human development In so doing the book moves the discussion of new regionalism forward at the same time as it adds important insights to security and development It is organized into three parts Part I theorizes conceptualizes and analyzes the new regionalism in Africa from the point of view of the region e g West East Central and Southern Africa The national perspectives in Part II focus on the new regionalism in Africa from the point of view of particular countries or specific state society complexes such as Kenya the Democratic Republic of the Congo DRC the enclave of Cabinda Angola and Zambia Part III contains two concluding chapters that tie the main threads of the volume together theoretically and empirically and discuss the contribution of the analytical framework the new regionalism approach NRA to the larger study of regionalism
