Military Self-Interest in Accountability for Core International Crimes Morten Bergsmo, SONG Tianying, 2018-04-21

Fluency in Reading Zvia Breznitz, 2006-08-15 This is the first book to examine in depth the crucial role of the speed of information processing in the brain in determining reading fluency in both normal and dyslexic readers Part I explains fluency in reading from both traditional and modern perspectives Fluency has historically been viewed as the outcome of other reading related factors and has often been seen as a convenient measure of reading skills This book however argues that fluency has a strong impact on other aspects of reading and plays a central role in the entire reading process Part II deals with the determinants of reading fluency Chief among these is the speed of information processing in the brain Using both behavioral and electrophysiological evidence the book systematically examines the features of processing speed in the various brain systems involved in reading visual orthographic auditory phonological and semantic and shows how speed of processing affects fluency in reading Part III deals with the complex issues of cross modal integration and specifically with the need for effective synchronization of the brain processes involved in reading It puts forward the Synchronization Hypothesis and discusses the role of the Asynchrony Phenomenon as a major factor in dyslexia Finally it summarizes research on manipulating reading rate by means of the Acceleration method providing evidence for a possible intervention aimed at reducing Asynchrony Key features of this outstanding new book include Expanded View of Fluency Reading fluency is seen as both a dependent and an independent Variable Currently available books focus on reading rate solely as the outcome of other factors whereas this volume stresses that it is both an outcome and a cause Information Processing Focus Fluency itself is determined to a large extent by a more general factor namely speed of processing in the brain The book presents wide ranging evidence for individual differences in speed of processing across many subpopulations Brain Synchronization Focus The book posits a new theory arguing that effective reading requires synchronization of the different brain systems visual orthographic auditory phonological and semantic Research Based Interventions Interventions to enhance fluency and thereby reading skills in general are presented in detail Author Expertise Zvia Breznitz is Head of the Department of Learning Disabilities and Director of the Laboratory for Neurocognitive Research at Haifa University in Israel where she has been researching this topic for over a decade This book is appropriate for researchers and advanced students in reading dyslexia learning disabilities cognitive psychology and neuropsychology *Forest Management Planning in Congo Basin Rainforests* Sicco Dany Dogmo Pokem, 2010 Handbook of Consultation-Liaison Psychiatry Hoyle Leigh, Jon Streltzer, 2014-12-08 This updated resource refines and expands on both the core concepts and the real world practice of consultation liaison psychiatry in medical settings New and revised chapters provide background and basics and describe CL psychiatry approaches to managing a wide array of common conditions including heart disease dementia anxiety and depressive disorders alcohol and substance use problems and chronic pain Besides the fine points of practice in varied

chronic and acute care settings specific patient populations such as children elders ob gyn patients and the immunocompromised are discussed The latest information and insights on pharmacology interviewing and ethical and cultural issues round out the book s highly accessible coverage A sampling of topics in the Handbook Basic foundations of diagnosis psychiatric diagnosis and final common pathway syndromes An integrative care model of psychiatry in the primary care setting Patient personality personality types and traits and disorders The chronic patient and the palliative care setting Trauma and stressor related disorders Somatic symptoms and related disorders The Second Edition of the Handbook of Consultation Liaison Psychiatry ably follows its predecessor by presenting the diverse state of the specialty to enhance the work of psychiatrists clinical psychologists and primary care physicians *Professionalism in Physical Therapy* Laura Lee Swisher, 2005-03

Tsunamis and Seiches, 2008 A discussion of major types of natural disasters including descriptions of some of the most destructive explanations of these phenomena what causes them and where they occur and information about how to prepare for and survive these forces of nature Features include an activity glossary list of resources and index Provided by publisher

The Founders of Seismology Charles Davison, 1927 New Product Development Sameer Kumar, Promma Phrommathed, 2006-10-28 The challenge of managing a business enterprise today is to ensure that it can remain efficient and competitive in a dynamic marketplace characterized by high competition unstable demands heterogeneous market segments and short product life cycles Increasing the pace of new product introduction enables dealing with shorter product lives To sustain competitiveness a firm has to be innovative as well as quick to respond to the changing customer needs in order to provide better and faster products to market than competitors New product development NPD is considered as a process of learning Successful NPD projects typically rely on knowledge and experience of multi function teams In addition to corporate strategy and organization learning the external factors such as market and competitive conditions also play a big role in driving business strategies The results from the empirical research study reported shows that companies implementing innovation strategy are more competitive in the long run while those that follow customer responsive strategy are more likely to have higher return on investment within a shorter time In order to achieve both sustainable competencies and also meet customer needs in the changing market environment today a company should adapt to the benefits of both strategies

EBOOK: Qualitative Psychology Ian Parker, 2004-12-16 An introduction to the varieties of qualitative research in psychology is long overdue and Parker s book should with its broad scope accessible style and controversial viewpoints on trends of the current qualitative wave have a wide audience Steinar Kvale Aarhus University Denmark This is a wonderful insightful and necessary book It takes students through this complex terrain in a clear readable and yet challenging way Bronwyn Davies University of Western Sydney Australia This book makes important contributions to theoretical political and methodological debates on qualitative and action oriented research Bernardo Jimenez Dom nguez Universidad de Guadalajara Mexico For me personally the book worked very well I very much appreciated

the fact that the book went beyond a presentation of the state of the art and that it offered new ideas and suggestions about how to take qualitative research further Qualitative Research in Psychology This book is designed as a practical guide for students that is also grounded in the latest developments in theory in psychology Readers are introduced to theoretical approaches to ethnography interviewing narrative discourse and psychoanalysis with each chapter on these approaches including worked examples clearly structured around methodological stages A case is made for new practical procedures that encourage students to question the limits of mainstream psychological research methods Resource links guide students to theoretical debates and to ways of making these debates relevant to a psychology genuinely concerned with critical reflection and social change The book includes numerous boxes that clearly outline Key issues in the development application and assessment of qualitative research methods Current debates and problems with particular qualitative methods taught in psychology Summaries of methodological stages and points to be aware of in the marking of practical reports in relation to specific methods Coverage of ethical issues reflexivity and good report writing Qualitative Psychology is essential reading for students of psychology and other related social sciences who want a polemical account that will also serve as a well balanced and rigorous introduction to current debates in qualitative psychology

Information and Communication Technology for Development (ICT4D) Richard Heeks, 2018 This is the first dedicated textbook to examine and explain these emerging phenomena of Information and Communication Technology for Development It will help students practitioners and researchers understand the place of ICTs within development the ICT enabled changes already underway and the key issues and interventions that engage ICT4D practice and strategy The book uses extensive in text diagrams tables and boxed examples with chapter end discussion and assignment questions and further reading Supported by online activities video links and session outlines and slides this textbook provides the basis for undergraduate postgraduate and online learning modules on ICT4D

School-Age Language Intervention Teresa A. Ukrainetz, 2024 School Age Language Intervention Evidence Based Practices Second Edition addresses the fundamentals of being an SLP in the schools service delivery assessment the foundation and framework for intervention and federal rules and regulations It explains the major populations that a school SLP encounters developmental language disorder reading disability autism and dual language learners Evidence based guidance for intervention is provided for vocabulary grammar narrative expository and classroom discourse The final section of this book specifically addresses the written code and cognitive underpinnings needed for reading writing and academic success Dr Ukrainetz brings together an impressive corps of contributors to develop an invaluable resource language and literacy intervention for school SLPs and other special educators This book grounds practical assessment and treatment strategies across oral and written domains of language and related abilities in sound theory and research It addresses the wide and complex world of the school SLP including service delivery rules and regulations and major student populations This is a must have resource for working professionals and graduate students

Global Rectificatory Justice G. Collste, 2014-12-10 What are the implications of colonialism for a theory of global justice today What does rectificatory justice mean in the light of colonialism What does global rectificatory justice require in practice The author seeks to answer these questions covering a significant gap in the literature on global justice *The Handbook of World Englishes* Braj B. Kachru, Yamuna Kachru, Cecil L. Nelson, 2009-02-09 The Handbook of World Englishes is a collection of newly commissioned articles focusing on selected critical dimensions and case studies of the theoretical ideological applied and pedagogical issues related to English as it is spoken around the world Represents the cross cultural and international contextualization of the English language Articulates the visions of scholars from major varieties of world Englishes African Asian European and North and South American Discusses topics including the sociolinguistic contexts of varieties of English in the inner outer and expanding circles of its users the ranges of functional domains in which these varieties are used the place of English in language policies and language planning and debates about English as a cause of language death murder and suicide **The Sacred Theory of the Earth** Thomas Burnet, 2020-09-28 HAVING given an account of this whole Work in the first Chapter and of the method of either Book whereof this Volume consists in their proper places there remains not much to be said here to the Reader This Theory of the Earth may be call d Sacred because it is not the common Physiology of the Earth or of the Bodies that compose it but respects only the great Turns of Fate and the Revolutions of our Natural World such as are taken notice of in the Sacred Writings and are truly the Hinges upon which the Providence of this Earth moves or whereby it opens and shuts the several successive Scenes whereof it is made up This English Edition is the same in substance with the Latin though I confess tis not so properly a Translation as a new Composition upon the same ground there being several additional Chapters in it and several new moulded As every Science requires a peculiar Genius so likewise there is a Genius peculiarly improper for every one and as to Philosophy which is the Contemplation of the works of Nature and the Providence that governs them there is no temper or Genius in my mind so improper for it as that which we call a mean and narrow Spirit and which the Greeks call Littleness of Soul This is a defect in the first make of some Men s minds which can scarce ever be corrected afterwards either by Learning or Age And as Souls that are made little and incapacious cannot enlarge their thoughts to take in any great compass of Times or Things so what is beyond their compass or above their reach they are apt to look upon as Fantastical or at least would willingly have it pass for such in the World Now as there is nothing so great so large so immense as the works of Nature and the methods of Providence men of this complexion must needs be very unfit for the contemplation of them Who would set a purblind man at the top of the Mast to discover Land or upon an high Tower to draw a Landskip of the Country round about for the same reason short sighted minds are unfit to make Philosophers whose proper business it is to discover and describe in comprehensive Theories the Phenomena of the World and the Causes of them This original disease of the Mind is seldom cured by Learning which cures many others Tis like a fault in the first Stamina of the Body which cannot easily be rectified

afterwards Tis a great mistake to think that every sort of Learning makes a Man a competent Judge of Natural Speculations We see unhappy examples to the contrary amongst the Christian Fathers and particularly in St Austin who was unquestionably a Man of Parts and Learning but interposing in a controversie where his Talent did not lie show d his zeal against the Antipodes to very ill purpose though he drew his Reasons partly from Scripture And if within a few Years or in the next Generation it should prove as certain and demonstrable that the Earth is mov d as it is now that there are Antipodes those that have been zealous against it and ingag d the Scripture in the Controversie would have the same reason to repent of their forwardness that St Austin would have now if he was alive Tis a dangerous thing to ingage the authority of Scripture in disputes about the Natural World in opposition to Reason lest Time which brings all things to light should discover that to be evidently false which we had made Scripture to assert And I remember St Austin in his Exposition upon Genesis hath laid down a rule to this very purpose though he had the unhappiness it seems not to follow it always himself The reason also which he gives there for his rule is very good and substantial 1For saith He if the Unbelievers or Philosophers shall certainly know us to be mistaken and to erre in those things that concern the Natural World and see that we alledge our Sacred Books for such vain opinions how shall they believe those same Books when they tell them of the RESURRECTION of the Dead and the World to come if they find them to be fallaciously writ in such things as lie within their certain knowledge **The**
