Excel 2007 is the biggest revision this industry standard software has undergone in years. It has a brand new interface, tons of new tools, and even a suite of services called Excel Services to allow you to share your valuable data on the web. For the first time in years, there is a lot to learn to make the most of this powerful new update. To take advantage of all of the new features in this powerful program and to do so quickly, users need this Visual QuickStart Guide. In these pages, veteran author and trusted Excel teacher Maria Langer provides step by step instructions for the full gamut of Excel tasks, from worksheet basics like editing, using functions, formatting cells, and adding graphics, to more advanced topics like creating charts, working with databases, and Web publishing. As with all Visual QuickStart Guide books, clear, concise instructions and lots of visual aids make learning easy and painless. *Brilliant Microsoft Excel 2007* Paul McFedries, 2008. Pivot tables are the most powerful feature in Excel. A basic pivot table will allow you to summarize 500,000 rows of transactional data in 30 seconds with just a few mouse clicks. Business productivity would skyrocket if everyone knew how to use pivot tables. However, only 12% of people using Excel can create a basic pivot table. Of this group, only a small percentage actually harness all the power that pivot tables afford them. By the end of the book, users will be pivot table gurus, automating pivot tables using VBA, creating pivot tables with external data in OLAP cubes, and even creating dynamic reporting systems so that managers can answer their own queries with a few mouse clicks. Throughout the book, there are no nonsense step by step tutorials and lots of practical examples aimed directly at business users. *Advantage Series: Microsoft Office Excel 2003, Brief Edition* Glen Coulthard, Sarah Hutchinson-Clifford, 2003-11-04. The Advantage Series presents the Feature Method Practice approach to computer software applications to today's technology and business students. This series implements an efficient and effective learning model which enhances critical thinking skills and provides students and faculty with complete application coverage.
