**Mark Lynn Anderson**

## **Parallel Tracks The Railroad Silent Cinema:**

**Parallel Tracks** Lynne Kirby,1997 In wide ranging and provocative analyses of dozens of silent films icons of film history like *The General* and *The Great Train Robbery* as well as many that are rarely discussed Kirby examines how trains and rail travel embodied concepts of spectatorship and mobility grounded in imperialism and the social sexual and racial divisions of modern Western culture

**Parallel Tracks** Lynne Kirby,1997 In wide ranging and provocative analyses of dozens of silent films icons of film history like *The General* and *The Great Train Robbery* as well as many that are rarely discussed Kirby examines how trains and rail travel embodied concepts of spectatorship and mobility grounded in imperialism and the social sexual and racial divisions of modern Western culture

**Out of Time** Todd McGowan,2011 A new temporal aesthetic in films such as *Memento* *Eternal Sunshine of the Spotless Mind* 2046 and *The Hangover*

**Eclipsed Cinema** Dong Hoon Kim,2017-03-22 In this ground breaking investigation into the seldom studied film culture of colonial Korea 1910 1945 Dong Hoon Kim brings new perspectives to the associations between colonialism modernity film historiography and national cinema By reconstructing the lost intricacies of colonial film history *Eclipsed Cinema* explores under investigated aspects of colonial film culture such as the representational politics of colonial cinema the film unit of the colonial government the social reception of Hollywood cinema and Japanese settlers film culture Filling a significant void in Asian film history

*Eclipsed Cinema* greatly expands the critical and historical scopes of early cinema and Korean and Japanese film histories as well as modern Asian culture and colonial and postcolonial studies

**Body Shots** Jonathan Auerbach,2007-10-09 Auerbach places the body at the center of cinema s first decade of emergence and challenges the idea that for early audiences the new medium s fascination rested on visual spectacle for its own sake

**Movie-Struck Girls** Shelley Stamp,2018-06-05 *Movie Struck Girls* examines women s films and filmgoing in the 1910s a period when female patronage was energetically courted by the industry for the first time By looking closely at how women were invited to participate in movie culture the films they were offered and the visual pleasures they enjoyed Shelley Stamp demonstrates that women significantly complicated cinemagoing throughout this formative transitional era Growing female patronage and increased emphasis on women s subject matter did not necessarily bolster cinema s cultural legitimacy as many in the industry had hoped for women were not always enticed to the cinema by dignified uplifting material and once there they were not always seamlessly integrated in the social space of theaters nor the new optical pleasures of film viewing In fact Stamp argues that much about women s films and filmgoing in the postnickelodeon years challenged rather than served the industry s drive for greater respectability White slave films action adventure serial dramas and women s suffrage photoplays all drew female audiences to the cinema with stories aimed directly at women s interests and with advertising campaigns that specifically targeted female moviegoers Yet these examples suggest that women s patronage was built with stories focused on sexuality sensational thrill seeking and feminist agitation topics not normally associated with ladylike gentility And in each case concerns were raised about women s

conduct at cinemas and the viewing habits they enjoyed demonstrating that women's integration into motion picture culture was not as smooth as many have thought

**From Steam to Screen** Rebecca Harrison, 2018-03-22 In late nineteenth and early twentieth century Britain there was widespread fascination with the technological transformations wrought by modernity. Films, newspapers and literature told astonishing stories about technology such as locomotives breaking speed records and moving images seemingly springing into life onscreen. And whether in films about train travel or in newspaper articles about movie theatres on trains, stories about the convergence of the railway and cinema were especially prominent. Together the two technologies radically transformed how people interacted with the world around them and became crucial to how British media reflected the nation's modernity and changing role within the empire. Rebecca Harrison draws on archival sources and an extensive corpus of films to trace the intertwined histories of the train and the screen for the first time. In doing so she presents a new and illuminating material and cultural history of the period and demonstrates the myriad ways railways and cinema coalesced to transform the population's everyday life. With examples taken from more than 240 newsreels and 40 feature length films, *From Steam to Screen* is essential reading for students and researchers working on film studies and British history at the turn of the century and beyond.

*Twilight of the Idols* Mark Lynn Anderson, 2011-04-18 *Twilight of the Idols* revisits some of the sensational scandals of early Hollywood to evaluate their importance for our contemporary understanding of human deviance. By analyzing changes in the star system and by exploring the careers of individual stars Wallace Reid, Rudolph Valentino and Mabel Normand among them, Mark Lynn Anderson shows how the era's celebrity culture shaped public ideas about personality and human conduct and played a pivotal role in the emergent human sciences of psychology, anthropology and sociology. Anderson looks at motion picture stars who embodied various forms of deviance: narcotic addiction, criminality, sexual perversion and racial indeterminacy. He considers how the studios profited from popularizing ideas about deviance and how the debates generated by the early Hollywood scandals continue to affect our notions of personality, sexuality and public morals.

**Animal Capital** Nicole Shukin, 2009 The juxtaposition of biopolitical critique and animal studies, two subjects seldom theorized together, signals the double-edged intervention of *Animal Capital*. Nicole Shukin pursues a resolutely materialist engagement with the question of the animal, challenging the philosophical idealism that has dogged the question by tracing how the politics of capital and of animal life impinge on one another in market cultures of the twentieth and early twenty-first centuries.

Transnational Railway Cultures Benjamin Fraser, Steven D. Spalding, 2021-10-15 Since the advent of train travel, railways have compressed space and crossed national boundaries to become transnational icons, evoking hope, dread, progress or obsolescence in different cultural domains. Spanning five continents and a diverse range of contexts, this collection offers an unprecedentedly broad survey of global representations of trains. From experimental novels to Hollywood blockbusters, the works studied here chart fascinating routes across a remarkably varied cultural landscape.

**The Routledge Handbook of Mobilities** Peter

Adey, David Bissell, Kevin Hannam, Peter Merriman, Mimi Sheller, 2014-01-10 The 21st century seems to be on the move perhaps even more so than the last With cheap travel and more than two billion cars projected worldwide for 2030 And yet all this mobility is happening incredibly unevenly at different paces and intensities with varying impacts and consequences to the extent that life on the move might be actually quite difficult to sustain environmentally socially and ethically As a result mobility has become a keyword of the social sciences delineating a new domain of concepts approaches methodologies and techniques which seek to understand the character and quality of these trends This Handbook explores and critically evaluates the debates approaches controversies and methodologies inherent to this rapidly expanding discipline It brings together leading specialists from range of backgrounds and geographical regions to provide an authoritative and comprehensive overview of this field conveying cutting edge research in an accessible way whilst giving detailed grounding in the evolution of past debates on mobilities It illustrates disciplinary trends and pathways from migration studies and transport history to communications research featuring methodological innovations and developments and conceptual histories from feminist theory to tourist studies It explores the dominant figures of mobility from children to soldiers and the mobility impaired the disparate materialities of mobility such as flows of water and waste to the vectors of viruses key infrastructures such as logistics systems to the informal services of megacity slums and the important mobility events around which our world turns from going on vacation to the commute to the catastrophic disruption of mobility systems The text is forward thinking projecting the future of mobilities as they might be lived transformed and studied and possibly brought to an end International in focus the book transcends disciplinary and national boundaries to explore mobilities as they are understood from different perspectives different fields countries and standpoints This is an invaluable resource for all those with an interest in mobility across disciplinary boundaries and areas of study      **Cinematic Journeys** Dimitris

Eleftheriotis, 2010-04-30 Cinematic Journeys explores the interconnected histories theories and aesthetics of mobile vision and cinematic movement It traces the links between certain types of movement of in the frame and broader cultural trends that have historically informed Western sensibilities It contextualises that genealogy with detailed analysis of contemporary and recent travel films as well as older works The book investigates how movements of exploration discovery and revelation are activated in specific cinematic narratives of travelling and displacement Such narratives are analysed with attention to the mass population movements and displacements that form their referential background Cinematic Journeys also examines the ways in which travelling affects film itself Case studies focus on films as travelling commodities with the popularity of Indian films in Greece in the 1950s and 60s as case study and through a study of subtitles on the category of the foreign spectator who in the encounter with foreign films moves across cultural borders Films considered in the book include Sunrise Slow Motion Huckle Death in Venice Voyage to Italy The Motorcycle Diaries Koktebel Japon Blackboards Ulysses Gaze and the work of directors Tony Gatliff and Fatih Akin      *The Attractions of the Moving Image* Tom Gunning, 2025-04-30 An

essential collection of new and selected essays by influential cinema and media studies scholar Tom Gunning Tom Gunning is the author of multiple books and nearly two hundred essays that have defined the field of cinema and media studies His works have transformed our understanding of early cinema and the American avant garde and reset the terms of many central debates in film and media history and theory His 1986 essay The Cinema of Attractions is among the most cited essays on film ever published Gunning s writings articulate a distinctive and powerful model for thinking about cinema s history and likely future addressing the full range of moving image media from film to still photography to digital media His discussions draw on stage melodrama and magic lantern shows as well as criminology world s fairs and Spiritualism surveying the medium as a cultural phenomenon informed by the industrial and information ages psychiatry urban experience discourses on art and aesthetics and more This collection brings together twenty six essays that showcase the depth and range of Gunning s scholarship including four that have never before been published Together they solidify Gunning s place as a scholar who has transformed the way generations of scholars archivists critics and artists think about cinema

Picture World Rachel Teukolsky, 2020-08-16 The modern media world came into being in the nineteenth century when machines were harnessed to produce texts and images in unprecedented numbers In the visual realm new industrial techniques generated a deluge of affordable pictorial items mass printed photographs posters cartoons and illustrations These alluring objects of the Victorian parlor were miniaturized spectacles that served as portals onto phantasmagoric versions of the world Although new kinds of pictures transformed everyday life these ephemeral items have received remarkably little scholarly attention Picture World shines a welcome new light onto these critically neglected yet fascinating visual objects They serve as entryways into the nineteenth century s key aesthetic concepts Each chapter pairs a new type of picture with a foundational keyword in Victorian aesthetics a familiar term reconceived through the lens of new media Character appears differently when considered with caricature in the new comics and cartoons appearing in the mass press in the 1830s likewise the book approaches realism through pictorial journalism illustration via illustrated Bibles sensation through carte de visite portrait photographs the picturesque by way of stereoscopic views and decadence through advertising posters Picture World studies the aesthetic effects of the nineteenth century s media revolution it uses the relics of a previous era s cultural life to interrogate the Victorian world s most deeply held values arriving at insights still relevant in our own media age

**Technologies of Vision** Steve F Anderson, 2017-10-20 An investigation of the computational turn in visual culture centered on the entangled politics and pleasures of data and images If the twentieth century was tyrannized by images then the twenty first is ruled by data In Technologies of Vision Steve Anderson argues that visual culture and the methods developed to study it have much to teach us about today s digital culture but first we must examine the historically entangled relationship between data and images Anderson starts from the supposition that there is no great divide separating pre and post digital culture Rather than creating an insular field of new and inaccessible discourse he argues it is

more productive to imagine that studying the digital is coextensive with critical models especially the politics of seeing and knowing developed for understanding the visual Anderson's investigation takes on an eclectic array of examples ranging from virtual reality culture analytics and software art to technologies for computer vision face recognition and photogrammetry Mixing media archaeology with software studies Anderson mines the history of technology for insight into both the politics of data and the pleasures of algorithms He proposes a taxonomy of modes that describe the functional relationship between data and images in the domains of space surveillance and data visualization At stake in all three are tensions between the totalizing logic of data and the unruly chaos of images

*A World History of Railway Cultures, 1830-1930* Matthew Esposito, 2021-08-29 *A World History of Railway Cultures 1830 1930* is the first collection of primary sources to historicize the cultural impact of railways on a global scale from their inception in Great Britain to the Great Depression Its dual purpose is to promote understanding of complex historical processes leading to globalization and generate interest in transnational and global comparative research on railways In four volumes organized by historical geography this scholarly collection gathers rare out of print published and unpublished materials from archival and digital repositories throughout the world It adopts a capsule approach that focuses on short selections of significant primary source content instead of redundant and irrelevant materials found in online data collections The current collection draws attention to railway cultures through railroad reports parliamentary papers government documents police reports public health records engineering reports technical papers medical surveys memoirs diaries travel narratives ethnographies newspaper articles editorials pamphlets broadsides paintings cartoons engravings photographs art ephemera and passages from novels and poetry collections that shed light on the cultural history of railways The editor's original essays and headnotes on the cultural politics of railways introduce over 200 carefully selected primary sources Students and researchers come to understand railways not as applied technological impositions of industrial capitalism but powerful fluid and idiosyncratic historical constructs

**Turn On, Tune In, Drift Off** Victor Szabo, 2023 *Turn On Tune In Drift Off Ambient Music's Psychedelic Past* rethinks the history and socioaesthetics of ambient music as a popular genre with roots in the psychedelic countercultures of the late twentieth century Victor Szabo reveals how anglophone audio producers and DJs between the mid 1960s and century's end commodified drone and loop based records as ambient audio slow spare spacious audio sold as artful personal media for creating atmosphere fostering contemplation transforming awareness and stilling the body The book takes a trip through landmark ambient audio productions and related discourses including marketing rhetoric artist manifestos and interviews and music criticism that during this time plotted the conventions of what became known as ambient music These productions include nature sounds records experimental avant garde pieces space music radio psychedelic and cosmic rock albums electronic dance music compilations and of course explicitly ambient music all of which popularized ambient audio through vivid atmospheric concepts In paying special attention to the sound of ambient audio to ambient audio's relationship with the

psychedelic New Age and rave countercultures of the US and UK and to the coincident evolution of therapeutic audio and head music across alternative media and independent music markets this history resituates ambient music as a hip highbrow framing and stylization of ongoing practices in crafting audio to alter consciousness comportment and mood In so doing Turn On Tune In Drift Off illuminates the social and aesthetic rifts and alliances informing one of today's most popular musical experimentalisms

**The Chinese and the Iron Road** Gordon Chang, Shelley Fisher Fishkin, 2019-04-30 Essays examining the Chinese worker experience during the construction of America's Transcontinental Railroad The completion of the transcontinental railroad in May 1869 is usually told as a story of national triumph and a key moment for American Manifest Destiny The Railroad made it possible to cross the country in a matter of days instead of months paved the way for new settlers to come out west and helped speed America's entry onto the world stage as a modern nation that spanned a full continent It also created vast wealth for its four owners including the fortune with which Leland Stanford would found Stanford University some two decades later But while the Transcontinental has often been celebrated in national memory little attention has been paid to the Chinese workers who made up 90 percent of the workforce on the Western portion of the line The Railroad could not have been built without Chinese labor but the lives of Chinese railroad workers themselves have been little understood and largely invisible This landmark volume explores the experiences of Chinese railroad workers and their place in cultural memory The Chinese and the Iron Road illuminates more fully than ever before the interconnected economies of China and the US how immigration across the Pacific changed both nations the dynamics of the racism the workers encountered the conditions under which they labored and their role in shaping both the history of the railroad and the development of the American West Praise for *The Chinese and the Iron Road* This timely and essential volume preserves the humanity of the often ignored and forgotten immigrant worker while also uncovering just how important Chinese American railroad workers were in the making of America and its place in the world Erika Lee author of *The Making of Asian America* Gordon H Chang and Shelley Fisher Fishkin's meticulously researched and beautifully written book fills a critical gap in our nation's history *The Chinese and the Iron Road* brings to life the stories of workers who defied incredible odds and gave their lives to unite these states into a nation David Henry Hwang Tony Award winning playwright of *The Dance* and *the Railroad* and *M. Butterfly* Destined to become the go-to resource about Chinese railroad workers in the American West Madeline Hsu author of *The Good Immigrants* How the Yellow Peril Became the Model Minority Deeply researched and richly detailed *The Chinese and the Iron Road* brings to life the Chinese immigrants whose work was essential to the railroad's construction Thomas Bender author of *A Nation Among Nations* America's Place in World History *Hollywood's White House* Peter C. Rollins, John E. O'Connor, 2010-09-12 Winner of the 2003 Ray and Pat Browne Book Award given by the Popular Culture Association The contributors to *Hollywood's White House* examine the historical accuracy of these presidential depictions illuminate their influence and uncover how they reflect the concerns of their times and the social and

political visions of the filmmakers The volume which includes a comprehensive filmography and a bibliography is ideal for historians and film enthusiasts Barry Jenkins and the Legacies of Slavery Delphine Letort, 2023-08-08 In this book Delphine Letort illuminates the intertwining of fiction and history in the TV series adaptation of *The Underground Railroad* Letort highlights the narrative and audio visual strategies used by Barry Jenkins to make for an affective moment on television
