Asian American Poets Guiyou Huang, 2002-05-30 Even though Asian American literature is enjoying an impressive critical popularity attention has focused primarily on longer narrative forms such as the novel And despite the proliferation of a large number of poets of Asian descent in the 20th century Asian American poetry remains a neglected area of study Poetry as an elite genre has not reached the level of popularity of the novel or short story partly due to the difficulties of reading and interpreting poetic texts The lack of criticism on Asian American poetry speaks to the urgent need for scholarship in this area since perhaps more than any other genre poetry most forcefully captures the intense feelings and emotions that Asian Americans have experienced about themselves and their world This reference book overviews the tremendous cultural contributions of Asian American poets Included are alphabetically arranged entries on 48 American poets of Asian descent most of whom have been active during the latter half of the 20th century Each entry begins with a short biography which sometimes includes information drawn from personal interviews The entries then discuss the poet's major works and themes including such concerns as family racism sexism identity language and politics A survey of the poet's critical reception follows In many cases the existing criticism is scant and the entries offer new readings of neglected works The entries conclude with bibliographies of primary and secondary texts and the volume closes with a selected general bibliography

**Poets and the Visual Arts in Renaissance England** Norman K. Farmer, 2014-08-19 In the twentieth century the pioneering work of such art historians as Erwin Panofsky and Edgar Wind heightened our awareness of the relationship between Renaissance literature and the visual arts By focusing on that relationship in the work of such poets as Sir Philip Sidney John Donne Richard Crashaw Edmund Waller and Robert Herrick Norman K Farmer Jr convincingly shows that they and other writers of the late sixteenth and early seventeenth centuries in England wrote with a lively and creative sense of the visual a sense richly informed by the theory and practice of Renaissance art Farmer begins by describing the powerful visual matrix that underlies the narrative structure of Sidney's *New Arcadia* He compares the role of the visual in the poetry of Donne and Ben Jonson and demonstrates how works by both Thomas Carew and Lord Herbert exhibit poetic invention according to familiar Renaissance pictorial themes Herrick's *Hesperides* is shown to be the major seventeenth century poetic application of the Horatian idea *ut pictura poesis* A special feature of this gracefully written and enlightening volume is Farmer's discussion of Lady Drury's oratory at Hawstead Hall Published here for the first time are photographs of this uniquely decorated oratory in which themes from a variety of English and Continental emblem books were painted on the walls of a room apparently designed for private meditation

Ludwig Strauss: An Approach to His Bilingual "Parallel Poems" Julia Matveev, 2018-08-06 This book is devoted to the study of the bilingual parallel poems of Ludwig Strauss Aachen 1892 Jerusalem 1953 created between 1934 and 1952 in Palestine Israel and which exist in two variants a Hebrew and a German version one of which is the original and the other a self translation The aim of this study is to compare the versions and their interpretation based on Strauss's theoretical essays on poetry and translation his political writings and works of literary criticism Special attention is paid to Strauss's concept linked with the idea of messianic redemption of poetry as a fore image of a future true community of men and as the earthly expression of the Absolute directed at interpreting divine revelation and its translation into human language In examining Strauss's experiments with self translation by which he aimed at establishing a dialogue between languages and between people and nations this study considers the two processes

of translation from divine speech into human language and from one human language into another      **Emblems and Art History** Alison Adams, Laurence Grove, 1996      *Parallel Public* Sara Blaylock, 2022-03-01 How East German artists made their country's experimental art scene a form of counter public life Experimental artists in the final years of the German Democratic Republic did not practice their art in the shadows on the margins hiding away from the Stasi's prying eyes In fact as Sara Blaylock shows many cultivated a critical influence over the very bureaucracies meant to keep them in line undermining state authority through forthright rather than covert projects In *Parallel Public* Blaylock describes how some East German artists made their country's experimental art scene a form of counter public life creating an alternative to the crumbling collective underpinnings of the state Blaylock examines the work of artists who used body based practices including performance film and photography to create new vocabularies of representation sharing their projects through independent networks of dissemination and display From the collective films and fashion shows of Erfurt's Women Artists Group which fused art with feminist political action to Gino Hahnemann the queer filmmaker and poet who set nudes alight in city parks these creators were as bold in their ventures as they were indifferent to state power *Parallel Public* is the first work of its kind on experimental art in East Germany to be written in English Blaylock draws on extensive interviews with artists art historians and organizers artist made publications official reports from the Union of Fine Artists and Stasi surveillance records As she recounts the role culture played in the GDR's rapid decline she reveals East German artists as dissenters and witnesses citizens and agents their work both antidote to and diagnosis of a weakening state      **A parallel between the Hamiltonian System and that which Mr. Hamilton calls the Old System; with an examination of the theory of the Italian verbs, for the use of the Hamiltonian pupils. Renaissance art than we have now for it provides not only a tool for viewing works of art as they were originally seen and experienced that is from a historical perspective but also an outline of the tradition out of which modern writings about art grew     Fragment of a Parallel Between the History, Literature, and Art of Italy in the Middle Ages William S.
