The End of the Experiment Stanley Rothman, 2017-09-08 The End of the Experiment ties together Stanley Rothman's theory of post industrialism and his four decades of research on American politics and society Rothman discusses the rise and fall of the New Left the sixties impact on America's cultural elites and the emergence of new post industrial humanistic values The first part of this book explains how cultural shifts in post industrial society increased the influence of intellectuals and redefined America's core values The second part examines how the shift in American social and cultural values led to a crisis of confidence in the American experiment And in a final section Rothman's contemporaries provide insight into his work reflecting on his continued influence and his devotion to traditional liberalism Rothman presents a quantitative study of personality differences between traditional American elites and new cultural elites Rothman argues that the experiment of America as a new nation rooted in democracy morality and civic virtue is being destroyed by a disaffected intellectual class opposed to traditional values

"Faith, Theology and Psychoanalysis" Trevor M Dobbs, 2010-03-25 This book traces the various influences on the development of Harry S Guntrip's thought including his personal history of family relationships memberships in various religious organizations and the weight of his academic professional mentors both theological and psychoanalytic Ronald Fairbairn and Donald Winnicott Guntrip both a minister and lay therapist is shown as a fascinating example of the adversarial tension between psychology and theology commonly known as the battle between science and religion
