Paranoid Modernism Literary Experiment Psychosis And The Professionalization Of English Society

Ulrika Maude, Mark Nixon

Paranoid Modernism Literary Experiment Psychosis And The Professionalization Of English Society:

Paranoid Modernism David Trotter, 2001 Seeking reasons for modernism's compulsion to experiment this book explores contemporary definitions of paranoia and its examination through fiction

Paranoia and Modernity John Farrell, 2006 Don Quixote is the first great modern paranoid adventurer Grandiosity and persecution define the characters of Swift's Gulliver Stendhal's Julien Sorel Melville's Ahab Dostoyevsky's Underground Man Ibsen's Masterbuilder Solness Strindberg's Captain in The Father Kafka's K and Joyce's autobiographical hero Stephen Dedalus The all encompassing conspiracy very much in its original Rousseauvian cast has become almost the normal way of representing society and its institutions since World War Two giving impetus to heroic plots and counter plots in a hundred films and in the novels of Burroughs Heller Ellison Pynchon Kesey Mailer DeLillo and others from Paranoia and Modernity Paranoia suspicion and control have preoccupied key Western intellectuals since the sixteenth century Paranoia is a dominant concern in modern literature and its peculiar constellation of symptoms grandiosity suspicion unfounded hostility delusions of persecution and conspiracy are nearly obligatory psychological components of the modern hero How did paranoia come to the center of modern moral and intellectual consciousness In Paranoia and Modernity John Farrell brings literary criticism psychology and intellectual history to the attempt at an answer He demonstrates the connection between paranoia and the long history of struggles over the question of agency the extent to which we are free to act and responsible for our actions He addresses a wide range of major authors from the late Middle Ages to the eighteenth century among them Luther Bacon Cervantes Descartes Hobbes Pascal La Rochefoucauld Swift and Rousseau Farrell shows how differently paranoid psychology looks at different historical junctures with different models of agency and in the epilogue Paranoia and Postmodernism he draws the implications for recent critical debates in the humanities

T.E. Hulme and the Question of Modernism Andrzej Gasiorek, 2016-03-23 Though only 34 years old at the time of his death in 1917 T E Hulme had already taken his place at the center of pre war London's advanced intellectual circles His work as poet critic philosopher aesthetician and political theorist helped define several major aesthetic and political movements including imagism and Vorticism Despite his influence however the man T S Eliot described as classical reactionary and revolutionary has until very recently been neglected by scholars and T E Hulme and the Question of Modernism is the first essay collection to offer an in depth exploration of Hulme's thought While each essay highlights a different aspect of Hulme's work on the overlapping discourses of aesthetics politics and philosophy taken together they demonstrate a shared belief in Hulme's decisive importance to the emergence of modernism and to the many categories that still govern our thinking about it In addition to the editors contributors include Todd Avery Rebecca Beasley C D Blanton Helen Carr Paul Edwards Lee Garver Jesse Matz Alan Munton and Andrew Thacker

A Dilemma of English Modernism Michael J. K. Walsh, 2007 Presents a first history of the artist and his work within the literary and sociocultural context of contemporary London Paris Milan and New York This work also emphasizes a re evaluative positioning of

Nevinson's work within a modernist framework in literature and art in the first half of the twentieth century in northwest Europe

Virginia Woolf and the Professions Evelyn Tsz Yan Chan, 2014-07-28 This book explores Virginia Woolf's engagement with the professions in her life and writing Woolf underscored the significance of the professions to society such as the opportunity they provided for a decent income and the usefulness of professional accreditation However she also resisted their hierarchical structures and their role in creating an overspecialised and fragmented modernity which prevented its members from leading whole fulfilling lives This book shows how Woolf's writing reshaped the professions so that they could better serve the individual and society and argues that her search for alternatives to existing professional structures deeply influenced her literary methods and experimentation

Being Modern Robert Bud, Paul Greenhalgh, Frank James, Morag Shiach, 2018-10-05 In the early decades of the twentieth century engagement with science was commonly used as an emblem of modernity This phenomenon is now attracting increasing attention in different historical specialties *Being Modern* builds on this recent scholarly interest to explore engagement with science across culture from the end of the nineteenth century to approximately 1940 Addressing the breadth of cultural forms in Britain and the western world from the architecture of Le Corbusier to working class British science fiction *Being Modern* paints a rich picture Seventeen distinguished contributors from a range of fields including the cultural study of science and technology art and architecture English culture and literature examine the issues involved The book will be a valuable resource for students and a spur to scholars to further examination of culture as an interconnected web of which science is a critical part and to supersede such tired formulations as Science and culture

Modernist Nowheres N. Waddell, 2012-07-24 *Modernist Nowheres* explores connections in the Anglo American sphere between early literary modernist cultures politics and utopia Foregrounding such writers as Conrad Lawrence and Wyndham Lewis it presents a new reading of early modernism in which utopianism plays a defining role prior to during and immediately after the First World War

Automatic Timothy Wientzen, 2021-08-31 Reconstructing a vast archive of writing about reflex behaviors this book demonstrates the ways in which a politics of reflex came to shape the intellectual and cultural life of the modernist era

Proletarian Answer to the Modernist Question Nick Hubble, 2017-12-20 Analyses what makes an acting performance excellent through a range of examples from world cinema

T.E. Hulme and Modernism Oliver Tearle, 2013-08-15 T E Hulme 1883 1917 was the author of a small number of poems and some genuinely innovative critical and philosophical writings From this modest output his influence on later writers was considerable T S Eliot described his poems as beautiful and Ezra Pound and Wyndham Lewis were both inspired by his work T E Hulme and *Modernism* explores his impact on key modernist figures and also shows where this influence has been misplaced or misinterpreted Oliver Tearle also here suggests that Hulme's significance goes beyond his influence on modernism and that his work provides new ways of thinking about creative and critical writing in the 21st century What is poetry What is the purpose of literary criticism And how might the strange phenomenon of the fragment offer new ways of

theorising such issues In exploring these and other important matters this book pushes at the boundaries of literary criticism and of writing itself **Work, Inheritance, and Deserts in Joseph Conrad's Fiction** Evelyn Tsz Yan Chan,2022-08-19 This book focuses on the complex relationships between inheritance work and desert in literature It shows how from its manifestation in the trope of material inheritance and legacy in Victorian fiction inheritance gradually took on additional more modern meanings in Joseph Conrad s fiction on work and self making In effect the emphasis on inheritance as referring to social rank and wealth acquired through birth shifted to a focus on talent ability and merit often expressed through work The book explores how Conrad s fiction engaged with these changing modes of inheritance and work and the resulting claims of desert they led to Uniquely it argues that Conrad s fiction critiques claims of desert arising from both work and inheritance while also vividly portraying the emotional costs and existential angst that these beliefs in desert entailed The argument speaks to and illuminates today s debates on moral desert arising from work and inheritance in particular from meritocratic ideals Its new approach to Conrad s works will appeal to students and scholars of Conrad and literary modernism as well as a wider audience interested in philosophical and social debates on desert deriving from inheritance and work *D. H. Lawrence, Transport and Cultural Transition* Andrew F. Humphries,2017-04-07 This book discusses D H Lawrence s interest in and engagement with transport as a literal and metaphorical focal point for his ontological concerns Focusing on five key novels this book explores issues of mobility modernity and gender First exploring how mechanized transportation reflects industry and patriarchy in *Sons and Lovers* the book then considers issues of female mobility in *The Rainbow* the signifying of war transport in *Women in Love* revolution and the meeting of primitive and modern in *The Plumed Serpent* and the reflection of dystopian post war concerns in *Lady Chatterley s Lover* Appealing to Lawrence modernist and mobilities researchers this book is also of interest to readers interested in early twentieth century society the First World War and transport history **Relations** AnnKatrin Jonsson,2006 In *Relations* AnnKatrin Jonsson develops a new understanding of ethics and subjectivity within high modernism The author analyzes Joyce s *Ulysses* Woolf s *The Waves* and Barnes s *Nightwood* as narratives that depict a subject turning towards the other and the world a movement that seriously questions the sovereignty of the subject as cogito instead opening up for otherness excess and indeterminacy The author points to convergences between a phenomenological manner of thinking found in modernist literature and the notion of an ethics and an ethical subjectivity a subject who exists in an inescapable relation with the world As the novels acknowledge otherness there is a rebound effect on the narrative its structure and style otherness transforms the narrative itself In this way *Ulysses* *The Waves* and *Nightwood* indicate a desire to escape from a notion of the subject that contains and controls the world and the other By indicating ways in which new conceptions of ethics are made possible within modernism the author also shows that there are within modernism both literary and philosophical texts whose understanding and representation of subjectivity already express and establish crucial aspects of the discourse on ethics and ethical subjectivity that characterize

recent continental philosophy and cultural theory Bad Modernisms Douglas Mao, Rebecca L. Walkowitz, 2006-04-14
 DIVCollection of essays on the ways in which modernist literature film and art transgressed the artistic and cultural norms we associate with high modernism div **The Bloomsbury Companion to Modernist Literature** Ulrika Maude, Mark Nixon, 2018-11-01 In this book leading international scholars explore the major ideas and debates that have made the study of modernist literature one of the most vibrant areas of literary studies today The Bloomsbury Companion to Modernist Literature offers a comprehensive guide to current research in the field covering topics including The modernist everyday emotion myth geographies and language scepticism Modernist literature and the arts music the visual arts cinema and popular culture Textual and archival approaches manuscripts genetic criticism and modernist magazines Modernist literature and science sexology neurology psychology technology and the theory of relativity The geopolitics of modernism globalization politics and economics Resources keywords and an annotated bibliography **Dickens's Secular Gospel** Chris Louttit, 2009-05-07 The first full length study on the subject of Dickens and work this book reshapes our understanding of Dickens by challenging a critical oversimplification that Dickens's attitude towards work reflects conventional expressions of Victorian earnestness of the sort attributed also to Thomas Carlyle John Ruskin and even more simplistically Samuel Smiles Instead by analyzing a wide range of Dickens's fiction and journalism in the light of new biographical and historical research Louttit shows that Dickens is not interested in work as an abstract positive value or even in cataloguing it in concrete detail What he explores instead is the human dimension of work how in other words work affects the lives of those engaged in it His writing about work is as a result best viewed not merely as a quasi religious Gospel of Work nor as an objective sociological report but rather as what Louttit terms a secular gospel *The Good Soldier* Ford Madox Ford, 2012-09-06 This is the saddest story I have ever heard Wealthy American John Dowell describes in a disarmingly casual compellingly intimate manner how he and his wife Florence meet an English couple in a German spa resort They become friends over the years and gradually the history of their relationships and the passions that lie behind the orderly Edwardian facade are unveiled Dowell is the archetypal unreliable narrator and his casual revelations are both unexpected and explosive A masterpiece of early Modernism and a virtuoso performance of literary skill Ford's Tale of Passion reflects contemporary interests in psychology sexuality and the New Woman Its portrayal of the destruction of a civilized elite anticipates the cataclysm of the First World War which erupted while Ford was finishing the book This new edition includes Ford's important essay On Impressionism which sheds valuable light on his artistic technique ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more *Obscure Objects of Desire* Johanna Malt, 2004 Publisher description **The Oxford Handbook of Music and the Middlebrow** Kate

Guthrie, Christopher Chowrimootoo, 2025-03-06 The Oxford Handbook of Music and the Middlebrow takes a fresh look at the history of nineteenth and twentieth century music Offering an alternative to the traditional focus on either highbrow modernism on the one hand or lowbrow popular music on the other its novel view centers on the wealth of previously overlooked products and practices that bridged the space between these cultural extremes While seminal attempts to recover middlebrow culture came from literary critics and historians middlebrow studies is now a burgeoning field within musicology As the first essay collection on this topic this handbook has two aims first it seeks to explore the middlebrow as a historical phenomenon excavating the kinds of critical writings marketing practices and compositional styles with which it was associated By reanimating a range of musical practices and products from symphonic concerts to Broadway musicals opera criticism to rock journalism and modern jazz to pop rock the contributors investigate how artists critics and audiences breached the divide from both above and below In the process the handbook chapters push the boundaries of middlebrow studies and demonstrate the category s relevance outside of the mid twentieth century Anglophone world by delving into the nineteenth century interrogating the present day and looking to Germany Russia and beyond The handbook s second aim is to complicate the disciplinary divisions that have flowed from the entrenched oppositions between high and low genres Breaking new ground by bringing together scholars of classical and popular music these chapters trace common middlebrow themes across traditional disciplinary boundaries Across this broad vista contributors account for the kinds of syntheses overlaps and juxtapositions that made the cultural middle such a richly textured and endlessly contested terrain

Woolf and the City Elizabeth F. Evans, Sarah E. Cornish, 2010 Edited collection from acclaimed contemporary Woolf scholars focusing on urban issues These include addressing the ethical and political implications of Virginia Woolf s work a move that suggests new insights into Woolf as a real world social critic
