Parasites And Western Man:

Parasites and Western Man R.J. Donaldson, 2012-12-06 The purpose of this book is to provide a concise account of those parasites which affect man in developed countries Other textbooks relate mainly to the tropics and subtropics where parasites by comparison are more common It is widely believed that this difference in prevalence between tropical and temperate countries is due to differences in climatic conditions alone Whilst it is true that certain vectors can only act as transmitters of disease under climatic conditions found in the tropics there are many other instances where climate per se is not a decisive factor More often parasitic disease is related to the poor standards of hygiene sanitation and nutrition which characterize many of these tropical and subtropical areas The advent of more international travel has added a new dimension to the study of parasites with the appearance of rare and exotic parasitic infections in the West This book encompasses the entire field of parasites in developed countries with a brief reference to other parts of the world whenever appropriate for the sake of completeness Each chapter provides basic information as well as recent advances and current thinking Thus the book will serve as an excellent comprehensive introduction to those taking up a specialized interest in the subject as well as those who may wish to obtain general information but are not actively working in the field Although it is primarily written from a medical and veterinary standpoint it provides valuable material for other disciplines *Parasites, Pests, and Predators* S. of the proceedings of a symposium held at New Orleans on November 10-14, 1975 and jointly sponsored by the American Microscopical Society and the American Society of Parasitologists. The symposium focuses on the literatures dealing with the regulation of parasite populations. It also introduces some concepts and notions regarding this field of interest. This book reports the five papers presented in the symposium beginning with the concept of parasitism. It specifically explains the regulation of fish parasite populations and the role of arrested development in the regulation of nematode populations. Aside from the subject at hand, the complementary nature of laboratory work, field studies, and mathematical modeling are explained. This compilation corresponds to an effort to bridge a gap between some of the ideas and thoughts in ecology and parasitology.

Special Scientific Report, 1960 *Structure and Function of the Aspartic Proteinases* Ben M. Dunn, 2012-12-06 In September 1990 a group of 160 scientists from 19 countries and 21 of the United States met at the Red Lion Inn in Rohnert Park, Sonoma County, California. The purpose of this meeting was to share new information from recent research on the Aspartic Proteinases. This book is a compilation of the information transferred in that forum. The Aspartic Proteinases include all those enzymes from the fourth class of proteolytic enzymes, the first three being the Serine, Cysteine, and Metalloproteinases. Of course, all the scientists in attendance at the Sonoma Aspartic Proteinase Conference would agree that our current level of understanding of the structure and function of the Aspartic Proteinase class of enzymes is clearly first class. The reasons for this require a bit of historical perspective. The group of scientists who are engaged in study of this family of enzymes first met as a separate entity in 1976 in Norman, Oklahoma, at a meeting organized by Jordan Tang of the Oklahoma Medical Research Foundation. This was an exciting time as the first crystal structures of some of these enzymes were described by Blundell, James, and Davies. During that conference, the relationship between the two halves of the mammalian and fungal enzymes was recognized, and this has provided a structural foundation for analysis of the retroviral enzymes which came later. A book was published by Plenum Press documenting this conference, and the current book is an update to that important work.
