The Cambridge Handbook of Copyright in Street Art and Graffiti Enrico Bonadio, 2019-11-13 Bonadio brings together experts to provide the first comprehensive analysis of issues related to copyright in street art and graffiti. This book sheds light on the legal tools available for artists and offers policy and sociological insights to spur further debate. It will appeal to legal scholars and law practitioners around the world. *Beyond Molotovs – A Visual Handbook of Anti-Authoritarian Strategies* International Research Group on Authoritarianism and Counter-Strategies, kollektiv orangotango, 2024-04-02 Authoritarianism operates on a visceral level rather than relying on arguments. How can we counter authoritarian affects? This publication brings together more than 50 first-hand accounts of anti-authoritarian movements, activists, artists, and scholars from around the world, focusing on the sensuous and emotional dimension of their strategies. From the collective art and aesthetics of feminist movements in India, Iran, Mexico, and Poland to sewing collectives, subversive internet art in Hong Kong, and even anti-authoritarian board games, the contributions open new perspectives on moments of resistance, subversion, and creation. Indeed, the handbook itself is a work of anti-authoritarian art. The editors behind the International Research Group on Authoritarianism and Counter-Strategies and kollektiv orangotango are Aurel Eschmann, B. rries Nehe Nico Baumgarten, Paul Schweizer, Severin Halder, Ailynn Torres Santana, In s Dur n Matute, and Julieta Mira. Strategic Occidentalism Ignacio M. Sanchez Prado, 2018-08-15 Strategic Occidentalism examines the transformation in both aesthetics and infrastructure of Mexican fiction since the late 1970s. During this time, a framework has emerged characterized by the corporatization of publishing, a frictional relationship between Mexican literature and global book markets, and the desire of Mexican writers to break from dominant models of national culture. In the course of this analysis, Ignacio M. S nchez Prado engages with theories of world literature, proposing that world literature is a construction produced at various levels, including the national, that must be studied from its material conditions of production in specific sites. In particular, he argues that Mexican writers have engaged in a strategic Occidentalism in which their idiosyncratic connections with world literature have responded to dynamics different from those identified by world systems or diffusionist theorists. Strategic Occidentalism identifies three scenes in which a cosmopolitan aesthetics in Mexican world literature has been produced: Sergio Pitol's translation of Eastern European and marginal British modernist literature; the emergence of the Crack group as a polemic against the legacies of magical realism and the challenges of writers like Carmen Boullosa; Cristina Rivera Garza and Ana Garc a Bergua to the roles traditionally assigned to Latin American writers in world literature. *Violence and Resistance, Art and Politics in Colombia* Stephen Zepke, Nicolás Alvarado Castillo, 2023-04-20 This book explores the historical and contemporary connections between art and politics in Colombia. These relations are unique because of the ways in which they are saturated by violence as the country has passed through conquest, struggles for Independence, fighting between political factions, civil war, paramilitaries, narco traffickers, and state violence. This seemingly

unending stream of violence gives art in Colombia one of its main themes The lavishly illustrated essays written by Colombian authors examine Colombian visual arts music theatre literature cinema indigenous arts popular culture militant publications and recent protest movements analysing them with tools drawn from contemporary philosophy and theory Approaches include decolonisation theory cosmopolitics anthropology after the ontological turn Colombian philosophy feminism and French theory The essays all offer powerful understandings of how art has not only been complicit in perpetuating political violence in Colombia but also how it has been a vital form of analysis and resistance

Linguistic Landscapes and Educational Spaces Edina Krompák,Víctor Fernández-Mallat,Stephan Meyer,2021-12-20 How do written and other signs shape our educational spaces and practices and how in turn are these written and other signs shaped by the educational spaces and practices they inhabit Building on enquiries into the linguistic landscapes of public spaces this volume addresses these questions and thereby further advances the educational turn in linguistic and semiotic landscapes studies Prompted by social changes associated with migration and superdiversity as well as imperatives to promote pluri and multilingualism the studies collected here speak to the interest of researchers and practitioners in educational linguistics and educational sciences They confirm the value of combining empirical analyses of linguistic and semiotic educational spaces with action research on mobilising linguistic landscapes as pedagogical resources to promote multilingual equality

The Aesthetics of Rule and Resistance Lisa Bogerts,2022-03-11 Effective visual communication has become an essential strategy for grassroots political activists who use images to publicly express resistance and make their claims visible in the struggle for political power However this aesthetics of resistance is also employed by political and economic elites for their own purposes making it increasingly difficult to distinguish from the aesthetics of rule Through illuminating case studies of street art in Buenos Aires Bogot Caracas and Mexico City The Aesthetics of Rule and Resistance explores the visual strategies of persuasion and meaning making employed by both rulers and resisters to foster self legitimization identification and mobilization

Who Can Stop the Drums? Sujatha Fernandes,2010-04-02 In this vivid ethnography of social movements in the barrios or poor shantytowns of Caracas Sujatha Fernandes reveals a significant dimension of political life in Venezuela since President Hugo Ch vez was elected Fernandes traces the histories of the barrios from the guerrilla insurgency movements against displacement and cultural resistance of the 1960s and 1970s through the debt crisis of the early 1980s and the neoliberal reforms that followed to the Ch vez period She weaves barrio residents life stories into her account of movements for social and economic justice Who Can Stop the Drums demonstrates that the transformations under way in Venezuela are shaped by negotiations between the Ch vez government and social movements with their own forms of historical memory local organization and consciousness Fernandes portrays everyday life and politics in the shantytowns of Caracas through accounts of community based radio barrio assemblies and popular fiestas and the many interviews she conducted with activists and government officials Most of the barrio activists she presents are Ch vez supporters They see the leftist president as someone who understands their precarious lives and has made important changes to the state system to redistribute resources Yet they must balance receiving state resources which are necessary to fund their community based projects with their desire to retain a sense of agency Fernandes locates the struggles of the urban poor within Venezuela s transition from neoliberalism to what she calls post neoliberalism She contends that in contemporary Venezuela we find a

hybrid state while Chavez is actively challenging neoliberalism the state remains subject to the constraints and logics of global capital
