**Story, Struggle "Teenagers" What Was I Thinking!** Leon Segers Jr., 2012-10-25 Although the title of this book indicates One parent's story struggle it's actually about the battle between all parents and teens or simply adults and teens in general I say battle but it has actually risen to the potential for what I call generational warfare Basically teenagers have little respect for adults especially parents The protocol is simple and yes most adults do recall progressing strategically in the same way during their own youth Even before we were born we make demands Then after we've grown a few years we make many more demands By the age of ten to thirteen we more than expect those demands to unquestionably be met Finally by the last 3 to 5 years of youth while living at home with our parents we've assessed who our biggest enemy is and how we would like to take down who we now see as both an enemy and a dictator Simply put after you've bitten the hand that feeds you for so long that hand begins to appear useless And once that represents uselessness the person behind that outreaching hand also serves no purpose to you So the stage is set Teenagers won't look back with any sense of appreciation and parents who also continued to grow will look back and wonder was it all worth it Many are optimistic while others are in denial But most can only feel one thing What was I thinking Toxic Parents Susan Forward, 2009-12-16 BONUS This edition contains an excerpt from Dr

Susan Forward's Men Who Hate Women and the Women Who Love Them When you were a child Did your parents tell you were bad or worthless Did your parents use physical pain to discipline you Did you have to take care of your parents because of their problems Were you frightened of your parents Did your parents do anything to you that had to be kept secret Now that you are an adult Do your parents still treat you as if you were a child Do you have intense emotional or physical reactions after spending time with your parents Do your parents control you with threats or guilt Do they manipulate you with money Do you feel that no matter what you do it's never good enough for your parents In this remarkable self-help guide Dr Susan Forward draws on case histories and the real-life voices of adult children of toxic parents to help you free yourself from the frustrating patterns of your relationship with your parents and discover an exciting new world of self-confidence inner strength and emotional independence *Parental Wimp Syndrome (and Other Stupid Parent Tricks)* Thomas J.

*Nightmare in Hostage Hills* Christina Mask, 2017-11-20 Sadly Christina s journey and her children s experience of being collateral damage is not atypical Kudos for her strength and bravery in putting her story out there as a cautionary tale for others Dr Susan Weitzman author *Not to People like Us* Hidden Abuse in Upscale Marriages Christina Mask s *Nightmare* is constructed around fragments from a life in agony as one woman attempts to escape abuse retain her sanity and regain the custody of three children the family court and her husband have taken from her It s all here the daily records over months then years the diary entries the self blame the excuses the shame the absurdist dialogues with family therapists marginalia from readings or lectures or religious texts letters pleadings with judges and lawyers and evaluators poems letters to and from the children real and imagined the reports that put her claims of abuse in quotations and so so much more These pieces are loosely joined by a narrative and an interior monologue that I sometimes found too much to bear But then I realized I was scanning something akin to a Picasso painting whose underlying truth lay not in what was on the page not the fragments but in the hope that put them out here no more evident than in the endlessly reasonable letters Mask writes to intractable foes Mask has cast her eye on what Yeats termed the broken crumbling battlement of the self and lived to write it As one director famously said about the sixty women and children crowded into her six bedroom shelter If they can manage this they can manage anything Christina s book gives us faith that she is right Evan Stark PhD MSW The writer is professor
