## **Parenthood In America Undervalued Underpaid Under Siege:**

*Parenthood in America* Jack C. Westman, 2001 In this outgrowth of a conference called Parenthood in America held at in April 1998 Westman emeritus psychiatry U of Wisconsin Medical School identifies the parent child relationship as the fundamental institution in our society one that fosters a lifelong ability to form and sustain intimate relationships and be a thoughtful moral person He argues for a shift in thinking toward the use of quality of life rather than material achievement as the central measure of success The work s 23 articles bring insights from research to bear on the practical aspects of childrearing and on policies that influence the context in which parenting occurs in the home and in the community

incisive multidisciplinary look at the American family over the past 200 years written by respected scholars and researchers *Family in America* offers two powerful antidotes to popular misconceptions about American family life historical perspective and scientific objectivity When we look back at our early history we discover that the idealized 1950s family characterized by a rising birthrate a stable divorce rate and a declining age of marriage was a historical aberration out of line with long term historical trends Working mothers we learn are not a 20th century invention most families throughout American history have needed more than one breadwinner In the exciting new scholarship described here readers will learn precisely what is new in American family life and what is not and acquire the perspective they need to appreciate both the genuine improvements

and the losses that come with change      **Religious Parenting** Christian Smith, Bridget Ritz, Michael Rotolo, 2021-11-02 How do religiously observant American parents pass on their religion to their children Sociologist Christian Smith and his team sought to answer this question by interviewing over two hundred parents from across the U S affiliated with religious congregations of various types The book presents the voices of parents from diverse socioeconomic and religious backgrounds interested in passing on their religious convictions and practices to their children with the focus on why they think this matters and how they do it What Smith and his team found was surprising Almost all the parents interviewed whether Catholic Evangelical Jewish Muslim Mormon or Hindu and whether politically or theologically conservative or liberal view the transmission of religion in much the same way Most religious parents do not expect professional clergy and youth ministries to play a large role in imparting to young people a taste for continued religious affiliation and participation Rather they expect to do this work themselves viewing their children as ongoing projects Moreover very few of these religious parents regard what we might call the truth of religious claims beliefs in salvation or the trinity for example the afterlife heaven etc as important reasons for the centrality of religion in their lives and the lives of their children For nearly all including the most conservative religion is almost always about community morality and a sense of purpose all of which lead to a better quality of life for themselves and their children in the here and now Smith and his co authors ground their discussion of religious parenting in a broader set of theoretical claims about the way in which religious transmission occurs Drawing on cognitive anthropology and inspired by work in cognitive science the authors present and describe the background cultural models that American religious parents hold and use to inform their parenting      The Michigan Alumnus, 2001 In v 1 8 the final number consists of the Commencement annual      Raising America Ann Hulbert, 2004-04-13 Since the beginning of the twentieth century millions of anxious parents have turned to child rearing manuals for reassurance Instead however they have often found yet more cause for worry In this rich social history Ann Hulbert analyzes one hundred years of shifting trends in advice and discovers an ongoing battle between two main approaches a child centered focus on warmly encouraging development versus a sterner parent centered emphasis on instilling discipline She examines how pediatrics psychology and neuroscience have fueled the debates but failed to offer definitive answers And she delves into the highly relevant and often turbulent personal lives of the popular advice givers from L Emmett Holt and Arnold Gesell to Bruno Bettelheim and Benjamin Spock to the prominent and ever conflicting experts of today      Handing Down the Faith Christian Smith, Amy Adamczyk, 2021 This book is about how American religious parents approach the handing on of their religious practices and beliefs to their children We know a lot about the importance of parents in faith transmission and factors that influence its effectiveness But we know much less about the actual beliefs feelings and activities of the parents themselves when it comes to the intergenerational transmission of religious faith and practice      The School Services Sourcebook Cynthia Franklin, Mary Beth Harris, Paula Allen-Meares, 2006-02-02 This comprehensive sourcebook covers every
