## **Parenthood The Whole Story:**

*Unplanned* Abby Johnson, 2011-01-11 When Abby Johnson director of a Planned Parenthood clinic in Texas walked across the road in October 2009 to join the Coalition for Life she made national headlines In *Unplanned* she tells her story from both sides of the abortion clinic property line *Grand Illusions* George Grant, 1988 **Sacred Work** Tom Davis, 2005 In *Sacred Work* Tom Davis brings to light the ways in which the Planned Parenthood Federation of America a leading reproductive rights organization and the clergy are not as incongruent as they often are construed to be Beginning with Margaret Sanger's efforts to include mainline clergy in the fight to provide information about contraceptives to the general public Davis details the religious and historical dimensions of this long alliance up through current debates **Parenthood Between Generations** Siân Pooley, Kaveri Qureshi, 2016 Recent literature has identified modern parenting as an expert led practice one which begins with pre pregnancy decisions entails distinct types of intimate relationships places intense burdens on mothers and increasingly on fathers too Exploring within diverse historical and global contexts how men and women make and break relations between generations when becoming parents this volume brings together innovative qualitative research by anthropologists historians and sociologists The chapters focus tightly on inter generational transmission and demonstrate its importance for understanding how people become parents and rear children *All Joy and No Fun* Jennifer Senior, 2014-01-28 Thousands of books have examined the effects of parents on their children In *All Joy and No Fun* award winning journalist Jennifer Senior now asks what are the effects of children on their parents In *All Joy and No Fun* award winning journalist Jennifer Senior tries to tackle this question isolating and analyzing the many ways in which children reshape their parents lives whether it's their marriages their jobs their habits their hobbies their friendships or their internal senses of self She argues that changes in the last half century have radically altered the roles of today's mothers and fathers making their mandates at once more complex and far less clear Recruiting from a wide variety of sources in history sociology economics psychology philosophy and anthropology she dissects both the timeless strains of parenting and the ones that are brand new and then brings her research to life in the homes of ordinary parents around the country The result is an unforgettable series of family portraits starting with parents of young children and progressing to parents of teens Through lively and accessible storytelling Senior follows these mothers and fathers as they wrestle with some of parenthood's deepest vexations and luxuriate in some of its finest rewards Meticulously researched yet imbued with emotional intelligence *All Joy and No Fun* makes us reconsider some of our culture's most basic beliefs about parenthood all while illuminating the profound ways children deepen and add purpose to our lives By focusing on parenthood rather than parenting the book is original and essential reading for mothers and fathers of today and tomorrow *Conceiving Parenthood* Amy Laura Hall, 2008 The book is replete with photos and advertisements from popular magazines from the 1930s through the 1950s Jacket **Mother Brain** Chelsea Conaboy, 2023-09-19 Health and science journalist Chelsea Conaboy explodes the concept

of maternal instinct and tells a new story about what it means to become a parent Conaboy expected things to change with the birth of her child What she didn't expect was how different she would feel But she would soon discover what was behind this her changing brain Though Conaboy was prepared for the endless dirty diapers the sleepless nights and the joy of holding her newborn she did not anticipate this shift in self as deep as it was disorienting Mother Brain is a groundbreaking exploration of the parental brain that untangles insidious myths from complicated realities New parents undergo major structural and functional brain changes driven by hormones and the deluge of stimuli a baby provides These neurobiological changes help all parents birthing or otherwise adapt in those intense first days and prepare for a long period of learning how to meet their child's needs Pregnancy produces such significant changes in brain anatomy that researchers can easily sort those who have had one from those who haven't And all highly involved parents no matter their path to parenthood develop similar caregiving circuitry Yet this emerging science which provides key insights into the wide ranging experience of parenthood from its larger role in shaping human nature to the intensity of our individual emotions is mostly absent from the public conversation about parenthood The story that exists in the science today is far more meaningful than the idea that mothers spring into being by instinct Weaving the latest neuroscience and social psychology together with new reporting Conaboy reveals unexpected upsides generations of scientific neglect and a powerful new narrative of parenthood

**The Walls Are Talking** Abby Johnson, 2016-02-03 This book narrates the harrowing and life changing experiences of former abortion clinic workers including those of the author who once directed abortion services at a large Planned Parenthood clinic in Texas These individuals whose names have been changed to protect their identities left their jobs in the abortion industry after experiencing a change of heart They have come forward with their stories not for fame or notoriety but to shed light on the reality of abortion They want their stories to change the lives of others for the better These stories are difficult to read because an abortion is an act of violence harming not only the obvious victim the unborn child but also the mother the father the doctor and everyone else involved But these stories also offer hope for they show that anyone no matter what part the person has played in an abortion can start anew can make amends for past mistakes They demonstrate that the first step on that journey is telling the truth as these courageous individuals do in these pages Those of us that have worked in the abortion industry all live with a constant burden We can't let our burden slide off of our shoulders it is what keeps us on fire It reminds us of why we fight so hard We have seen death and evil in a way that most haven't and we participated But we are forgiven He who has been forgiven much loves much And we love a lot I am eagerly awaiting the day when we can call all abortionists and clinic workers former and repentant abortion providers Abby Johnson author *A Lie Someone Told You about Yourself* Peter Ho Davies, 2021 When does sorrow turn to shame When does love become labor When does chance become choice And when does fact become fiction

Generation Unbound Isabel V. Sawhill, 2014-09-25 Over half of all births to young adults in the United States now occur outside of marriage and many are unplanned The result is increased poverty and inequality for children The left argues for more social support for unmarried parents the right argues for a return to traditional marriage In *Generation Unbound* Isabel V Sawhill offers a third approach change drifters into planners In a well written and accessible survey of the impact of family structure on child well being Sawhill contrasts planners who are delaying parenthood until after they marry with drifters who are having unplanned children early and outside of marriage These two distinct patterns are contributing to an emerging

class divide and threatening social mobility in the United States Sawhill draws on insights from the new field of behavioral economics showing that it is possible by changing the default to move from a culture that accepts a high number of unplanned pregnancies to a culture in which adults only have children when they are ready to be a parent
