Fowler, 2011-07-13 This book provides a guide for grieving youth and adults as well as extensive descriptive lists of recommended professional literature resources Grief caused by loss is both a very common human experience and a highly individualized one For example children experience a number of losses that are unique to their young age such as sibling and parent death adoption or divorce and should be given special consideration by professionals and parents helping them in these situations For gay lesbian or cohabiting heterosexual couples that suffer the loss of a partner societal standards often deny the survivors in these relationships the right to grieve Helping Those Experiencing Loss A Guide to Grieving Resources is a book like no other supplying compassionate information for navigating the emotional distress that every man and woman will experience in their lifetime as well as a comprehensive guide to the literature of bereavement and grieving It explains the grieving process interpreting the results of research on the topic in plain language and addressing specific groups children young adults parents who have lost a child adults who have lost spouses and the aging population **About What Was Lost** Jessica Berger Gross, 2006-12-26 In this intimate anthology twenty writers explore the grief and sadness and hope that living through a miscarriage can bring Featuring such notable writers as Pam Houston Joyce Maynard Caroline Leavitt Susanna Sonnenberg and Julianna Baggott among many others About What Was Lost is the only book that uses honest eloquent and deeply moving narrative to provide much needed solace and support on the subject of pregnancy loss Today as many as one in four pregnancies ends in miscarriage And yet many women are surprised to find that instead of simply grieving the end of a pregnancy they feel as if they are mourning the loss of a child Taken aback by their sorrow they seek solace in similar perspectives only to find that a silence and lingering stigma surrounds the topic Revealing a wide spectrum of experiences and perspectives this powerful collection offers comfort and community for the millions of women and their loved ones who

experience this all too common kind of loss every year **Grief Unseen** Laura Seftel,2006 At least one in five pregnancies ends in miscarriage yet aftercare is rarely available for those who have experienced it Grief Unseen explains different kinds of childbearing losses such as failed fertility treatment ectopic pregnancy and stillbirth and explores their emotional impact on women and their partners and the process of healing *Therapeutic Arts in Pregnancy, Birth and New Parenthood* Susan Hogan,2020-08-06 Therapeutic Arts in Pregnancy Birth and New Parenthood explores the use of arts in relation to infertility pregnancy childbirth and new parenthood It is the first book to bring all these subjects together into one accessible volume with an international perspective The book looks at the role of the arts in health with respect to the pregnancy journey from conception to new parenthood It introduces readers to the ways in which art is being used with women who are experiencing different stages of childbearing who may be unable to conceive and are struggling with infertility treatment or who experience miscarriage and loss a traumatic birth or grief over the loss of a baby It also elucidates how art making offers a means for women to express and understand their changed sense of self identity and sexuality as a result of pregnancy and motherhood The book has an international compass and is essential reading for arts therapy trainees and arts in health courses and will also be of interest to other health professionals and artists **Empty Arms** Sherokee Ilse,1990 Coping with Miscarriage Stillbirth and Infant Death Your High-Risk Pregnancy Diana M. Teya Brooks Pribac, 2021-02-01 Historically grief and spirituality have been jealously guarded as uniquely human experiences Although non human animal grief has been acknowledged in recent times its potency has not been recognised as equal to human grief Anthropocentric philosophical questions still underpin both academic and popular discussions In *Enter the Animal* Teya Brooks Pribac examines what we do and don't know about grief and spirituality She explores the growing body of knowledge about attachment and loss and how they shape the lives of both human and non human animals A valuable addition to the vibrant interdisciplinary conversation about animal subjectivity *Enter the Animal* identifies conceptual and methodological approaches that have contributed to the prejudice against nonhuman animals It offers a compelling theoretical base for the consideration of grief and spirituality across species and highlights important ethical implications for how humans treat other animals The Library Journal, 2000 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately
