**The Claims of Parenting** Stefan Ramaekers, Judith Suissa, 2011-09-15 Many sociological historical and cultural stories can be and have already been told about why it is that parents in post industrial western societies face an often overwhelming array of advice on how to bring up their children At the same time there have been several philosophical treatments of the legal moral and political issues surrounding issues of procreation the rights of children and the duties of parents as well as some philosophical accounts of the shifts in our underlying conceptualization of childhood and adult child relationships While this book partly builds on the insights of this literature it is significantly different in that it offers a

philosophically informed discussion of the actual practical experience of being a parent with its deliberations judgements and dilemmas In probing the ethical and conceptual questions suggested by the parent child relationship this unique volume demonstrates the irreducible philosophical richness of this relationship and thus provides an important counter balance to the overly empirical and largely psychological focus of a great deal of parenting literature Unlike other analytic work on the parent child relationship and the educational role of parents this work draws on first person accounts of the day to day experience of being a parent in order to explore the ethical and epistemological aspects of this experience In so doing it exposes the limitations of some of the languages within which contemporary parenting is conceptualized and discussed and opens up a space for thinking about childrearing and the parent child relationship beyond and other than in terms of the languages which dominate the ways in which we generally think about it today     *Parenting in Contemporary Society* Pauline H. Turner,Pauline J. Turner,Kelly J. Welch,2012 Rev ed of Parenting in contemporary society Tommie J Hamner Pauline H Turner 3rd ed 1996     *The Madness of Modern Parenting* Zoe Williams,2014 Provides a critique of the commercial pressures on modern parents     *Parenting Matters* National Academies of Sciences, Engineering, and Medicine,Division of Behavioral and Social Sciences and Education,Board on Children, Youth, and Families,Committee on Supporting the Parents of Young Children,2016-11-21 Decades of research have demonstrated that the parent child dyad and the environment of the family which includes all primary caregivers are at the foundation of children s well being and healthy development From birth children are learning and rely on parents and the other caregivers in their lives to protect and care for them The impact of parents may never be greater than during the earliest years of life when a child s brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment Parents help children build and refine their knowledge and skills charting a trajectory for their health and well being during childhood and beyond The experience of parenting also impacts parents themselves For instance parenting can enrich and give focus to parents lives generate stress or calm and create any number of emotions including feelings of happiness sadness fulfillment and anger Parenting of young children today takes place in the context of significant ongoing developments These include a rapidly growing body of science on early childhood increases in funding for programs and services for families changing demographics of the U S population and greater diversity of family structure Additionally parenting is increasingly being shaped by technology and increased access to information about parenting Parenting Matters identifies parenting knowledge attitudes and practices associated with positive developmental outcomes in children ages 0 8 universal preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge attitudes and practices and barriers to and facilitators for parents use of practices that lead to healthy child outcomes as well as their participation in effective programs and services This report makes recommendations directed at an array of stakeholders for promoting the wide scale adoption of effective programs

Stearns, 2003-05-01 An examination into the history of modern parenting The nineteenth and twentieth centuries saw a dramatic shift in the role of children in American society and families No longer necessary for labor children became economic liabilities and twentieth century parents exhibited a new level of anxiety concerning the welfare of their children and their own ability to parent effectively What caused this shift in the ways parenting and childhood were experienced and perceived Why at a time of relative ease and prosperity do parents continue to grapple with uncertainty and with unreasonable expectations of both themselves and their children Peter N Stearns explains this phenomenon by examining the new issues the twentieth century brought to bear on families Surveying popular media expert childrearing manuals and newspapers and journals published throughout the century Stearns shows how schooling physical and emotional vulnerability and the rise in influence of commercialism became primary concerns for parents The result Stearns shows is that contemporary parents have come to believe that they are participating in a culture of neglect and diminishing standards *Anxious Parents A Modern History of Childrearing in America* shows the reasons for this belief through an historic examination of modern parenting **What is Parenthood?** Linda C. McClain, Daniel Cere, 2013-01-01 Extraordinary changes in patterns of family life and family law have dramatically altered the boundaries of parenthood and opened up numerous questions and debates What is parenthood and why does it matter How should society define regulate and support it Is parenthood separable from marriage or couplehood when society seeks to foster children s well being What is the better model of parenthood from the perspective of child outcomes Intense disagreements over the definition and future of marriage often rest upon conflicting convictions about parenthood What Is Parenthood asks bold and direct questions about parenthood in contemporary society and it brings together a stellar interdisciplinary group of scholars with widely varying perspectives to investigate them Editors Linda C McClain and Daniel Cere facilitate a dynamic conversation between scholars from several disciplines about competing models of parenthood and a sweeping array of topics including single parenthood adoption donor created families gay and lesbian parents transnational parenthood parent child attachment and gender difference and parenthood **Parenting Without Borders** Christine Gross-Loh Ph.D, 2013-05-02 An eye opening guide to the world s best parenting strategies Research reveals that American kids lag behind in academic achievement happiness and wellness Christine Gross Loh exposes culturally determined norms we have about good parenting and asks Are there parenting strategies other countries are getting right that we are not This book takes us across the globe and examines how parents successfully foster resilience creativity independence and academic excellence in their children

Illuminating the surprising ways in which culture shapes our parenting practices Gross Loh offers objective research based insight such as Co sleeping may promote independence in kids Hoverparenting can damage a child s resilience Finnish children who rank among the highest academic achievers enjoy multiple recesses a day Our obsession with self esteem may limit a child s potential *Nurturing Dads* William Marsiglio, Kevin Roy, 2012-01-01 American fathers are a highly diverse group but the breadwinning live in biological dad prevails as the fatherhood ideal Consequently policymakers continue to emphasize marriage and residency over initiatives that might help foster healthy father child relationships and creative co parenting regardless of marital or residential status In *Nurturing Dads* William Marsiglio and Kevin Roy explore the ways new initiatives can address the social cultural and economic challenges men face in contemporary families and foster more meaningful engagement between many different kinds of fathers and their children What makes a good father The firsthand accounts in *Nurturing Dads* show that the answer to this question varies widely and in ways that counter the mainstream provide and reside model of fatherhood Marsiglio and Roy document the personal experiences of more than 300 men from a wide range of socioeconomic backgrounds and diverse settings including fathers to be young adult fathers middle class dads stepfathers men with multiple children in separate families and fathers in correctional facilities They find that most dads express the desire to have strong close relationships with their children and to develop the nurturing skills to maintain these bonds But they also find that disadvantaged fathers including young dads and those in constrained financial and personal circumstances confront myriad structural obstacles such as poverty inadequate education and poor job opportunities *Nurturing Dads* asserts that society should help fathers become more committed and attentive caregivers and that federal and state agencies work sites grassroots advocacy groups and the media all have roles to play Recent efforts to introduce state initiated paternity leave should be coupled with social programs that encourage fathers to develop unconditional commitments to children to co parent with mothers to establish partnerships with their children s other caregivers and to develop parenting skills and resources before becoming fathers via activities like volunteering and mentoring kids Ultimately Marsiglio and Roy argue such combined strategies would not only change the policy landscape to promote engaged fathering but also change the cultural landscape to view nurturance as a fundamental aspect of good fathering Care is a human experience not just a woman s responsibility and this core idea behind *Nurturing Dads* holds important implications for how society supports its families and defines manhood The book promotes the progressive notion that fathers should provide more than financial support and in the process bring about a better start in life for their children A Volume in the American Sociological Association s Rose Series in Sociology
