## **Parents In Contemporary America:**

**Parents in Contemporary America** E. E. LeMasters, John D. DeFrain, 1989      **Anxious Parents** Peter N. Stearns, 2003-05-01 An examination into the history of modern parenting The nineteenth and twentieth centuries saw a dramatic shift in the role of children in American society and families No longer necessary for labor children became economic liabilities and twentieth century parents exhibited a new level of anxiety concerning the welfare of their children and their own ability to parent effectively What caused this shift in the ways parenting and childhood were experienced and perceived Why at a time of relative ease and prosperity do parents continue to grapple with uncertainty and with unreasonable expectations of both themselves and their children Peter N Stearns explains this phenomenon by examining the new issues the twentieth century brought to bear on families Surveying popular media expert childrearing manuals and newspapers and journals published throughout the century Stearns shows how schooling physical and emotional vulnerability and the rise in influence of commercialism became primary concerns for parents The result Stearns shows is that contemporary parents have come to believe that they are participating in a culture of neglect and diminishing standards

**Anxious Parents** A Modern History of Childrearing in America shows the reasons for this belief through an historic examination of modern parenting      *Religious Parenting* Christian Smith, Bridget Ritz, Michael Rotolo, 2020 The purpose and nature of life Religion s value and truth Children parenting and family The whys and hows of religious transmission Theorizing cultural models Conclusion      **Raising America** Ann Hulbert, 2011-01-26 Since the beginning of the twentieth century millions of anxious parents have turned to child rearing manuals for reassurance Instead however they have often found yet more cause for worry In this rich social history Ann Hulbert analyzes one hundred years of shifting trends in advice and discovers an ongoing battle between two main approaches a child centered focus on warmly encouraging development versus a sterner parent centered emphasis on instilling discipline She examines how pediatrics psychology and neuroscience have fueled the debates but failed to offer definitive answers And she delves into the highly relevant and often turbulent personal lives of the popular advice givers from L Emmett Holt and Arnold Gesell to Bruno Bettelheim and Benjamin Spock to the prominent and ever conflicting experts of today      **The End of American Childhood** Paula S. Fass, 2017-11-07 How American childhood and parenting have changed from the nation s founding to the present The End of American Childhood takes a sweeping look at the history of American childhood and parenting from the nation s founding to the present day Renowned historian Paula Fass shows how since the beginning of the American republic independence self definition and individual success have informed Americans attitudes toward children But as parents today hover over every detail of their children s lives are the qualities that once made American childhood special still desired or possible Placing the experiences of children and parents against the backdrop of social political and cultural shifts Fass challenges Americans to reconnect with the beliefs that set the American understanding of childhood apart from the rest of the world Fass examines how freer

relationships between American children and parents transformed the national culture altered generational relationships among immigrants helped create a new science of child development and promoted a revolution in modern schooling She looks at the childhoods of icons including Margaret Mead and Ulysses S Grant who as an eleven year old was in charge of his father's fields and explored his rural Ohio countryside Fass also features less well known children like ten year old Rose Cohen who worked in the drudgery of nineteenth century factories Bringing readers into the present Fass argues that current American conditions and policies have made adolescence socially irrelevant and altered children's road to maturity while parental oversight threatens children's competence and initiative Showing how American parenting has been firmly linked to historical changes *The End of American Childhood* considers what implications this might hold for the nation's future

*Inheritance in Contemporary America* Jacqueline L. Angel, 2008-01-28 With the baby boom generation on the cusp of retirement life expectancies on the rise and the nation's cultural makeup in flux the United States is faced with social and policy quandaries that demand attention How are elders to balance the competing claims of helping family members during their lifetime saving for old age and planning estates What roles should the state family and individuals play in supporting people during later life Are new familial gift giving trends sustainable and if so what effects might they have on future generations *Inheritance in Contemporary America* tackles the complex legal policy and emotional issues that surround bequests and inheritances in an era of increasing longevity broadening ethnicity and unraveling social safety nets Through empirical analyses case studies interviews and anecdotes Jacqueline L Angel explains the historical nature of familial giving and how it is changing as the nation's demographics shift She explores the legal personal and policy complexities involved in passing wealth down through generations and provides a cross disciplinary context for exploring the indelible effects that newly unfolding inheritance practices will have on various societal cohorts and the nation in general From nuclear and extended families to the state and nongovernmental bodies Angel's engaging study explores how attitudes toward giving are evolving and confronts in stark terms the legacy that these shifts in attitude will leave This book will be a vital tool for scholars and practitioners in gerontology sociology psychology anthropology economics political science and public policy

*Parenting Matters* National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on Supporting the Parents of Young Children, 2016-11-21 Decades of research have demonstrated that the parent child dyad and the environment of the family which includes all primary caregivers are at the foundation of children's well being and healthy development From birth children are learning and rely on parents and the other caregivers in their lives to protect and care for them The impact of parents may never be greater than during the earliest years of life when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment Parents help children build and refine their knowledge and skills charting a trajectory for their health and well being during childhood and beyond The experience of

parenting also impacts parents themselves For instance parenting can enrich and give focus to parents lives generate stress or calm and create any number of emotions including feelings of happiness sadness fulfillment and anger Parenting of young children today takes place in the context of significant ongoing developments These include a rapidly growing body of science on early childhood increases in funding for programs and services for families changing demographics of the U S population and greater diversity of family structure Additionally parenting is increasingly being shaped by technology and increased access to information about parenting Parenting Matters identifies parenting knowledge attitudes and practices associated with positive developmental outcomes in children ages 0 8 universal preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge attitudes and practices and barriers to and facilitators for parents use of practices that lead to healthy child outcomes as well as their participation in effective programs and services This report makes recommendations directed at an array of stakeholders for promoting the wide scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice It is meant to serve as a roadmap for the future of parenting policy research and practice in the United States

**Social Class and Changing Families in an Unequal America** Marcia Carlson,Paula

England,2011-06-21 This book offers an up to the moment assessment of the condition of the American family in an era of growing inequality

**The Contemporary American Family** Teresa Chandler Sabourin,2003-04-07 I find the book extremely attractive The dialectical perspective provides a consistent avenue from which to address the diversity structural cultural developmental and functional in Contemporary American Families Whereas this perspective does not claim to solve the tensions in families it offers marvelous insights into the nature and changing diversities in families I believe this text is particularly well suited for reasonable discussion of serious issues and provides valuable insights into the nature of families

and their functioning Vince Bloom California State University Fresno Teresa Chandler Sabourin invites students to appreciate the mystery complexity and diversity of the contemporary American family Resisting simplistic descriptions and normative descriptions Sabourin challenges us to open our minds and hearts to the rich humane variety of family connections as we search for ways to accommodate the competing demands and conflicting pressures experienced in our most cherished relationships Starting from the source of her own experience Sabourin addresses both the darker abusive side of family relationships as well as the lighter spiritual side of intimacy and love The Contemporary American Family successfully addresses the need for an accessible and teachable treatment of the dialectical perspective on close relationships This is a book that will encourage students of family communication to respect diversity question taken for granted assumptions and share the pain and joy and of their own family experiences Art Bochner University of South Florida Increasingly diverse in structure and culture contemporary families defy explanation by many traditional linear methods In order to understand the enormous impact that diversity has on the behaviors and relationships within the family scholars and students need a means to embrace rather than solve relational contradictions The Contemporary American Family A Dialectical Perspective on Communication and Relationships recognizes that families are both close and distant stable and changing amenable and uncontrollable Teresa Chandler Sabourin employs a dialectical approach acknowledging that a family s contradictions and relational tensions may be the determining factor in its interaction Writing in a direct and simple style Sabourin uses this innovative theoretical position to address four types of family diversity structural cultural developmental and functional Sure to stimulate discussion and further research this provocative volume examines The dialectic process in the context of family communication and relationships The redefined more inclusive American family Contemporary family structures Cultural diversity in the family Issues such as alcoholism domestic violence and divorce Spirituality within the family Designed as a supplemental text for upper level undergraduate and graduate courses in Family Communication The Contemporary American Family is also an invaluable resource for students in Family Studies and Women s Studies courses

**Parents in Modern America** E. E. LeMasters, 1970 **The Gardener and the Carpenter** Alison Gopnik, 2016-08-09 Alison Gopnik a developmental psychologist examines the paradoxes of parenthood from a scientific perspective **Do Parents Matter?** Robert A. LeVine, Sarah LeVine, 2016-09-06 When it comes to parenting more isn t always better but it is always more tiring In Japan a boy sleeps in his parents bed until age ten but still shows independence in all other areas of his life In rural India toilet training begins one month after infants are born and is accomplished with little fanfare In Paris parents limit the amount of agency they give their toddlers In America parents grant them ever more choices independence and attention Given our approach to parenting is it any surprise that American parents are too frequently exhausted Over the course of nearly fifty years Robert and Sarah LeVine have conducted a groundbreaking worldwide study of how families work They have consistently found that children can be happy and healthy in a wide variety of conditions not just the effort intensive

cautious environment so many American parents drive themselves crazy trying to create While there is always another news article or scientific fad proclaiming the importance of some factor or other it's easy to miss the bigger picture that children are smarter more resilient and more independent than we give them credit for Do Parents Matter is an eye opening look at the world of human nurture one with profound lessons for the way we think about our families **This Is My America** Kim Johnson, 2022-05-17 Incredible and searing Nic Stone 1 New York Times bestselling author of Dear Martin The Hate U Give meets Just Mercy in this unflinching yet uplifting first novel that explores the racist injustices in the American justice system Every week seventeen year old Tracy Beaumont writes letters to Innocence X asking the organization to help her father an innocent Black man on death row After seven years Tracy is running out of time her dad has only 267 days left Then the unthinkable happens The police arrive in the night and Tracy's older brother Jamal goes from being a bright promising track star to a thug on the run accused of killing a white girl Determined to save her brother Tracy investigates what really happened between Jamal and Angela down at the Pike But will Tracy and her family survive the uncovering of the skeletons of their Texas town's racist history that still haunt the present Fans of Nic Stone Tiffany D Jackson and Jason Reynolds won't want to miss this provocative and gripping debut **The Contemporary American Family** William Josiah Goode, 1971 A New York Times book A collection of articles from the New York Times Bibliography p 291 292 New Fathers? Contemporary American Stories of Masculinity, Domesticity and Kinship Helena Wahlström, 2010-10-12 What do novels such as Annie Proulx's The Shipping News Michael Cunningham's A Home at the End of the World and Jayne Anne Phillips MotherKind have in common with films such as Smoke and Mrs Doubtfire This study explores the intersection of masculinity and domesticity in contemporary film and literature It argues that these texts produced since the 1990s address with some urgency the notion of new fatherhood in the United States They offer explorations of the idea that American fatherhood around the turn of the twenty first century is changing and they problematize the legitimacy of new fathers and alternative families in a national culture where the old patriarch and the nuclear family still often loom large in the imagination of many Americans *Contemporary American Women Fiction Writers* Laurie Champion, Rhonda Austin, 2002-11-30 American women writers have long been creating an extraordinarily diverse and vital body of fiction particularly in the decades since World War II Recent authors have benefited from the struggles of their predecessors who broke through barriers that denied women opportunities for self expression This reference highlights American women writers who continue to build upon the formerly male dominated canon Included are alphabetically arranged entries for more than 60 American women writers of diverse ethnicity who wrote or published their most significant fiction after World War II Each entry is written by an expert contributor and includes L DBLA brief biography L DBLA discussion of major works and themes DBLA survey of the writer's critical reception L DBLA bibliography of primary and secondary sources Children and Childhood in American Religions Don S. Browning, Bonnie J. Miller-McLemore, 2009-02-16 Whether First Communion or bar mitzvah religious traditions play a

central role in the lives of many American children In this collection of essays leading scholars reveal for the first time how various religions interpret reconstruct and mediate their traditions to help guide children and their parents in navigating the opportunities and challenges of American life The book examines ten religions among other topics How the Catholic Church confronts the tension between its teachings about children and actual practice The Oglala Lakota's struggle to preserve their spiritual tradition The impact of modernity on Hinduism Only by discussing the unique challenges faced by all religions and their followers can we take the first step toward a greater understanding for all of us     The Contemporary American Crime Novel Andrew Pepper, 2000 As America's ethnic and racial character undergoes explosive transformation its crime fictions trace contest and celebrate the changes The Contemporary American Crime Novel is an exciting book that offers a comprehensive review of recent developments in American crime fiction exploring America's dynamic fragmented multicultural landscape and how it has transformed the codes and conventions of the crime novel Featured authors include James Ellroy James Lee Burke Sara Paretsky Barbara Wilson Chester Himes Walter Mosley Faye Kellerman Alex Abella and Chang Rae Lee     Religious Parenting Christian Smith, Bridget Ritz, Michael Rotolo, 2021-11-02 How do religiously observant American parents pass on their religion to their children Sociologist Christian Smith and his team sought to answer this question by interviewing over two hundred parents from across the U.S. affiliated with religious congregations of various types The book presents the voices of parents from diverse socioeconomic and religious backgrounds interested in passing on their religious convictions and practices to their children with the focus on why they think this matters and how they do it What Smith and his team found was surprising Almost all the parents interviewed whether Catholic Evangelical Jewish Muslim Mormon or Hindu and whether politically or theologically conservative or liberal view the transmission of religion in much the same way Most religious parents do not expect professional clergy and youth ministries to play a large role in imparting to young people a taste for continued religious affiliation and participation Rather they expect to do this work themselves viewing their children as ongoing projects Moreover very few of these religious parents regard what we might call the truth of religious claims beliefs in salvation or the trinity for example the afterlife heaven etc as important reasons for the centrality of religion in their lives and the lives of their children For nearly all including the most conservative religion is almost always about community morality and a sense of purpose all of which lead to a better quality of life for themselves and their children in the here and now Smith and his co-authors ground their discussion of religious parenting in a broader set of theoretical claims about the way in which religious transmission occurs Drawing on cognitive anthropology and inspired by work in cognitive science the authors present and describe the background cultural models that American religious parents hold and use to inform their parenting
