Pariah Tom Nairn,2002-09-17 When political victories are based on a fraction of the electoral register perish looks like the only way towards reform

The Break-Up of Britain Tom Nairn,2021-04-27 In this classic text first published in 1977 Tom Nairn memorably depicts the slow foundering of the United Kingdom on the rocks of imperial decline constitutional anachronism and the gathering force of civic nationalism Rich in comparisons between the nationalisms of the British Isles and those of the wider world thoughtful in its treatment of the interaction between nationality and social class *The Break Up of Britain* concludes with a bravura essay on the Janus faced nature of national identity *Postscripts from the Thatcher and Blair years* trace the political strategies whose upshot accelerated the demise of a British state they were intended to serve As a second Scottish independence referendum beckons a new Introduction by Anthony Barnett underlines the book s enduring relevance

A Study in Legal History Volume II; The Last of England Charles Stephens,2009-10-02 When Lord Denning died in 1999 the leader writer of the Daily Telegraph wrote of a deep and almost tangible Englishness which shone through many of Lord Denning s celebrated judgments He was patriotic sceptical and humane intelligent without being intellectual Since 1999 the nature of English identity has become the subject of debate and contention not only within the academy but also in politics and the media In some respects it could be argued that the debate about English identity is one of the most important in contemporary Britain *The Last of England* considers the role of Englishness in the jurisprudence of Lord Denning setting his conception of the role of the judiciary in the constitution his views about the nature of history the land and war his understanding of equity in particular the way in which he developed the doctrine of estoppel his attitudes towards immigration and race and his approach to the law of the European Community in the context of the developing debate about the nature of English identity

Enoch Powell and the Making of Postcolonial Britain Camilla Schofield,2013-10-03 Enoch Powell s explosive rhetoric against black immigration and anti discrimination law transformed the terrain of British race politics and cast a long shadow over British society Using extensive archival research Camilla Schofield offers a radical reappraisal of Powell s political career and insists that his historical significance is inseparable from the political generation he sought to represent *Enoch Powell and the Making of Postcolonial Britain* follows Powell s trajectory from an officer in the British Raj to the centre of British politics and finally to his turn to Ulster Unionism She argues that Powell and the mass movement against New Commonwealth immigration that he inspired shed light on Britain s war generation popular understandings of the welfare state and the significance of memories of war and empire in the making of postcolonial Britain Through Powell Schofield illuminates the complex relationship between British social democracy racism and the politics of imperial decline in Britain

Englishness Simon Featherstone,2009-01-15 This book examines the conflicts dilemmas and contradictions that marked Englishness as the nation changed from an imperial power to a postcolonial state The chapters deal with travel writing popular song music hall and variety theatre dances elocution

lessons cricket and football and national festivals as well as literature and film High and popular cultures are brought together in dialogue and the diversity as well as the problematic nature of English identity is emphasised The case studies are linked by their interests in different kinds of performances of being English and by a particular focus upon the voice and the body as key sites for the struggles of modern England The book is a lively contribution to current interdisciplinary debates about Englishness national cultures and postcolonial identities It is relevant to undergraduate students of literature drama film politics and sociology and will also appeal to a general readership *Ireland* Paul Bew,2007-08-16 The modern Irish question is defined by many as a case of a great and supposedly liberal nation supposedly mistreating a smaller one This text embodies a new approach to this issue analysing key issues from religious discrimination and famine to the passions of both nationalism and unionism

Multiculturalism and Moral Conflict Maria Dimova-Cookson,Peter Stirk,2009-10-16 Multiculturalism is higher on the daily political agenda than it has ever been Leading politicians and public commentators speak with an unparalleled bluntness about the perceived limitations of multiculturalism while representatives of cultural minorities express concern about marginalisation This debate is taking place against a background of fear about terrorism the integrity of national identities and a loosely construed clash of civilizations Secularism is pitted against religious fundamentalism respect for difference against the right of freedom of speech integration against self determination and duties of citizenship against minority rights This book confronts the reality of moral conflict in the debate on multiculturalism while resisting the simplification which too frequently accompanies daily commentary on both sides of an increasingly polarised debate The volume as a whole marks an important step in the attempt to examine the underlying concepts of the nature and legitimate extent of disagreement of secularism the nature of power the state and citizenship which inevitably constitute key assumptions in the debate Bringing together leading scholars on multiculturalism Gerald Gaus Peter Jones John Horton Tariq Modood Chandran Kukathas Bhikhu Parekh Matthew Festenstein and Cecile Laborde this book discusses the latest developments in the field It will be of strong interest students and scholars of multiculturalism political science political theory international relations sociology philosophy and anthropology *National Pasts in Europe and East Asia* Peter W. Preston,2012-07-26 With the rise of industrial capitalism in Europe and the related imposition of colonial rule in much of East Asia both Europe and East Asia have intertwined histories that continue to shape their political thinking and political decision making The contemporary interactions of the two regions now once again major trading partners will both depend upon and facilitate deeper understandings of their respective sets of national pasts This book compares national pasts as well as the current processes of change taking place in Europe and East Asia including the dynamics of the European Union in Europe and the re emergence of the historical centre of China in East Asia It argues that as the change unfolds in the economic social and political fields the various national pasts embedded with the polities of the two regions will also need to be revisited and reworked This book makes an invaluable contribution to research on comparative politics as

well as studies on South East Asia and Europe

Ulster Loyalism after the Good Friday Agreement J. McAuley, G. Spencer, 2011-01-19 A timely assessment of loyalist history identity and community in Northern Ireland today which provides a comprehensive picture of how loyalism has reacted to changes since the Good Friday Agreement Challenging simplistic stereotypes of loyalism this book provides a complex multi faceted explanation of the loyalist imagination

Literature of an Independent England C. Westall, M. Gardiner, 2013-07-09 Some of the most incisive writers on the subject rethink the relationship between Britain England and English literary culture It is premised on the importance of devolution the uncertainty of the British union the place of English Literature within the union and the need for England to become a self determining literary nation

Rule, Britannia! Homer B. Pettey, R. Barton Palmer, 2018-10-01 Assesses how cinematic biographies of key figures reflect and shape what it means to be British Rule Britannia surveys the British biopic a genre crucial to understanding how national cinema engages with the collective experience and values of its intended audience Offering a provocative take on an aspect of filmmaking with profound cultural significance the volume focuses on how screen biographies of prominent figures in British history and culture can be understood as involved if unofficially in the shaping and promotion of an ever protean national identity The contributors engage with the vexed concept of British nationality especially as this sense of collective belonging is problematized by the ethnically oriented alternatives of English Scottish Welsh and Irish nations They explore the critical and historiographical issues raised by the biopic demonstrating that celebration of conventional virtue is not the genre s only natural subject Filmic depictions of such personalities as Elizabeth I Victoria George VI Elizabeth II Margaret Thatcher Iris Murdoch and Jack the Ripper are covered This exceptional collection offers new ways of looking at these films as films as well as a fresh approach to British history as a cultural whole

The Great Tradition Anthony Brundage, Richard A. Cosgrove, 2007 This book examines the prominent role played by constitutional history from 1870 to 1960 in the creation of a positive sense of identity for Britain and the United States

Topothesia Ameeth Vijay, 2023-05-02 SHORTLISTED 2024 MSA FIRST BOOK PRIZE Topothesia reads urban planning as a mode of speculative fiction one inextricably linked to histories of British colonialism and liberalism through a particular understanding of place The book focuses on town planning from the late nineteenth century to the present day showing how the contemporary geography of Britain sharply unequal and marked by racial division continues ideologies of place established in colonial contexts Specifically planning allows for the speculative construction of future places that are both utopian in their ability to resolve political disagreement and at the same tantalizingly realizable able to be produced in concrete reality This speculative imaginary I argue is only possible within the ideological framework of colonialism and the history of empire within which it developed Topothesia refers to a rhetorical device employing the vivid depiction of an often imaginary place This device Vijay shows helps us understand urban planning as a narrative genre one that even in its most mundane documents is compelled to produce elaborate fantasies of future places The book examines

specific planning movements over time to understand the form and the stakes of their speculative worlds In building these worlds the book shows planners continually coopted literary critiques of the present and reveries of the future retaining literature s aesthetics while eschewing its politics At the same time Vijay shows writers and artists have dwelled within and against these colonial imaginaries to seek other means of representing place [Visions of England](#) Paul Dave,2006-03
