Paris Dreams, Paris Memories Charles Rearick,2011-04-06 A rich and entertaining history of the French capital's predominant myths and image making from the nineteenth century to the present Roxanne Panchasi H France Review How did Paris become the world favorite it is today Charles Rearick argues that we can best understand Paris as several cities in one each with its own history and its own imaginary shaped by dream and memory Paris has long been at once a cosmopolitan City of Light and of modernity a patchwork of time resistant villages a treasured heirloom a hell for the disinherited and a legendary pleasure dome Focusing on the last century and a half Paris Dreams Paris Memories makes contemporary Paris understandable It tells of renewal projects radically transforming neighborhoods and of counter measures taken to perpetuate the city's historic character and soul It provides a historically grounded look at the troubled suburbs Further it tests long standing

characterizations of Paris's uniqueness through comparisons with such rivals as London and Berlin Paris Dreams Paris Memories shows that in myriad forms buildings monuments festivities and artistic portrayals contemporary Paris gives new life to visions of the city long etched in Parisian imaginations A pleasure to read Catherine Clark H Urban Fascinating Nicoleta Bazgan Contemporary French Civilization Rearick is an expert guide Jeffrey H Jackson Rhodes College Like a pleasant stroll through the city one finds much that one has already seen but also plenty that one has not Stephen Sawyer French History Rearick has written not so much a history of Paris but a history of the history of Paris William Irvine York University *The Man Who Invented Aztec Crystal Skulls* Jane MacLaren Walsh, Brett Topping, 2018-11-29 Eugene Boban began life in humble circumstances in Paris traveled to the California Gold Rush and later became a recognized authority on pre-Columbian cultures He also invented an entire category of archaeological artifact the Aztec crystal skull By his own admission he successfully palmed off a number of these crystal skulls on the curators of Europe's leading museums How could that happen and who was this man Detailed are the travels self-education and archaeological explorations of Eugene Boban this book also explores the circumstances that allowed him to sell fakes to museums that would remain undetected for over a century

Bohemians David Weir, 2023 The nineteenth-century Romantic myth of Bohemia emerged to describe the new conditions faced by artists and writers who after the previous system of aristocratic patronage collapsed were free to move around in search of success Yet most real-life bohemians have scant interest in commercial gain and are not so itinerant after all Tracing these contradictions in bohemian cultures and lifestyles from the early nineteenth century to the present David Weir explores the myth of Bohemia as it developed in various forms of expression novels plays operas films and in key cities including Paris Munich and New York Weir concludes with a discussion of the legacy of Bohemia today as something outworn and dying an exhausted tradition that somehow continues

City of Light Rupert Christiansen, 2018-10-09 A sparkling account of the nineteenth-century reinvention of Paris as the most beautiful exciting city in the world In 1853 French emperor Louis Napoleon inaugurated a vast and ambitious program of public works in Paris directed by Georges Eug Haussmann the prefect of the Seine Haussmann transformed the old medieval city of squalid slums and disease-ridden alleyways into a City of Light characterized by wide boulevards apartment blocks parks squares and public monuments new rail stations and department stores and a new system of public sanitation City of Light charts this fifteen-year project of urban renewal which despite the interruptions of war revolution corruption and bankruptcy set a template for nineteenth and early twentieth-century urban planning and created the enduring landscape of modern Paris now so famous around the globe Lively and engaging City of Light is a book for anyone who wants to know how Paris became Paris

The Imaginary Revolution Michael M. Seidman, 2004 The events of 1968 have been seen as a decisive turning point in the Western world The author takes a critical look at May 1968 and questions whether the events were in fact as revolutionary as French and foreign commentators have indicated He concludes the student movement changed little that

had not already been challenged and altered in the late fifties and early sixties The workers strikes led to fewer working hours and higher wages but these reforms reflected the secular demands of the French labor movement May 1968 was remarkable not because of the actual transformations it wrought but rather by virtue of the revolutionary power that much of the media and most scholars have attributed to it and which turned it into a symbol of a youthful renewed and freer society in France and beyond

The Foundations of Modern Terrorism Martin A. Miller, 2012-11-29 Why is it that terrorism has become such a central factor in our lives despite all the efforts to eradicate it Ranging from early modern Europe to the contemporary Middle East Martin Miller reveals the foundations of modern terrorism He argues that the French Revolution was a watershed moment as it was then that ordinary citizens first claimed the right to govern The traditional notion of state legitimacy was forever altered and terrorism became part of a violent contest over control of state power between officials in government and insurgents in society In the nineteenth and twentieth centuries terrorism evolved into a way of seeing the world and a way of life for both insurgents and state security forces with the two sides drawn ever closer in their behaviour and tactics This is a groundbreaking history of terrorism which for the first time integrates the violence of governments and insurgencies

Blessed Motherhood, Bitter Fruit Elinor Accampo, 2006-09-08 Nelly Roussel 1878 1922 the first feminist spokeswoman for birth control in Europe challenged both the men of early twentieth century France who sought to preserve the status quo and the women who aimed to change it She delivered her messages through public lectures journalism and theater dazzling audiences with her beauty intelligence and disarming wit She did so within the context of a national depopulation crisis caused by the confluence of low birth rates the rise of international tensions and the tragedy of the First World War While her support spread across social classes strong political resistance to her message revealed deeply conservative precepts about gender which were grounded in French identity itself In this thoughtful and provocative study Elinor Accampo follows Roussel's life from her youth marriage speaking career motherhood and political activism to her decline and death from tuberculosis in the years following World War I She tells the story of a woman whose life and work spanned a historical moment when womanhood was being redefined by the acceptance of a woman's sexuality as distinct from her biological reproductive role a development that is still causing controversy today

Mass Violence and the Self Howard G. Brown, 2019-01-15 Mass Violence and the Self explores the earliest visual and textual depictions of personal suffering caused by the French Wars of Religion of 1562-98 the Fronde of 1648-52 the French Revolutionary Terror of 1793-94 and the Paris Commune of 1871 The development of novel media from pamphlets and woodblock printing to colored lithographs illustrated newspapers and collodion photography helped to determine cultural emotional and psychological responses to these four episodes of mass violence Howard G Brown's richly illustrated and conceptually innovative book shows how the increasingly effective communication of the suffering of others combined with interpretive bias to produce what may be understood as collective traumas Seeing these responses as collective traumas reveals their significance in

shaping new social identities that extended beyond the village or neighborhood Moreover acquiring a sense of shared identity whether as Huguenots Parisian bourgeois French citizens or urban proletarians was less the cause of violent conflict than the consequence of it Combining neuroscience art history and biography studies Brown explores how collective trauma fostered a growing salience of the self as the key to personal identity In particular feeling empathy and compassion in response to depictions of others emotional suffering intensified imaginative self reflection Protestant martyrologies revolutionary autodefenses and personal diaries are examined in the light of cultural trends such as the interiorization of piety the culture of sensibility and the birth of urban modernism to reveal how representations of mass violence helped to shape the psychological processes of the self
