## **Paris Et Ses Campagnes Sous L'ancien Régime Mélanges Offerts à Jean Jacquot:**

**Paris et ses campagnes sous l'Ancien Régime** Michel Balard,Jean-Claude Hervé,Nicole Lemaître,1994 Les collègues et amis de Jean Jacquot se sont associés pour offrir ce volume d'hommage qui est d'abord un livre d'histoire. On y voit que Paris n'est pas seulement une capitale de pierre et de bton mais aussi une campagne. Avant que l'urbanisation du dernier siècle ne submerge tout la capitale tait ceinturée de plantureuses campagnes couvertes de bl de vignes de prairies de forêts. Sans cérémonie sans vin sans animaux de chasse de pêche ou de levage. Jamais une telle ville n'aurait pu se construire et travailler. On a aujourd'hui oublié la difficulté de nourrir régulièrement les grands ensembles urbains à l'époque pré-industrielle et l'énorme richesse des campagnes de l'Ile de France. On a plus encore oublié les difficultés techniques et climatiques du labeur paysan, les calamités agricoles, les récoltes irrégulières et les disettes. La terre et ses ruraux, la ville et ses citadins, les activités commerciales et administratives d'une capitale incomparable sont ici tout à fait présentes. C'est cette nécessité d'imbrication de la ville et de ses campagnes avec quelques comparaisons françaises ou étrangères qui rend palpable cet hommage à Jean Jacquot.

La façade sud de l'œuvre de Jean Jacquot, historien du monde rural et de Paris universitaire, président de la Fédération des Sociétés Savantes de Paris et de l'Ile de France, est ici clatante. Ces études nous parlent d'une seule voix d'un monde que nous avons perdu et d'un temps qui a marqué de façon indélébile le visage de Paris et les paysages familiers des Franciliens. Ce volume est un complément idéal de l'œuvre de Jean Jacquot sur Paris et l'Ile de France au temps des paysans XVIIIe et XIXe siècles, parue en 1990 chez le même éditeur.

*Constructing Paris in the Age of Revolution* A. Potofsky, 2009-10-29

Examining the social and political history of workers and entrepreneurs engaged in constructing the French capital from 1763 to 1815, this book argues that Paris construction was a core sector in which archaic and innovative practices were symbiotically used by guilds, the state and enterprises to launch the commercial revolution in France.

*Information Flows* Leos Müller, Jari Ojala, 2007

Business information is an important subject in contemporary social and economic historical studies. One reason is the revolution in information technology of the recent decades. Another reason is the impact of neo-institutional economics, which singled out information costs as an important factor in economic performance. However, this attention has primarily been paid to contemporary or recent use of business information. The present book looks at the role of business information from a long time perspective (1350–2000) with the aim not least of pointing out the continuity and the evolutionary character of the changing use of information. The chapters of this book, however, not only cover a long period and a varied subject matter. They also represent new and fresh analytical perspectives on the issue of business information in addition to providing us with original historical research. This book will attract any scholar interested in information flows from the mid-fourteenth century to the present day.
