Chronicle Book Review Swapping his native San Francisco for the City of Light travel writer David Downie arrived in Paris in
1986 on a one way ticket his head full of romantic notions Curiosity and the legs of a cross country runner propelled him
daily from an unheated seventh floor walk up garret near the Champs Elys es to the old Montmartre haunts of the doomed
painter Modigliani the tombs of P re Lachaise cemetery the luxuriant alleys of the Luxembourg Gardens and the aristocratic
le Saint Louis midstream in the Seine Downie wound up living in the chic Marais district married to the Paris born American
photographer Alison Harris an equally incurable walker and chronicler Ten books and a quarter century later he still spends
several hours every day rambling through Paris and writing about the city he loves An irreverent witty romp featuring thirty
one short prose sketches of people places and daily life Paris Paris Journey into the City of Light ranges from the glamorous

Allen,2021-05-19 In Paris Grant Allen captures the vibrant essence of the French capital at the turn of the 20th century
blending travelogue and sociocultural commentary with a distinctive narrative style The text weaves personal reflections with
keen observations offering readers an immersive experience of both the familiar sights and the more obscure corners of Paris

Allen employs a lyrical prose that evokes the city's artistic spirit while engaging with the pressing issues of his time such as modernity and urban life which resonate throughout the pages. This interplay of observation and philosophical musings situates Paris within the broader context of literary explorations of urban landscapes during the era, drawing readers into a world of impressionistic detail and insightful critique. Grant Allen was a prolific Canadian author and scientist whose diverse interests informed his writing. His deep appreciation for science, nature, and human experience profoundly shaped his narratives, enabling him to convey the complexity of city life within a dynamic framework. Allen's travels and intellectual pursuits endowed him with a nuanced perspective on Paris, illuminating both its grandeur and its nuances as a cultural crucible. Paris is a must-read for those who seek to explore the layers of human experience within an urban setting. It not only delves into the aesthetics of the city but also offers a deep analysis of the socio-cultural currents that shaped it. Readers will find themselves enchanted by Allen's vivid descriptions and thoughtful reflections, making this work an invaluable addition to the canon of travel literature.

The Anthropological Turn Jacob Collins, 2020-04-24. A close look at post-1968 French thinkers Régis Debray, Emmanuel Todd, Marcel Gauchet, and Alain de Benoist. In *The Anthropological Turn*, Jacob Collins traces the development of what he calls a tradition of political anthropology in France over the course of the 1970s. After the social revolution of the 1960s brought new attention to identities and groups that had previously been marginal in French society, the country entered a period of stagnation: the economy slowed, the political system deadlocked, and the ideologies of communism and Catholicism lost their appeal. In this time of political, cultural, and economic indeterminacy, political anthropology, as Collins defines it, offered social theorists grand narratives that could give greater definition to the social by anchoring its laws and histories in the deep and sometimes archaic past. Political anthropologists sought to answer the most basic of questions: what is politics, and what constitutes a political community? Collins focuses on four influential yet typically overlooked French thinkers: Régis Debray, Emmanuel Todd, Marcel Gauchet, and Alain de Benoist, who from Left to far Right represent different political leanings in France. Through a close and comprehensive reading of their work, he explores how key issues of religion, identity, citizenship, and the state have been conceptualized and debated across a wide spectrum of opinion in contemporary France. Collins argues that the stakes have not changed since the 1970s, and rival conceptions of the republic continue to vie for dominance. Political and cultural issues of the moment, the burkini, for example, become magnified and take on the character of an anthropological threat. In this respect, he shows how the anthropological turn, as it figures in the work of Debray, Todd, Gauchet, and Benoist, is a useful lens for viewing the political and social controversies that have shaped French history for the last forty years.

Montaigne Dikka Berven, 1995. Word Study in Montaigne's *Essais*. Modern readers in need of a precise understanding both of the changes in the French language over the last 400 years since the *Essais* was written and of the idiosyncracies of Montaigne's usage will appreciate these articles exploring the nuances and fluctuations in the meaning of many of Montaigne's words. These critical studies of Montaigne's vocabulary and its shifting

contexts will aid in understanding how Montaigne's choice of words reflects his ability to take elements from his background of wide ranging life long classical reading and blend them with his own original unflagging curiosity and speculation about matters relating to contemporary life

In the Name of Humanity Alain Finkielkraut, 2000 An unsettling reflection on the twentieth century in its twilight hours in which we are asked to rethink our assumptions about universalism and humanism While many people look to humanist ideals as a deterrent to nationalist chauvinism Finkielkraut challenges the abstract idea of universalism by describing the terrible crimes civilized Europe has committed in its name

Paris sketch book William Makepeace Thackeray, 1904 *"Painting, Politics and the Struggle for the ?ole de Paris, 1944?964 "* Natalie Adamson, 2017-07-05 Painting Politics and the Struggle for the ole de Paris 1944 1964 is the first book dedicated to the postwar or nouvelle ole de Paris It challenges the customary relegation of the ole de Paris to the footnotes not by arguing for some hitherto hidden merit for the art and ideas associated with this school but by establishing how and why the ole de Paris was a highly significant vehicle for artistic and political debate The book presents a sustained historical study of how this school was constituted by the paintings of a diverse group of artists by the combative field of art criticism and by the curatorial policies of galleries and state exhibitions By thoroughly mining the extensive resources of the newspaper and art journal press gallery and government archives artists writings and interviews with surviving artists and art critics the book traces the artists exhibitions and art critical debates that made the ole de Paris a zone of aesthetic and political conflict Through setting the ole de Paris into its artistic social and political context Natalie Adamson demonstrates how it functioned as the defining force in French postwar art in its defence of the tradition of easel painting as well as an international point of reference for the expansion of modernism In doing so she presents a wholly new perspective on the vexed relationships between painting politics and national identity in France during the two decades following World War II
