Althusser Gregory Elliott,2020-05-05 In the international renaissance of Marxist theory during the 1960s and early 1970s few projects generated as much excitement or controversy as Louis Althusser s return to Marx One of the most ambitious enterprises in the post war history of Marxism Althusser s reconstruction of Marx s doctrine was heralded as a new start in some quarters dismissed as a refurbished Stalinism in others Today more than twenty years after the appearance of his major works and amidst the profound contemporary crisis of Marxism Althusser is the victim rather than the beneficiary of philosophical fashion Paradoxically the oblivion into which he has now fallen affords the opportunity for a return to Althusser a reassessment that advances beyond the unconsidered responses that Marxist commentators have often given to his work In this first full scale study in English of Althusser s career Gregory Elliott draws on a wide range of untranslated material surveying the political and intellectual context of Althusser s

initiative in *For Marx and Reading Capital* He analyses the nature of the Marxism developed in these works and charts their author's subsequent evolution concluding with a balance sheet of the French Marxist's contribution to historical materialism At once sympathetic and critical Althusser *The Detour of Theory* will establish itself as the standard introduction to its subject *The J.
