Stuart,2006-06-01 Post Marxists argue that nationalism is the black hole into which Marxism has collapsed at today s end of history Robert Stuart analyzes the origins of this implosion revealing a shattering collision between Marxist socialism and national identity in France at the close of the nineteenth century During the time of the Boulanger crisis and the Dreyfus affair nationalist mobs roamed the streets chanting France for the French while socialist militants marshaled proletarians for world revolution This is the first study to focus on those militants as they struggled to reconcile Marxism s two national agendas the cosmopolitan conviction that workingmen have no country on the one hand and the patriotic assumption that the working class alone represents national authenticity on the other Anti Semitism posed a particular problem for such socialists not least because so many workers had succumbed to racist temptation In analyzing the resultant encounter between France s anti Semites and the Marxist Left Stuart addresses the vexed issue of Marxism s involvement with political anti Semitism

Becoming Americans in Paris Brooke L. Blower,2011-01-17 Americans often look back on Paris between the world wars as a charming escape from the enduring inequalities and reactionary politics of the United States In this bold and original study Brooke Blower shows that nothing could be further from the truth She reveals the breadth of American activities in the capital the lessons visitors drew from their stay and the passionate responses they elicited from others For many sojourners not just for the most famous expatriate artists and writers Paris served as an important crossroads a place where Americans reimagined their position in the world and grappled with what it meant to be American in the new century even as they came up against conflicting interpretations of American power by others Interwar Paris may have been a capital of the arts notorious for its pleasures but it was also smoldering with radical and reactionary plots suffused with noise filth and chaos teeming with immigrants and refugees communist rioters fascism admirers overzealous police and obnoxious tourists Sketching Americans place in this evocative landscape Blower shows how arrivals were drawn into the capital s battles both wittingly and unwittingly Americans in Paris found themselves on the front lines of an emerging culture of political engagements a transatlantic matrix of causes and connections which encompassed debates about Americanization and anti American protests during the Sacco Vanzetti affair as well as a host of other international incidents Blower carefully depicts how these controversies and a backdrop of polarized European politics honed Americans political stances and sense of national distinctiveness A model of urban transnational history *Becoming Americans in Paris* offers a nuanced portrait of how Americans helped to shape the cultural politics of interwar Paris and at the same time how Paris helped to shape modern American political culture

Liberalism and Social Reform David Gordon,1996-01-19 This book examines the heroic spirit of French industrial capitalism prior to World War I and the role certain industrialists played in ensuring the success and stability of the country s economic and political order It focuses in particular on the success of innovative manufacturers in France s chief industrial centers the Nord Loire and Lorraine where failing industrialists were saved through the introduction of new manufacturing techniques It was only when Socialists abandoned revolutionary aims that they were able

to successfully compete against their Iprogressiste R rivals Democratic politics forced the evolution of political life away from confrontation between capitalist and anti capitalist parties *Going Shopping* Ann Satterthwaite,2001-01-01 From Mesopotamian merchants and the fairs of mediaeval Europe to marble palace department stores and the Internet social cultural economic and moral forces have shaped our shopping This volume traces the history of shopping and considers its meaning and significance *Bourgeois Politics in France, 1945-1951* Richard Vinen,2002-07-11 This 1995 book is a general study of politics and society in the Fourth Republic and is founded on extensive primary research It approaches the period in terms of successful conservatism rather than thwarted reform maintaining that conservatism in France was a more subtle dynamic force than has previously been appreciated Not the preserve of any one single party conservative ideas were often defended by institutions outside the realm of explicit politics altogether such as business associations civil service departments and the law courts It is proposed that conservatives did not simply return to French politics in 1945 untouched by the events of the previous five years The experiences of Vichy the occupation and the purges produced new kinds of political synthesis making conservatives more dynamic and receptive to change than their progressive opponents **The Petite Bourgeoisie in Europe 1780-1914** Geoffrey Crossick,Heinz-Gerhard Haupt,2021-02-25 First published in 1995 Geoffrey Crossick and Heinz Gerhard Haupt provide a major overview of the social economic cultural and political development of the petite bourgeoisie in eighteenth nineteenth and early twentieth century Europe Through comparative analysis the authors examine issues such as the centrality of small enterprise to industrial change the importance of family and locality to the petit bourgeois world the search for stability and status and the associated political move to the right This title will be of interest to students of history Barricades and Borders Robert Gildea,2003-03-06 This is a comprehensive survey of European history from the coup d etat of Napoleon Bonaparte in France to the assassination of the Archduke Ferdinand at Sarajevo which led to the First World War It concentrates on the twin themes of revolution and nationalism which often combined in the early part of the century but which increasingly became rival creeds Going beyond traditional political and diplomatic history the book incorporates the results of recent research on population movements the expansion of markets the accumulation of capital social mobility education changing patterns of leisure religious practices and intellectual and artistic developments The work falls into three chronological sections The first starting in 1800 rather than the more usual 1815 follows the build up of the revolutionary currents which were eventually going to erupt in the Year of Revolutions 1848 The second from 1850 to 1880 deals with the golden age of capitalism the successful culmination of struggles for national unification and the threat of anarchism The concluding chapters look at the social and political stresses caused by socialism and national minorities at new attempts by government to order society imperial rivalry and the descent into a war which was to mark the end of nineteenth century Europe For this third edition Dr Gildea has substantially revised the text and maps and completely updated the bibliography Newly added introductory sections guide the reader through the

wealth of material in each chapter The new edition also includes for the first time a full Chronology of the period a list of leading state ministers and family trees for all the major dynasties Big Business and Industrial Conflict in Nineteenth-Century France Lenard R. Berlanstein,2023-11-15 Founded in 1855 the Parisian Gas Company PGC quickly developed into one of France s greatest industrial enterprises an exemplar of the new industrial capitalism that was beginning to transform the French economy The PGC supplied at least half the coal gas consumed in France through the 1870s and became the city s single largest employer of clerical and factory labor Representing a new form and scale of capitalistic endeavor the firm s history illuminates the social tensions that accompanied the nation s industrialization and democratization To study the company over its fifty year life is to see industrializing France writ small Using previously untapped company archives Lenard R Berlanstein has written a rich and detailed study that skillfully bridges the divide between business social and labor history Founded in 1855 the Parisian Gas Company PGC quickly developed into one of France s greatest industrial enterprises an exemplar of the new industrial capitalism that was beginning to transform the French economy The PGC supplied at least half the coa Consumer Chronicles David H. Walker,2011 Since its 19th century beginnings the consumer revolution extending market forces into every area of social and private life has been perceived as a challenge to core elements in French culture such as traditional artisan crafts and small businesses serving local communities Cultural historians and sociologists have charted the increasing commercialisation of everyday life over the 20th century but few have paid systematic attention to the crucial testimony provided by the authors of narrative fiction This book rectifies this omission by means of close readings of a series of novels selected for their authentic portrayal of consumer behaviour and analysed in relation to their social cultural and historical contexts The Rise of the Paris Red Belt Tyler Stovall,2024-06-21 From 1920 until the present the working class suburbs of Paris known as the Red Belt have constituted the heart of French Communism providing the Party not only with its most solid electoral base but with much of its cultural identity as well Focusing on the northeastern suburb of Bobigny Tyler Stovall explores the nature of working class life and politicization as he skillfully documents how this unique region and political culture came into being The Rise of the Paris Red Belt reveals that the very process of urban development in metropolitan Paris and the suburbs provided the most important opportunities for the local establishment of Communist influence The rapid increase in Paris suburban population during the early twentieth century outstripped the development of the local urban infrastructure Consequently many of these suburbs often represented to their new residents as charming country villages soon degenerated into suburban slums Stovall argues that Communists forged a powerful political block by mobilizing the disillusionment and by improving some of the worst aspects of suburban life As a social history of twentieth century France The Rise of the Paris Red Belt calls into question traditional assumptions about the history of both French Communism and the French working class It suggests that those interested in working class politics should consider the significance of residential and consumer issues as well as those

relating to the workplace It also suggests that urban history and urban development should not be considered autonomous phenomena but rather expressions of class relations The Rise of the Paris Red Belt brings to life a world whose citizens though often overlooked are nonetheless the history of modern France This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990 **Paris Under Water** Jeffrey H. Scott Haine, 1998-09-04 In The World of the Paris Caf W Scott Haine investigates what the working class caf reveals about the formation of urban life in nineteenth century France Caf society was not the product of a small elite of intellectuals and artists he argues but was instead the creation of a diverse and changing working population Making unprecedented use of primary sources from marriage contracts to police and bankruptcy records Haine investigates the caf in relation to work family life leisure gender roles and political activity This rich and provocative study offers a bold reinterpretation of the social history of the working men and women of Paris
