**Paris Street Art** Romuald Stivine, Vito Del Forte, 2008 Next to Germany and London Paris has always been a major destination for street artists and aficionados Multicultural and sophisticated it is a city made for art of all kinds Nowhere is the pulse of creativity more apparent than in its street art Charged with color humor and social commentary the 150 images captured in this book represent an open air museum whose canvases are perpetually transformed From the city center to the outer banlieues from stencil and spray paint to stickers this collection reveals the creative energy fueling the Paris underground art scene

**Born in the Streets** Fondation Cartier, 2009 Beginning in July 2009 the Fondation Cartier will be hosting an exhibition that celebrates street art The show and the accompanying catalogue first reexamine the birth and evolution of the graffiti movement in New York in the early 1970s and feature documentation from that time including press clips and photographs of tags and graffiti by artists such as Lee Seen and Lady Pink among others The book then explores the explosion of creativity worldwide that followed the New York movement especially in Paris which became the nerve center for European graffiti in the 1980s It juxtaposes the different aesthetics of cities like New York Paris London Berlin and Sao Paulo highlighting styles specific to each city and the diverse practices of contemporary artists who began in the graffiti movement There are interviews with artists who influenced the development of street art and with others such as gallery owners who were involved in its evolution

Tsilimpounidi, 2016-12-08 Graffiti and street art images are ubiquitous and they enjoy a very special place in collective imaginary due to their ambiguous nature Sometimes enigmatic in meaning often stylistically crude and aesthetically aggressive yet always visually arresting they fill our field of vision with texts and images that no one can escape As they take place on surfaces and travel through various channels they provide viewers an entry point to the subtext of the cities we live in while questioning how we read write and represent them This book is structured around these three distinct albeit by definition interwoven key frames The contributors of this volume critically investigate underexplored urban contexts in which graffiti and street art appear shed light on previously unexamined aspects of these practices and introduce innovative methodologies regarding the treatment of these images Throughout the focus is on the relationship of graffiti and street art with urban space and the various manifestations of these idiosyncratic meetings In this book the emphasis is shifted from what the physical texts say to what these practices and their produced images do in different contexts All chapters are original and come from experts in various fields such as Architecture Urban Studies Sociology Criminology Anthropology and Visual Cultures as well as scholars that transcend traditional disciplinary frameworks This exciting new collection is essential reading for advanced undergraduates as well as postgraduates and academics interested in the subject matter It is also accessible to a non academic audience such as art practitioners and policymakers alike or anyone keen on deepening their knowledge on how graffiti and street art affect the ways urban environments are experienced understood and envisioned
