Paris Journal:

The Paris Journal Evan Robertson, Nichole Robertson, 2014-04-29 Escape to the streets of Paris for a day long romp Through a series of humorous journal entries and photos an American traveler chronicles a day on the islands in the center of Paris the le Saint Louis and Ile de la Cit She narrowly escapes dropping 50 Euro at the flower market for a potted plant she can t take on a plane debates public make out sessions with the King of France pulls a Jean Valjean and swipes a basket of bread and witnesses a love at first sight moment between two dogs The Paris Journal brings the city its people and apparently its former Kings to life *Paris Journal: 1965-1971* Janet Flanner, 1971 **Jean-Philippe Delhomme**

Jean-Philippe Delhomme, 2016-11-01 Jean Philippe Delhomme famed Paris based illustrator painter and cultural writer knows his way around a paintbrush and has been jazzing up the likes of GQ Wallpaper and W magazine with characterful depictions of faces charming figures and lively street scenes for some time now In 2015 he was asked by German newspaper Die Zeit to contribute a weekly column on Paris for their Sunday magazine The project has now become Delhomme s newest book *A Paris Journal* This slender publication features over 60 color plates chronicling Delhomme s sensitive and humorous drawings of everyday life in Paris From the celebrated swans in the Seine to the absurdities of the fashion obsessed the lighthearted illustrations offer salve to the two terrorist attacks that defined Paris in 2015 Delhomme has published several volumes of illustrated work written a children s book *Visit to Another Planet* plus two illustrated novels and produces animated television commercials August Editions past publication was Delhomme s *The Happy Hipster* 2013 **Diary of a Foreigner in Paris**

Curzio Malaparte, 2020-05-19 Experience postwar Europe through the diary of a fascinating and witty twentieth century writer and artist Recording his travels in France and Switzerland Curzio Malaparte encounters famous figures such as Cocteau and Camus and captures the fraught restless spirit of Paris after the trauma of war In 1947 Curzio Malaparte returned to Paris for the first time in fourteen years In between he had been condemned by Mussolini to five years in exile and on release repeatedly imprisoned In his intervals of freedom he had been dispatched as a journalist to the Eastern Front and though many of his reports from the bloodlands of Poland and Ukraine were censored his experiences there became the basis for his unclassifiable postwar masterpiece and international bestseller *Kaputt* Now returning to the one country that had always treated him well the one country he had always loved he was something of a star albeit one that shines with a dusky and disturbing light The journal he kept while in Paris records a range of meetings with remarkable people Jean Cocteau and a dourly unwelcoming Albert Camus among them and is full of Malaparte s characteristically barbed reflections on the temper of the time It is a perfect model of ambiguous reserve as well as humorous self exposure There is for example Malaparte s curious custom of sitting out at night and barking along with the neighborhood dogs dogs after all were his only friends when in exile The French find it puzzling to say the least when it comes to Switzerland it is grounds for prosecution

Revolutionary Ideas Jonathan Israel,2015-09-22 Historians of the French Revolution used to take for granted what was also obvious to its contemporary observers that the Revolution was caused by the radical ideas of the Enlightenment Yet in recent decades scholars have argued that the Revolution was brought about by social forces politics economics or culture almost anything but abstract notions like liberty or equality In Revolutionary Ideas one of the world s leading historians of the Enlightenment restores the Revolution s intellectual history to its rightful central role Drawing widely on primary sources Jonathan Israel shows how the Revolution was set in motion by radical eighteenth century doctrines how these ideas divided revolutionary leaders into vehemently opposed ideological blocs and how these clashes drove the turning points of the Revolution Revolutionary Ideas demonstrates that the Revolution was really three different revolutions vying for supremacy a conflict between constitutional monarchists such as Lafayette who advocated moderate Enlightenment ideas democratic republicans allied to Tom Paine who fought for Radical Enlightenment ideas and authoritarian populists such as Robespierre who violently rejected key Enlightenment ideas and should ultimately be seen as Counter Enlightenment figures The book tells how the fierce rivalry between these groups shaped the course of the Revolution from the Declaration of Rights through liberal monarchism and democratic republicanism to the Terror and the Post Thermidor reaction In this compelling account the French Revolution stands once again as a culmination of the emancipatory and democratic ideals of the Enlightenment That it ended in the Terror represented a betrayal of those ideas not their fulfillment book jacket

Dissonance in the Republic of Letters Mark Darlow, 2017-12-02 Eighteenth century French cultural life was often characterised by quarrels and the arrival of Viennese composer Christoph Willibald Gluck in Paris in 1774 was no exception sparking a five year pamphlet and press controversy which featured a rival Neapolitan composer Niccolo Piccinni However as this study shows the Gluck Piccinni controversy was about far more than which composer was better suited to lead French operatic reform A consideration of cultural politics in 1770s Paris shows that a range of issues were at stake court versus urban taste as the proper judge of music whether amateurs or specialists should have the right to speak of opera whether the epic or the tragic mode is more suited for drama reform and even why should the public argue about opera at all Mark Darlow is Senior Lecturer in French at the University of Cambridge

Cholera in Post-Revolutionary Paris Catherine J. Kudlick, 2023-12-22 Cholera terrified and fascinated nineteenth century Europeans more than any other modern disease Its symptoms were gruesome its sources were mysterious and it tended to strike poor neighborhoods hardest In this insightful cultural history Catherine Kudlick explores the dynamics of class relations through an investigation of the responses to two cholera epidemics in Paris While Paris climbed toward the height of its urban and industrial growth two outbreaks of the disease ravaged the capital one in 1832 the other in 1849 Despite the similarity of the epidemics the first outbreak was met with general frenzy and far greater attention in the press popular literature and personal accounts while the second was greeted with relative silence Finding no compelling evidence for improved medical knowledge changes in the Paris environment or desensitization of Parisians Kudlick looks to the evolution of the French revolutionary tradition and the emergence of the Parisian bourgeoisie for answers Cholera terrified and fascinated nineteenth century Europeans more than any other modern disease Its symptoms were gruesome its sources were mysterious and it tended to strike poor neighborhoods hardest In this insightful cultural history Catherine K
