Parks And Woodlands Of London:

The Parks and Woodlands of London Andrew Crowe, 1987-01-01 *London's Royal Parks* Paul Rabbitts, 2014-02-10

London's royal parks are amongst its most beautiful and beloved spaces just as much as the Houses of Parliament Buckingham Palace and Victoria Station the mere mention of Hyde or Regent's Park is enough to evoke the capital in all its glory for residents and tourists alike They have a grand history some having been royally owned as far back as the Norman conquest and others having been acquired by Henry VIII during the Reformation and since being opened to the public during the eighteenth century have hosted some of London's great events including the Great Exhibition and innumerable jubilees and celebrations This book tells the story of all nine of the parks from the point when they were acquired by the monarchy until the present day including the major historic moments and events with which they are associated *Parks*, 1976

London's Urban Landscape Christopher Tilley, 2019-05-07 London's Urban Landscape is the first major study of a global city to adopt a materialist perspective and stress the significance of place and the built environment to the urban landscape Edited by Christopher Tilley the volume is inspired by phenomenological thinking and presents fine grained ethnographies of the practices of everyday life in London In doing so it charts a unique perspective on the city that integrates ethnographies of daily life with an analysis of material culture The first part of the volume considers the residential sphere of urban life discussing in detailed case studies ordinary residential streets housing estates suburbia and London's mobile linear village of houseboats The second part analyses the public sphere including ethnographies of markets a park the social rhythms of a taxi rank and graffiti and street art London's Urban Landscape returns us to the everyday lives of people and the manner in which they understand their lives The deeply sensuous character of the embodied experience of the city is invoked in the thick descriptions of entangled relationships between people and places and the paths of movement between them What stories do door bells and house facades tell us about contemporary life in a Victorian terrace How do antiques acquire value and significance in a market How does living in a concrete megastructure relate to the lives of the people who dwell there These and a host of other questions are addressed in this fascinating book that will appeal widely to all readers interested in London or contemporary urban life **The Birds of London** Andrew Self, 2014-02-27 The first comprehensive avifauna for the London area ever published covering the status distribution and history of every species on the regional list in rich detail The parks reservoirs rooftops and gardens of London here defined as the area within 20 miles of St Paul's Cathedral have a surprisingly rich avifauna including a healthy population of one of Britain's rarest breeders the Black Redstart The region also has a remarkable list of rarities in recent years Canary Wharf has proven to be a magnet for vagrants while one of the very few British records of Tengmalm's Owl hails from Plaistow an unfortunate bird stoned to death by local urchins in 1877 Some species like the Peregrine Falcon Black headed Gull and Ring necked Parakeet have seen their fortunes soar over recent decades others such as House Sparrow have suffered a population collapse While as recently as a century ago the

London area had breeding populations of birds such as Wryneck and Red backed Shrike which are now nationally extinct The County Avifauna series provides detailed information on the range and status of bird species at county level *Top 10 Guide to London Sights* Swetha Ramachandran, Welcome to London London one of the great cities of the world combines the best of the old and the best of the new Castles are still in use they still change the Guard at Buckingham Palace and you can still find people feeding pigeons in the afternoons at Trafalgar Square Yet you can always find a new dynamic London just around the corner Today London is the center for active entrepreneurial Europe The bars are flooded with people the restaurant culture is growing and the Theatres are some of the best in Europe THE TOP TEN GUIDE TO LONDON is designed so you can experience the very best of the city the best museums sights activities and experiences Turn the pages and let THE TOP TEN GUIDE TO LONDON guide you through the very best of traditional and contemporary London Swetha Ramachandran makes sure you experience the crown jewels of London Whether you are visiting for a few days or a few weeks are on a business trip or a family vacation THE TOP TEN GUIDE TO LONDON allows you to focus on having fun and enjoying yourself so that you experience in London is a rich and memorable one TOP TEN TRAVEL GUIDES are designed to meet the needs of today s sophisticated travelers They highlight the best the world has to offer in user friendly lists They are available for other cities of the world Best wishes for an exciting visit to London *Green London* David Fathers,2025-03-13 From parks and rivers to heaths and woodlands explore London s most wonderful natural spaces and uncover the green corridors that link them with this beautifully illustrated and entertaining walking guide For many Londoners now is a time like no other for walking exploring and finding refuge in the capital s green spaces What is not so well known is that these amazing places can be interconnected to form green walkways by using old railway tracks towpaths and riverside walks In *Green London* David Fathers shows walkers not only how to plan walks through green spaces and corridors but what is to be seen along the way Featuring beautifully illustrated pages and intricate maps each of the 14 walks featured describes Well known landmarks buildings and aspects Famous people connected with the area Historical events that have occurred nearby Types of trees and wildlife to be found on the route Sections of the Capital Ring Underground and railway links The distance covered on each page Join David Fathers once again as he journeys through London s glorious green spaces in *Green London* a book that is sure to be loved and appreciated by locals and tourists alike *Great Gardens of London* Victoria Summerley,Hugo Rittson Thomas,Marianne Majerus,2015-10-01 London s gardeners are twice blessed not only do they live in one of the world s most vibrant capitals it is also one of the most verdant Gardens of every imaginable style shape and size abound on rooftops within palaces surrounding churches behind walls on every piece of dry land even if it is floating on or lapped by the river Thames In *Great Gardens of London* Victoria Summerley and Hugo Rittson Thomas collaborate to unearth the most fascinating stories of plants and people inside London s most exciting gardens Some of the gardens are strictly private while others are regularly open to visitors but all can now be savoured and enjoyed along with those who know them best *Great Gardens of*

London is a captivating photographic portrait of the greatest gardens of the capital which are primarily closed to the public or rarely open their gates. It will feature gardens designed by some of the leading contemporary garden designers from across the world. Accompanying the photographs will be essays on the design and planting that explain the designers' inspiration and passion.

Woodland Development George Peterken, Edward Mountford, 2017-08-23 In 1944 Lady Park Wood, 45 hectares of woodland in Gloucestershire and Monmouthshire, UK, was set aside indefinitely by the Forestry Commission so that ecologists could study how woodland develops naturally. Since then, in a unique long-term study, individual trees and shrubs have been recorded at intervals, accumulating a detailed record of more than 20,000 individual beech, sessile oak, ash, wych elm, small-leaved lime, large-leaved lime, birch, hazel, yew and other species. In the seven decades since the study started, the wood has changed: trees grew, died and regenerated, and drought, disease and other events shaped its destiny. Each tree and shrub species reacted in its own way to changes in the wood as a whole and to changes in the fortunes of its neighbours. Meanwhile, the wild fauna, flora and fungi also responded, leaving the wood richer in some groups but poorer in others. In this landmark book, beautifully illustrated throughout, George Peterken and Edward Mountford summarise the ongoing results of the Lady Park Wood study, highlighting its unique place in nature conservation and its significance to ecology in general. It also builds on experience at Lady Park Wood and elsewhere to discuss, in particular, the role and maintenance of long-term ecological studies, the concept and form of natural woodland, the role of minimum intervention policies in woodland nature conservation, near-nature forestry and the desirability and practicalities of rewilding woodlands.

Woodland Conservation and Management G.F. Peterken, 1993-09-30 New edition of book which is a course text in woodland conservation and management. The text has been updated throughout and has a major new chapter dealing with developments in conservation and management policies over the last ten years in a European context, including developments in vegetation classification systems and outcomes of management policies.

From the Deer to the Fox Mandy de Belin, 2013-09-01 Between the 17th and 19th centuries, the sport of hunting was transformed: the principal prey changed from deer to fox and the methods of pursuit were revolutionized. Questioning the traditional explanation of the hunting transition, namely that change in the landscape led to a decline of the deer population, this book explores the terrain of Northamptonshire during that time period and seeks alternative justifications. Arguing that the many changes that hunting underwent in England were directly related to the transformation of the hunting horse, this in-depth account demonstrates how the near-thoroughbred horse became the mount of choice for

those who hunted in the shires This book shows how quite literally the thrill of the chase drove the hunting transition

The Politics of Street Trees Jan Woudstra, Camilla Allen, 2022-03-18 This book focuses on the politics of street trees and the institutions actors and processes that govern their planning planting and maintenance This is an innovative approach which is particularly important in the context of mounting environmental and societal challenges and reveals a huge amount about the nature of modern life social change and political conflict The work first provides different historical perspectives on street trees and politics celebrating diversity in different cultures A second section discusses street tree values policy and management addressing more contemporary issues of their significance and contribution to our environment both physically and philosophically It explores cultural idiosyncrasies and those from the point of view of political economy particularly challenging the neo liberal perspectives that continue to dominate political narratives The final section provides case studies of community engagement civil action and governance International case studies bring together contrasting approaches in areas with diverging political directions or intentions the constraints of laws and the importance of people power By pursuing an interdisciplinary approach this book produces an information base for academics practitioners politicians and activists alike thus contributing to a fairer political debate that helps to promote more democratic environments that are sustainable equitable comfortable and healthier

Journal of the Society of Chemical Industry Society of Chemical Industry (Great Britain), 1914 British Plant Communities: Volume 1, Woodlands and Scrub John S. Rodwell, 1998-04-30 British Plant Communities is the first systematic and comprehensive account of the vegetation types of this country It covers all natural semi natural and major artificial habitats in Great Britain but not Northern Ireland representing the fruits of fifteen years of research by leading plant ecologists The book breaks new ground in wedding the rigorous interest in the classification of plant communities that has characterized Continental phytosociology with the deep concern traditional in Great Britain to understand how vegetation works The published volumes have been greeted with universal acclaim and the series has become firmly established as a framework for a wide variety of teaching research and

management activities in ecology conservation and land use planning **Trees, Forested Landscapes and Grazing Animals** Ian D. Rotherham, 2013 In this comprehensive book the critical components of the European landscape forest parkland and other grazed landscapes with trees are addressed The book considers the history of grazed treed landscapes of large grazing herbivores in Europe and the implications of the past in shaping our environment today and in the future Debates on the types of anciently grazed landscapes in Europe and what they tell us about past and present ecology have been especially topical and controversial recently This treatment brings the current discussions and the latest research to a much wider audience The book breaks new ground in broadening the scope of wood pasture and woodland research to address sites and ecologies that have previously been overlooked but which hold potential keys to understanding landscape dynamics Eminent contributors including Oliver Rackham and Frans Vera present a text which addresses the importance of history in understanding the past landscape and the relevance of historical ecology and landscape studies in providing a future vision **The Solicitors' Journal and Weekly Reporter** , 1907
