Park's Quest Katherine Paterson, 1989-07 11 year old Park makes some startling discoveries when he travels to his grandfather's farm in Virginia to learn about his father who died in the Vietnam War **Archer's Quest** Linda Sue Park, 2008 Twelve year old Kevin Kim helps Chu mong a legendary king of ancient Korea return to his own time **Park's Quest** Katherine Paterson, 1989-09 Eleven year old Park makes some startling discoveries when he travels to his grandfather's farm in Virginia to learn about his father who died in the Vietnam War **Teach Us to Sit Still** Tim Parks, 2012-07-03 Teach Us to Sit Still is the visceral thought provoking and inexplicably entertaining story of how Tim Parks found himself in serious pain how doctors failed to help and the quest he took to find his own way out Overwhelmed by a crippling condition which nobody could explain or relieve Parks follows a fruitless journey through the conventional medical system only to find relief in the most unexpected place a breathing exercise that eventually leads him to take up meditation This was the very last place Parks anticipated finding answers he was about as far from New Age as you can get As everything that he once held true is called into question Parks confronts the relationship between his mind and body the hectic modern world that seems to demand all our focus and his chosen life as an intellectual and writer He is drawn to consider the effects of illness on the work of other writers the role of religion in shaping our sense of self and the influence of sports and art on our attitudes toward health and well being Most of us will fall ill at some point few will describe that journey with the same verve insight and radiant intelligence as Tim Parks Provided by publisher Out of My Head Tim Parks, 2019-10-22 Adventures in cutting edge ideas about consciousness from bestselling non fiction writer Tim Parks Hardly a day goes by without some discussion about whether computers can be conscious whether our universe is some kind of simulation whether mind is a unique quality of human beings or spread out across the universe like butter on bread Most philosophers believe that our experience is locked inside our skulls an unreliable representation of a quite different reality outside Colour smell and sound they tell us occur only in our heads Yet when neuroscientists look inside our brains to see what's going on they find only billions of neurons exchanging electrical impulses and releasing chemical substances Five years ago in a chance conversation Tim Parks came across a radical new theory of consciousness that undercut this interpretation This set him off on a quest to discover more about this fascinating topic and also led him to observe his own experience with immense attention Out of My Head tells the gripping highly personal often surprisingly funny story of Tim Parks quest to discover more about this fascinating topic It frames complex metaphysical considerations and technical laboratory experiments in terms we can all understand Above all it invites us to see space time colour and smell sounds and sensations in an entirely new way The world will feel more real after reading it **California Travel Quests** Richard Di Giacomo, 2025-05-01 This is so much more than just an average travel book that only covers the major tourist attractions This book is designed to help you slow down and enjoy the rich diversity of California There are many interesting places to see and things to do in the vast state that are not

listed in conventional travel guides There are many off the beaten path and unconventional places that are still well worth visiting To make it fun I have arranged the attractions by themes I call them travel quests Think of them as bucket lists for travelers Instead of trying to see all of California in one big gulp the state s many fascinating sites have been broken up into a series of travel goals along a similar theme You may complete these quests on multiple trips at your leisure or combine items from different quests Each section of the book has a travel quest to complete based upon a particular theme like nature history entertainment or cultural sites The chapter then has goals for a representative sample of the items contained on that list Some additional silly activities such as wearing a costume getting a goofy souvenir or singing an appropriate song have been included to keep it fun for children and others The author s personal favorites for each category are also highlighted along with many great photos from his travels The book is a treasure trove of insider travel tips from a long term resident of the state who has traveled the length and breadth of the state many times It contains many fascinating historical and geographical facts that put the places and activities in context It is very educational and fun for the whole family It can also save you a lot of time and money by telling you what is worth seeing and what is not It tells you how to avoid the crowds and wasting time traveling and waiting in lines This is the full color edition The stunning photographs show what a marvelous place California is to see
