Parliament For Europe:

Parliament for Europe David Marquand, 1979 *The Ideal of Parliament in Europe since 1800* Remieg Aerts, Carla van Baalen, Henk te Velde, Margit van der Steen, Marie-Luise Recker, 2019-11-30 This edited collection explores the perceptions and memories of parliamentarianism across Europe examining the complex ideal of parliament since 1800 Parliament has become the key institution in modern democracy and the chapters present the evolution of the ideal of parliamentary representation and government and discuss the reception and value of parliament as an institution It is considered both as a guiding concept a Leitidee as well as an ideal an Idealtypus The volume is split into three sections The establishment of parliament in the nineteenth century and the transfer of parliamentary ideals models and practices are described in the first section based on the British and French models The second part explores how the high expectations of parliamentary democracy in newly established states after the First World War gradually started to subside into dissatisfaction Finally the last section attests to its resilience after the Second World War demonstrating the strength of the ideal of parliament and its power to incorporate criticism Examining the history of parliament through concepts and ideals this book traces a transnational European exchange of models routines and discourse **The European Parliament in Times of EU Crisis** Olivier Costa, 2018-11-24 This book assesses the many changes that have occurred within the European Parliament and in its external relations since the Lisbon treaty 2009 and the last European elections 2014 It is undoubtedly the institution that has evolved the most since the 1950s Despite the many crises experienced by European integration in the last years the Parliament is still undergoing important changes in its formal competences its influence on policy making its relations with other EU institutions its internal organisation and its internal political dynamics Every contribution deals with the most recent aspects of these evolutions and addresses overlooked topics providing an overview of the current state of play which challenges the mainstream intergovernmental approach of the EU This project results from research conducted at the Department of European Political and Governance Studies of the College of Europe Individual research of several policy analysts of the European Parliamentary Research Service EPRS have contributed to this endeavour *The European Parliament Election of 2019 in East-Central Europe* Vít Hloušek, Petr Kaniok, 2020-06-03 This book provides an analysis of the European Parliament elections 2019 with a focus on East Central European countries The authors offer conceptual insights into Euroscepticism and discuss traditionally familiar concepts in a new light pairing East Central European Euroscepticism with visions of illiberal democracy on the one hand and showing the increasing Europeanisation of Eurosceptic parties in the region on the other The book combines a fresh and innovative conceptual treatment with rich and accurate empirical evidence in order to highlight the dynamics of Euroscepticism in new EU member states Students and experts interested in EU politics within academia and beyond will find this volume particularly informative **Opposing Europe in the European Parliament** Nathalie Brack, 2017-10-20 The book provides an in depth analysis of Eurosceptics strategies in the

European Parliament It explores the paradoxical situation of Eurosceptic MEPs particularly successful during EP elections how then once elected do they operate in a political system they oppose This book analyses how Eurosceptic MEPs conceive and carry out their mandate within the institution On the basis of more than 100 interviews it proposes a typology of four strategies developed by these actors It also explains the diversity of Eurosceptics strategies showing the relevance of the interaction between the institutional context and the individuals preferences With the growing success of Eurosceptic parties and the challenges they pose to the future of integration this study also reflects on the consequences of their presence for the EP and for the legitimacy of the EU This book will be of interest to students and scholars of European politics European integration comparative politics legislative studies and political parties

The Making of the European Union Sten Berglund, 2006-01-01 The Making of the European Union argues that the process of European integration has drifted into serious crisis perhaps the most serious since the Danes voted against the Treaty of the European Union in 1992 Analysing the conditions for European integration this book applies a citizens or bottom up perspective on the integration process The difficulties that the constitutional process has encountered illustrate the relevance of bringing public opinion into the analysis of the prospects for European integration The book describes and analyses the historical mental intellectual and attitudinal denominators of European integration denominators that have shaped the processes so far and will continue to do so in the future The authors apply a broad comparative perspective where European nation states constitute the primary units of analysis The focus is on the foundations of European integration public views about the EU including various shades of Euroscepticism and the long term prospects of the EU This book will appeal to a wide audience including scholars and researchers in the social sciences particularly political science comparative politics and European studies The book will also be of great interest to journalists and all those involved in the EU including policy makers and civil servants throughout the EU itself

The European Parliament in the Contested Union Edoardo.

Bressanelli, Nicola. Chelotti, 2024-06 The European Parliament in the Contested Union provides a systematic assessment of the real influence of the European Parliament EP in policy making Ten years after the coming into force of the Treaty of Lisbon which significantly empowered Europe s only directly elected institution the contributions collected in this volume analyse whether and under what conditions the EP has been able to use its new powers and shape decisions Going beyond formal or normative descriptions of the EP s powers this book provides an up to date and timely empirical assessment of the role of the EP in the European Union focusing on key cases such as the reforms of the EU s economic governance and asylum policy the Brexit negotiations and the budget The book challenges and qualifies the conventional view that the EP has

become more influential after Lisbon It shows that the influence of the EP is conditional on the salience of the negotiated policy for the Member States When EU legislation touches upon core state powers as well as when national financial resources are at stake the role of the EP notwithstanding its formal powers is more constrained and its influence more limited This book provides fresh light on the impact of the EP and its role in a more contested and politicised European Union Bringing together an international team of top scholars in the field and analysing a wealth of new evidence The European Parliament in the Contested Union challenges conventional explanations on the role of the EP tracking down empirically its impact on key policies and processes It will be of great interest to scholars of the European Union European politics and policy making The chapters were originally published as a special issue of the Journal of European Integration

Democracy in Europe Vivien A. Schmidt, 2006-10-19 This eagerly awaited volume from a leading scholar on Europeanization explores the impact of European integration on national democracies Focusing on the case studies of France Britain Italy and Germany this is an exciting contribution to work on the implications of European integration for democratic government

Lobbying in the European Parliament Maja Kluger Dionigi, 2016-12-15 This book explains when and how interest groups are influential in the European Parliament which has become one of the most important lobbying venues in the EU Yet we know little about the many ways in which interest groups and lobbyists influence parliamentary politics The author offers insights on four key cases of lobbying based on the analysis of EU documents lobbying letters and 150 interviews She argues that lobbying success depends on a number of factors most notably the degree of counter lobbying issue salience and committee receptiveness These factors are brought together in the framework of Triple I interests issues and institutions to determine the success or failure of lobbying This book will be of use to students and scholars interested in EU politics and governance EU decision making and interest group politics along with policy makers and practitioners

Uniting of Europe Ernst B. Haas, Ernst Haas, Dr, 2020-11-15 The University of Notre Dame Press is pleased to bring Ernst Haas's classic work on European integration The Uniting of Europe back into print First published in 1958 and last printed in 1968 this seminal volume is the starting point for anyone interested in the pre history of the European Union Haas uses the European Coal and Steel Community ECSC as a case study of the community formation processes that occur across traditional national and state boundaries Haas points to the ECSC as an example of an organization with the power to redirect the loyalties and expectations of political actors In this pathbreaking book Haas contends that based on his observations of the actual integration process the idea of a united Europe took root in the years immediately following World War II His careful and rigorous analysis tracks the development of the ECSC including in his 1968 preface a discussion of the eventual loss of the individual identity of the ECSC through its absorption into the new European Community Featuring a new introduction by Haas analyzing the impact of his book over time as well as an updated bibliography The Uniting of Europe is a must have for political scientists and historians of modern and contemporary Europe This book is the inaugural

volume of Notre Dame's new Contemporary European Politics and Society Series The Future of Europe Michael Kaeding, Johannes Pollak, Paul Schmidt, 2018-06-26 With a Foreword by the President of the European Parliament Antonio Tajani This book sheds light on the political dynamics within the EU member states and contributes to the discussions about Europe Authors from all member states as well as Iceland Norway Switzerland and Turkey assess how their country could get more involved in the European debate taking the reader on a journey through various political landscapes and different views The chapters cover issues ranging from a perceived lack of ambition at the periphery to a careful balancing act between diverse standpoints at the geographical centre Yet discussions share common features such as the anxiety regarding national sovereignty the migration and border discourse security concerns as well as the obvious need to regain trust and create policies that work The book contributes vigorously to the debate about Europe in all capitals and every corner of the continent because this is where its future will be decided *The First European Elections* Jane P. Sweeney, 2019-07-11 The voice of the spirit of Europe is the European Commission's description of the Community's 434 member Parliament Four years after the European Parliament's historic first direct election by the citizens of nine countries that voice is barely audible and one must pause to wonder whether the spirit is equally weak The European Parliament is potentially one of the most interesting legislative bodies in the world because of the circumstances which created it its unique transnational composition and the power it may some day wield However the gap between the real and the possible is very large indeed The French Parliament and the European Union Olivier Rozenberg, 2019-07-23 This book explores how the European Union has changed the French Parliament since 1992 It supports the view that the institutional adaptation of both assemblies to European affairs is largely superficial as it lacks a genuine involvement from members of parliament Nevertheless the role of backbenchers has changed in the context of European integration New ways of behaving thinking and representing have emerged From specialized representatives to constituency members from presidential aspirants to Eurosceptic sovereigntists French national parliamentarians have adapted differently to the EU Far beyond the sole scrutiny of European draft legislation the book provides a comprehensive map of this changing environment It supports the view that the process has been driven by the search for day to day emotional gratifications rather than utilitarian strategies *The European Rescue of the Nation-state* Alan S. Milward, 2000 Newly revised and updated this second edition is the classic economic and political account of the origins of the European Community book offers a challenging interpretation of the history of the western European state and European integration **Building Parliament** Yves Mény, 2009 Assessing the 2019 European Parliament Elections Taylor & Francis Group, 2021-12-13 Informed by and against the backdrop of the 2019 European Parliament EP elections this innovative book provides a critical assessment of where Europe stands in terms of the quest to achieve democratic legitimacy Since the 2014 EP elections the European Union EU has experienced multiple crises which arguably have undermined its legitimacy The 2019 EP elections were hence seen as a crucial moment in the EU's attempts to

show resilience and regain trust Using political science and legal frames of analysis Assessing the 2019 European Parliament Elections provides an understanding and assessment of the current politico legal framework and its impact on European elections Furthermore using original data it provides a timely examination of public opinion issue priorities and voting behaviour at the 2019 EP elections in eight countries Given the critical conjuncture that the 2019 EP elections represent this volume provides a key contribution to understanding both the dynamics surrounding the elections as well as voters responses and informs debates on European politics for example second order elections democratic legitimacy and political representation This book will be of key interest to scholars and students of EU politics public administration European studies European law and sociology along with practitioners in politics journalism and policy analysis Europe's Parliament Stephen Clark, Julian Priestley, 2012 An insiders view of what the European Parliament is really like the environment and atmosphere of Brussels Strasbourg and Luxembourg the MEPs and the staff the internal politics the personalities and how the work is actually done Illustrated throughout with more than 350 photographs The Political System of the European Union Simon Hix, 1999 Systematically revised and rewritten throughout and updated to cover the impact of EU enlargement this text analyzes the EU as a political system using the methods of comparative political science
