## **Parnasse Francois:**

*The Sixth Sense* Robert Finch, 1966-12-15 It has long been the custom to condemn eighteenth century French poetry outright as generally unworthy of attention However in keeping with a recent change of attitude towards this vast and diverse body of literature Professor Finch here undertakes to isolate a certain group of poets belonging to the first half of the century who may appropriately be called individualistes and who are in various ways characteristic of a definite and important trend of their time The authors he has chosen were selected from the larger group of individualists because each provides in addition to his poems a complete statement of his own conception of poetry and of that conception which is common to the group as a whole Since the works treated are comparatively unfamiliar the author has considered them from a historical and an analytical as well as a critical point of view In addition he has devoted three special chapters to a literary historian Evrard Titon du Tillet and to three critical theorists Jean Baptiste Dubos Yves Marie Andr and Charles Batteux whose contemporary writings while they may or may not have influenced the poets here examined support reflect or confirm their ideas and practice Texts of these poets are not easily available and the numerous representative quotations from the poems given in this book will be welcomed by the reader **Jean-Baptiste Lully and the Music of the French Baroque**

James R. Anthony, 1989-02-09 This volume of essays on Jean Baptiste Lully and his musical legacy honours the distinguished French baroque scholar James R Anthony Jean Baptiste Lully court composer to Louis XIV served as the principal architect of what would become known as the French style of music in the baroque era The style he created strongly influenced the great musical figures in England Purcell and Handel and Germany Bach and Telemann but Lully s music itself has received little attention Recently through the efforts of scholars and musicians concerned with the performance practices of Lully s time Lully s own music has begun to come alive in performance and recording These essays all by important baroque specialists cover significant aspects of Lully s life and works and the French tradition he influenced They constitute the first post war collection of studies centred on Lully and form a fitting tribute to Professor Anthony whose own French baroque music provided a stimulus for the work of an emerging generation of scholars *Companion to Baroque Music* Julie Anne Sadie, 1998-01-01 The Companion to Baroque Music is an illuminating survey of musical life in Europe and the New World from 1600 to 1750 With informative essays on the social national geographical and cultural contexts of the music and musicians of the period by such internationally known scholars as Peter Holman Louise Stein Michael Talbot Julie Anne Sadie Stanley Sadie and David Fuller the Companion offers a fresh perspective on the musical styles and performance practices of the Baroque era The Companion to Baroque Music is an illuminating survey of musical life in Europe and the New World from 1600 to 1750 With informative essays on the social national geographical and cultural contexts of the music and musicians of the period by such internationally known scholars as Peter Holman Louise Stein Michael Talbot Julie Anne Sadie Stanley Sadie and David Fuller the Companion offers a fresh perspective on the musical styles and performance practices of

the Baroque era     François Couperin and 'The Perfection of Music' David Tunley, 2016-04-15 François Couperin's contribution to the literature of baroque keyboard music has long been recognized. François Couperin and The Perfection of Music updates and expands upon David Tunley's valuable 1982 BBC Music Guide to the composer and examines the whole of Couperin's output including the organ masses, motets and chamber music in addition to the well-known works for harpsichord. Taking as its focal point Couperin's concept of the perfection of music through the union of the French and Italian styles, this book takes a more analytical approach to Couperin's work. Early chapters outline the main contrasting features of the two schools in the seventeenth and early eighteenth centuries and it becomes clear that Couperin's expressive power owed much to his fusion of the polarities of the French classical tradition with that of the Italian baroque. The book features a number of appendices including the prefaces to Couperin's work both in the original French and in English translation and a glossary of dances of the French baroque.

Canonic Repertoires and the French Musical Press William Weber, Beverly Wilcox, 2021 A bold application of the concept of canonical works to the development of French operatic and concert life in the eighteenth and nineteenth centuries. This long-awaited book by a leading historian of European music life offers a fresh reading of concert and operatic life by showing how certain musical works in eighteenth and nineteenth-century France came to be considered canonic that is admirable and worthy of being taken as models. In a series of interlinked essays, William Weber draws particular attention to the ways in which such reputations could shift in different eras and circumstances. The first chapter outlines how such a surge of reputation came about for Jean-Baptiste Lully after his death in 1687, followed a century later by one for the operas of Christoph Willibald Gluck and Niccolò Piccinni. Next, Beverly Wilcox contributes a crucial chapter exploring how a canon of sacred works evolved at the Concert Spirituel between 1725 and 1790. Subsequent chapters detail the rise of an incipient canon for Joseph Haydn's music in the 1780s, a new operatic canon centered on works of Gioachino Rossini and Giacomo Meyerbeer, a century-long canonic repertory at the theater of the Opéra Comique and between 1860 and 1914 frequent concert performances of excerpts from Wagner's operas, sometimes along with excerpts from Meyerbeer's. Throughout, Weber and Wilcox demonstrate how the French musical press reflected musical taste and also shaped it across two centuries.

Irving, 2024 In this book author D R M Irving traces the emergence of such large scale categories as European music and Western music showing how they originate from self-fashioning in contexts of intercultural comparison outside the European continent rather than the resolution of national aesthetic differences within it Taken as a whole this study demonstrates how reductive labels for the musics of a continent or a hemisphere often imply homogeneity and essentialism and how a renewed critique of primary sources can help dismantle historiographical constructs that arose within narratives of musical pasts involving Europe **Bibliotheca Pinelliana** Maffeo Pinelli, Jacopo Morelli, 1789 *String Virtuosi in Eighteenth-Century*
