Fútbol in the Park David Trouille, 2021-02-02 You know the scene amateur soccer players battling over the ball spectators cheering from the sidelines vendors selling their wares from carts Over the past half century immigration from Latin America has transformed the public landscape in the United States and numerous communities are witnessing one of the hallmarks of this transformation the emergence of park soccer In *Fútbol in the Park* David Trouille takes us into the world of Latino soccer players who regularly play in an upscale Los Angeles neighborhood where they are not always welcome Together on the soccer field sharing beers after the games and occasionally exchanging taunts or blows the men build relationships and a sense of who they are Through these engrossing revealing and at times immortalizing activities they forge new identities friendships and job opportunities giving themselves a renewed sense of self worth and community As the United States becomes increasingly polarized over issues of immigration and culture *Fútbol in the Park* offers a close look at the individual lives and experiences of migrants

Houston's Hermann Park Alice (Barrie) M. Scardino Bradley, 2013-11-08 Richly illustrated with rare period photographs Houston's Hermann Park A Century of Community provides a vivid history of Houston's oldest and most important urban park Author and historian Barrie Scardino Bradley sets Hermann Park in both a local and a national context as this grand park celebrates its centennial at the culmination of a remarkable twenty year rejuvenation As Bradley shows Houston's development as a major American city may be traced in the outlines of the park's history During the early nineteenth century Houston leaders were most interested in commercial development and connecting the city via water and rail to markets beyond its immediate area They apparently felt no need to set aside public recreational space nor was there any city owned property that could be so developed By 1910 however Houston leaders were well aware that almost every major American city had an urban park patterned after New York's Central Park By the time the City Beautiful Movement and its overarching Progressive Movement reached the consciousness of Houstonians Central Park's designer Frederick Law Olmsted had died but his ideals had not Local advocates of the City Beautiful Movement like their counterparts elsewhere hoped to utilize political and economic power to create a beautiful spacious and orderly city Subsequent planning by the renowned landscape architect and planner George Kessler envisioned a park that would anchor a system of open spaces in Houston From that groundwork in May 1914 George Hermann publicly announced his donation of 285 acres to the City of Houston for a municipal park Bradley develops the events leading up to the establishment of Hermann Park then charts how and why the park developed including a discussion of institutions within the park such as the Houston Zoo the Japanese Garden and the Houston Museum of Natural Science The book's illustrations

include plans maps and photographs both historic and recent that document the accomplishments of the Hermann Park Conservancy since its founding in 1992 Royalties from sales will go to the Hermann Park Conservancy for stewardship of the park on behalf of the community

Bogotá from the Air, 2002 Majestic at 2 600 metres above sea level Bogot shows its best face from the air The book provides a different perspective to admire the best facet of one of the largest cities in South America and to enjoy it with the dignity that only height can provide From north to south and from east to west Bogot from the Air is a due homage to the city that is capable of bringing as many emotions as people together The book is the testimony of an evolutionary model that has turned the city over the past forty years into an urban centre in constant growth improvement and expansion However the city s evolution has managed to maintain the individual the citizen at the heart of this process Far from turning the city into a huge stone mass of asphalt and buildings its development renews it and floods it with vitality considering the fact that it breathes feeds and lives The traditional barrios parks historical and cultural centres dress up Bogot in its most splendourous gown to show it from a perspective that its early settlers could have never imagined 500 years ago
