*The Wildlife-Friendly Vegetable Gardener* Tammi Hartung, 2013-12-31 A medical herbalist and certified organic grower through gentle smart methods shows gardeners how to create a peaceful co-existence between their vegetable garden and the wildlife who consider it part of their habitat Original

**Rhapsody in Green: A Writer, an Obsession, a Laughably Small Excuse for a Vegetable Garden** Charlotte Mendelson, 2018-07-16 Charming inspiring uplifting pure lovely Marian Keyes Read Rhapsody in Green A novelist's beautiful useful essays about her tiny garden India Knight Glorious for anyone who loves fruit vegetables herbs and language It makes you see them with new eyes Diana Henry A witty account of extreme allotmenting for all obsessive gardeners Mail on Sunday An extremely

entertaining and inspiring story of one woman's passionate transformation of a small irregular shaped urban garden into a bountiful source of food. *Woman Home* A gardening book like no other this is the author's love letter to her garden. She relays warm and witty stories about the trials and tribulations throughout her gardening year. *Garden News* this inspirational funny book written by someone who hankers after a homesteader's lifestyle will make you look at even your window box in a new more productive light. *The Simple Things Gardening* can be viewed as a largely pointless hobby but the evangelical zeal and camaraderie it generates is unique. Charlotte Mendelson is perhaps unusually passionate about it. For despite her superficially normal existence despite the fact that she has only six square metres of grotty urban soil and a few pots she has a secret life. She is an extreme gardener an obsessive an addict. And like all addicts she wants to spread the joy. Her garden may look like a nasty drunk old man's mini allotment chaotic virtually flowerless with weird recycling and nowhere to sit. When honoured friends are shown it they tend to laugh. However it is actually a tiny jungle a minuscule farm a wildly uneconomical experiment in intensive edible cultivation on which she grows a taste of perhaps a hundred kinds of delicious fruits and odd vegetables. It is a source of infinite happiness and deep peace. It looks completely bonkers. Arguably it's the most expensive time consuming undecorative and self-indulgent way to grow a salad ever invented but when tired or sad or cross it never fails to delight.

*The Humane Gardener* Nancy Lawson, 2017-04-18 In this eloquent plea for compassion and respect for all species journalist and gardener Nancy Lawson describes why and how to welcome wildlife to our backyards. Through engaging anecdotes and inspired advice profiles of home gardeners throughout the country and interviews with scientists and horticulturalists Lawson applies the broader lessons of ecology to our own outdoor spaces. Detailed chapters address planting for wildlife by choosing native species providing habitats that shelter baby animals as well as birds bees and butterflies creating safe zones in the garden cohabiting with creatures often regarded as pests letting nature be your garden designer and encouraging natural processes and evolution in the garden. *The Humane Gardener* fills a unique niche in describing simple principles for both attracting wildlife and peacefully resolving conflicts with all the creatures that share our world.
