Transformative Sustainable Development Kei Otsuki,2014-12-05 Recent debates about sustainable development have shifted their focus from fixing environmental problems in a technocratic and economic way to more fundamental changes in social political processes and relations In this context participation is a genuinely transformative approach to sustainable development yet the process by which participation leads to transformation is not sufficiently understood This book considers how the act of participating in sustainable development projects can bring about social transformation that is considered to be fair and just by the participants and non participants in a broader societal context Drawing on ideas from social theory and applied anthropology the book proposes a reflexivity based framework to analyse participation as a type of social action underpinned by primary experience Development projects have a transformative effect when participants are given the opportunity to reflect on their experience share the reflection with others and open new space for collective deliberation and change The book applies this framework to assess community based participatory projects in the Amazon African slums and rural settlements and disaster stricken areas in Japan It also outlines potential institutions of governance to institutionalize the change by referring to current food governance drawing out lessons with international relevance This book will be of interest to students of sustainable development environmental policy and development studies as well as practitioners and policy makers in these fields

Samuel Hickey,Giles Mohan,2005-03-02 Participatory techniques have established themselves in both project implementation in developing countries and community interventions in industrial countries Recently participation has been fashionably dismissed as more rhetoric than substance and subject to manipulation by agents pursuing their own agendas under cover of community consent In this important new volume development and other social policy scholars and practitioners seek to rebut this simplistic conclusion They show how participation can help produce genuine transformation for marginalized communities This volume is the first comprehensive attempt to evaluate the state of participatory approaches in the aftermath of the Tyranny critique It captures the recent convergence between participatory development

and participatory governance It revisits the question of popular agency as well as spanning the range of institutional actors involved the state civil society and donor agencies The volume embeds participation within contemporary advances in development theory **Working with Rural Communities Participatory Action Research in Kenya** Chitere, Orieko P.,Mutiso, Roberta,2015-03-16 This book addresses itself to mobilisation and involvement of rural people in development projects It describes an imperfect but nonetheless exciting and thought provoking exercise that drew social science researchers and students from four public universities in Kenya into an experiment in participatory research community education and development in two locations The experiment was grounded on the assumptions that the people of Kenya are a primary resource and that given proper roles and contribution of planners researchers and programme implementers self sustainable development can become a reality The contributors of this book have focused on the potential of the university to facilitate participation of the people in development They have given specific suggestions on how this might be accomplished

analysis of the issues and develops a participatory framework for urban management Using case studies and existing examples from around the world and drawing on lessons learned from previous experience it then develops the theory into a practical working model Effective participatory urban management calls for a fundamental rethink on the part of all the actors involved from local authorities and development agencies through local and international NGOs to the community based organisations and the communities themselves In redefining their roles and relationships Sharing the City presents a new and radically different yet viable and effective approach to the concept of urban management
