National Labor Relations Board,1992-12 **Participative Transformation** Roger Klev,Morten Levin,2016-05-13 In Participative Transformation Roger Klev and Morten Levin insist that participative learning and developmental processes are essential in organizational change They focus on introducing the kind of learning and development that shapes a self sustaining developmental process that is an integral part of the daily activities of an organisation This process is essentially one of collective reflection in order to develop alternatives for action experimentation to achieve desired goals then collective reflection on the results achieved Reflection on own practice can contribute to direct improvements of own practice but may also contribute to new practices new frameworks of understanding and to processes involving other participants and fields of interaction The first part of the book provides an introduction to participative change management and particularly to the

concept of co generative learning inherited from action research in which change becomes a joint management and employee learning development and knowledge creating process In the second part the focus of each chapter is on an aspect of the practice of leading change There is practical guidance for leaders internal problem owners external change agents or action researchers on how employees can be actively engaged in shaping their own work conditions Readers will learn how experiencing negative results as well as success can form a basis for continued development even on how to handle an organisational development process when it is in terminal trouble to ensure there is still learning from it The Human Organization Rensis Likert,1967 **Organizational Communication** Michael J. Papa,Tom D. Daniels,Barry K. Spiker,2008 Communication in organizations has changed drastically since the release of the first edition of this bestselling textbook This fully revised and updated edition delves into state of the art studies providing fresh insights into the challenges that organizations face today Yet this foundational resource remains a cornerstone in the examination of classic research and theory in organization communication Organizational Capital John F.
