*Cassava Research and Development in Asia: Exploring New Opportunities for an Acient Crop. , Achievement Motivation in the Leadership Role of Extension Agents* Maimunah Ismail,Roya Karami,2014-07-24 This book is relevant to the practice and theory of agricultural extension In the current context of significant changes in thinking policy and expectations

these changes require extension agents to respond to challenges in developing leadership skills to support and encourage changes at farm and household levels The book has identified the background personal and environmental factors influencing achievement motivation in the leadership role of extension agents The background factors are primary dimensions of diversity and are less amenable to change exert significant impacts and shape our basic self image sense of identity and early learning experiences Researchers often ignore the interdependence of the background factors with other secondary dimensions of diversity in which the latter are changeable personal characteristics that are acquired and may be modified or abandoned throughout life Although the secondary dimensions of diversity are more controllable they will be affected by other people s decisions which in this book we see as environmental factors The reliability and applicability of the above mentioned theoretical discussions have been tested in an original study involving extension agents in Iran *Wheat, Barley, and Triticale Cultivars* ,1993 *Extension Methodologies and Transfer of Agricultural Technology* Mr. Rohit
